Nature and Man William Benjamin Carpenter, 2015-06-26 Excerpt from *Nature and Man Essays Scientific and Philosophical* The Essays contained in this volume represent chiefly the later phases of their writer's thoughts on the problems concerned with the interpretation of nature and man Some of the conclusions which they embody he believed to be of high importance in the guidance of life they were the result of long observation and reflection and in some cases differed widely from the ideas which his early education and his first studies had led him to adopt It is the aim of this sketch to indicate some of the processes which contributed to this change and to present as briefly as possible the connection between Dr Carpenter's widely varied work and the personality from which his many sided energy flowed out The long list of writings which bear his name exhibits an extraordinary range of labour and the historians of different branches of science will come upon the traces of his activity in fields that are rarely cultivated by the same hand It is not now desired to estimate the precise value of his numerous contributions to knowledge but rather to show what were the hidden purposes and guiding aims of his life what were the gifts of mind and heart which he brought to their fulfilment and how these took outward shape and form About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works NATURE & MAN William Benjamin 1813-1885 Carpenter, J.
