The Nature of Reality Steven E. Kaufman,2023-10-03 What is The Nature of

Reality Contrary to what almost all human beings presently believe we do not live in a physical Universe because as The Nature of Reality explains physical reality is just an appearance that is being created by our minds and then superimposed by projection upon the non physical reality that is both actually there and what we really are The problem that arises as a result of believing physical reality to be the reality that is actually there is that that mistaken belief causes physical reality to function like a misperceived reflection to continuously obscure one s own reality from their awareness thereby effectively trapping one s awareness in what is nothing more than a mind generated experiential dream that is neither the reality that is actually there nor the reality that one really is The Nature of Reality was written to provide you with the opportunity to free yourself from that experiential dream and from the suffering being trapped in that dream produces by using fundamental scientific facts to demonstrate that physical reality is not the reality that is actually there where it appears to be so you can rid your mind of the false belief in physical reality that it is inadvertently using to convert physical reality into a delusion that continuously hides from your awareness the non physical reality you really are Whether you know it or not your awareness is presently trapping itself in a mind generated experiential dream as a function of what is nothing more than a mistaken belief The question is Are you ready to loosen your grip on that belief so you can begin to wake up and become aware of the reality you really are **Physical science and physical reality** Louis Osgood Kattsoff,2013-11-11 **The Purpose of Physical**

Reality John S. Hatcher,2005 Why do spiritual beings human souls begin their lives in the physical world According to well known Baha i author scholar and educator John Hatcher the world is a classroom designed by God to instigate and nurture mental and spiritual growth The Purpose of Physical Reality examines the components of this classroom to show how everyday experience leads to spiritual insight Viewing life in this way we can learn to appreciate the overall justice of God s plan and the subtle interplay between human free will and divine assistance in unleashing human potential The idea of physical reality as a divine teaching device not only prepares us for further progress in the life beyond it also provides practical advice about how to attain spiritual and intellectual understanding while we are living on earth
