Nature of the Psyche Jane Roberts, 1996-02-29 Seth speaking exclusively through Jane Roberts reveals a startling new concept of self answering questions about the secret language of love human sexuality the real origins and incredible powers of dreams and how we choose our physical death sometimes years in advance For the first time Seth explains Why love is the basic language from which all others spring The bisexual nature of humanity and its biological and spiritual importance The true basis of homosexuality and lesbianism along with their private and social effects The benefits of recalling our dreams and consciously participating in them How dreams can prevent chronic illnesses by providing important therapeutic information Simple exercises you can do to expand your awareness of the deeper portions of your psyche and stretch your abilities to their fullest potential The psyche is a gestalt of aware energy in which your own identity resides inviolate yet ever changing as you fulfill your potentials You are your psyche s living expression its human manifestation Yet you allow yourselves often to become blind to brilliant aspects of your own existence Jane Roberts Speaking for Seth **The Nature of the Psyche, Its Human Expression** Jane Roberts, 1987 *The Outline of Parapsychology* Jesse Hong Xiong, 2009-11-09 This is a work of systematic parapsychology The book aims to construct a framework and system of parapsychology taking a comprehensive approach to the field The Outline of Parapsychology states that parapsychology has a different philosophical background from the existing science and religions and posits that pantheism could be the theoretical basis of parapsychology The book also integrates parapsychology with oriental philosophies and New Age movement thought The Individual and the Nature of Mass Events Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks Speaking exclusively through Jane Roberts Seth has repeatedly stressed the concept that we create our own reality according to our individual beliefs But how do our realities merge and combine to form mass reactions such as the overthrow of governments the birth of a new religion wars epidemics earthquakes and new periods of art architecture and technology In this pioneering

work Seth explores the connection between personal beliefs and world events He pinpoints the unconscious and often negative beliefs pervading science and religion medicine and mythology and offers thought provoking reflections on Darwinism Freudianism religions cults and medical beliefs With fascinating and inspiring implications Seth asserts that the personal impulses we are often taught to see as dangerous chaotic or contradictory are instead crucial to the best interests of the species and the natural world for they lead us to live not only as loving caretakers but as partners with other species Only people who trust their spontaneous impulses can be consciously wise enough to choose from a myriad of probable futures the most promising events Jane Roberts Speaking for Seth The Nature of Personal Reality (A Seth Book) Jane

Roberts,2011-10-01 In this perennial bestseller Seth challenges our assumptions about the nature of reality and shows us how we create our personal reality through our conscious beliefs about ourselves others and the world His message is clear we are not at the mercy of the subconscious or helpless before forces we cannot understand We are Gods couched in creaturehood Seth says We are given the ability to form our experience as our thoughts and feelings become actualized Seth was one of my first metaphysical teachers He remains a constant source of knowledge and inspiration in my life Marianne Williamson I would like to see the Seth books as required reading for anyone on their spiritual pathway The amazing in depth information in the Seth books is as relevant today as it was in the early 70s when Jane Roberts first channeled this material Louise Hay Introduction to Transpersonal Psychology Paul F. preeminent psychics is unique in its focus on individual psychology and interpersonal relationships. It begins with simple meditations during which practitioners learn how to recognize their own psychic energy and also determine if that energy is constrained. Psychic Psychology shows how to free energy through such tools as grounding, clearing, psychic enmeshment, and finding the space from which to respond most openly, resourcefully, and generously to life. An entire chapter is devoted to exploring the specific energies men and women have based on their biological differences and helping them to deal with their own energy and that of the other sex. Friedlander and Hemsher present the everyday usefulness of clairvoyant skills within a big picture where they explain that we create our reality but do not control it and that the personality like the soul is eternal and always growing. The final section describes how psychic skills can be applied in real world contexts which are often ambiguous and contradictory. The book explores common issues such as dealing with self-doubt without jumping to unwarranted blind confidence and how to communicate effectively with clear boundaries.

Handbook of Spiritualism and Channeling, 2015-03-31

Bringing together scholars from different disciplines and geographies, the Brill Handbook of Spiritualism and Channeling presents modern spirit possession in a variety of contexts. Weaving together the interrelated movements of Spiritualism along with its specific Franco and Latin American currents, articles explore the nineteenth century beginnings of séances and trance mediumship. Channelling, an heir to Spiritualism begun in the 1970s and still flourishing today, is brought into direct conversation with its predecessors with a view to showing both continuity and disjuncture as the products of new cultural and religious needs. The Brill Handbook marks the first extensive collection on these two interrelated movements and examines themes such as gender, race, performance, and technology in each instance.

Acupressure for the Soul Nancy Fallon, 1993

Acupressure for the Soul: How to Awaken Biological Spirituality and the Gifts of Emotions offers a revolutionary view of the emotions inspired by Seth's comment: "Any strong emotion carries within it far more energy than say that required to send a rocket to the moon. Emotions send thoughts from this interior reality through the barrier between nonphysical and physical into the objective world, no small feat and one that is constantly repeated." Seth session 625, "The Nature of Personal Reality." Emotions, instead of something to manage or get rid of, are portrayed as magnificent sources of power to fulfill one's innately good purpose for being on Mother Earth at this time. The ancient teachings of Oriental Medicine, combined with the author's knowledge and personal Shamanic-like experiences, provide the reader with a unique formula of how to experience BIOLOGICAL SPIRITUALITY and utilize THE GIFTS OF THE EMOTIONS.
