Ecopsychology Peter H. Kahn, Jr., Patricia H. Hasbach, 2012-07-20 An ecopsychology that integrates our totemic selves our kinship with a more than human world with our technological selves We need nature for our physical and psychological well being Our actions reflect this when we turn to beloved pets for companionship vacation in spots of natural splendor or spend hours working in the garden Yet we are also a technological species and have been since we fashioned tools out of stone Thus one of this century's central challenges is to embrace our kinship with a more than human world our totemic self and integrate that kinship with our scientific culture and technological selves This book takes on that challenge and proposes a reenvisioned ecopsychology Contributors consider such topics as the innate tendency for people to bond with local place a meaningful nature language the epidemiological evidence for the health benefits of nature interaction the theory and practice of ecotherapy Gaia theory ecovillages the neuroscience of perceiving natural beauty and sacred geography Taken together the essays offer a vision for human flourishing and for a more grounded and realistic environmental psychology

Identity and the Natural Environment Susan Clayton, 2003-11-07 The often impassioned nature of environmental conflicts can be attributed to the fact that they are bound up with our sense of personal and social identity Environmental identity how we orient ourselves to the natural world leads us to personalize abstract global issues and take action or not according to our sense of who we are We may know

about the greenhouse effect but can we give up our SUV for a more fuel efficient car Understanding this psychological connection can lead to more effective pro environmental policymaking Identity and the Natural Environment examines the ways in which our sense of who we are affects our relationship with nature and vice versa This book brings together cutting edge work on the topic of identity and the environment sampling the variety and energy of this emerging field but also placing it within a descriptive framework These theory based empirical studies locate environmental identity on a continuum of social influence and the book is divided into three sections reflecting minimal moderate or strong social influence Throughout the contributors focus on the interplay between social and environmental forces as one local activist says We don't know if we're organizing communities to plant trees or planting trees to organize communities

Faith Traditions and Sustainability Nadia Singh, Mai Chi Vu, Irene Chu, Nicholas Burton, 2023-10-28 Major religious traditions have begun to reflect on sustainability concerns in their theology and practice Little research however has explored the implications of this development for organizational behavior as well as secular thinkers and practitioners of sustainable development This book elucidates the varied ways in which faith traditions provide new forms of coping mechanisms to deal with environmental challenges confronting humanity through an integrative review and critical analysis of recent research Bringing together a compendium of religious and faith traditions rooted in both Eastern and Western approaches the work provides a new perspective and presents alternative paradigms to deal with the contemporary ecological crises The UN Interfaith Statement on Climate Change 2021 highlights the importance of faith traditions to foster shared moral responsibility for the environment and set an example for the life style of billions of people and political leaders around the world to act more boldly in protecting people and planet This interdisciplinary work examines the interaction between management organizational settings and spirituality focusing on a range of contexts and spiritual traditions including Buddhism Sikhism Christianity Confucianism mindfulness practices and indigenous spiritual traditions Featuring theoretical papers and case studies from different contexts and geographical regions this book provides researchers faculty students and practitioners with a broad overview of the field from a research perspective while keeping an eye on building a bridge between scholarship and practice

The Multisensory Museum Nina Levent, Alvaro Pascual-Leone, 2014-03-06 Recent research in the cognitive sciences gives us a new perspective on the cognitive and sensory landscape In The Multisensory Museum Cross Disciplinary Perspectives on Touch Sound Smell Memory and Space museum expert Nina Levent and Alvaro Pascual Leone professor of neurology at Harvard Medical School bring together scholars and

museum practitioners from around the world to highlight new trends and untapped opportunities for using such modalities as scent sound and touch in museums to offer more immersive experiences and diverse sensory engagement for visually and otherwise impaired patrons Visitor studies describe how different personal and group identities color our cultural consumption and might serve as a compass on museum journeys Psychologists and educators look at the creation of memories through different types of sensory engagement with objects and how these memories in turn affect our next cultural experience An anthropological perspective on the history of our multisensory engagement with ritual and art objects especially in cultures that did not privilege sight over other senses allows us a glimpse of what museums might become in the future Education researchers discover museums as unique educational playgrounds that allow for a variety of learning styles active and passive exploration and participatory learning Designers and architects suggest a framework for thinking about design solutions for a museum environment that invites an intuitive multisensory and flexible exploration as well as minimizes physical hurdles While attention has been paid to accessibility for the physically impaired since passage of the Americans with Disabilities Act making buildings accessible is only the first small step in elevating museums to be centers of learning and culture for all members of their communities This landmark book will help all museums go much further The Psychology of Environmental Problems Susan M. Koger, Deborah DuNann Winter, 2011-01-07 This textbook demonstrates how eight major approaches in psychology can be applied to create a more sustainable society facing environmental threats It can be used as text in Ecological Psychology Environmental Science Education and Sustainability Sciences It is also a valuable resource for policymakers legislators and those working on sustainable communities *Ecopsychology* Darlyne G. Nemeth, Robert B. Hamilton, Judy Kuriansky, 2015-09-09 This anthology is a two volume work that focuses on our relationship with the Earth and our future examining the crossover between psychology and environmental studies in the emerging fields of ecopsychology and environmental psychology This set offers the first comprehensive and holistic understanding of how our human activities are very rapidly changing the earth's environment and harming its inhabitants Since our present path of population growth and use of finite global resources is unsustainable we must find new ways to protect our environment and our future Offering unique perspectives and guidance toward holistic new solutions this reader friendly anthology serves a vast audience in the fields of psychology and environmental studies as well as scientists humanitarians educators and policymakers This work presents readers with the latest research on psychology and the environment gives examples from around the world applies to programs for youth and adults and appeals to all stakeholders including those in public health policy environmental studies and more The reader will gain the perspective and understanding of policies needed to effect environmental change and holistically manage the direction of that change **American Journal of Theology**, 1917 Vols 2 6 include Theological and Semitic literature for 1898 1901 a bibliographical supplement to the American journal of theology and the American journal of Semitic languages and literatures By W Muss Arnolt Separately paged
