Aelian's On the Nature of Animals Gregory McNamee, 2012-08-31

Not much can be said with certainty about the life of Claudius Aelianus known to us as Aelian He was born sometime between A D 165 and 170 in the hill town of Praeneste what is now Palestrina about twenty five miles from Rome Italy He grew up speaking that town s version of Latin a dialect that other speakers of the language seem to have found curious but somewhat unusually for his generation though not for Romans of earlier times he preferred to communicate in Greek Trained by a sophist named Pausanias of Caesarea Aelian was known in his time for a work called Indictment of the Effeminate an attack on the recently deceased emperor Marcus Aurelius Antoninus who was nasty even by the standards of Imperial Rome He was also fond of making almanac like collections only fragments of which survive devoted to odd topics such as manifestations of the divine and the workings of the supernatural His De Natura Animalium On the Nature of Animals has a similar patchwork quality but it was esteemed enough in his time to survive more or less whole and it is about all that we know of Aelian s work today A mostly randomly ordered collection of stories that he found interesting enough to relate about animals whether or not he believed them Aelian s book constitutes an early encyclopedia of animal behavior affording unparalleled insight into what ancient Romans knew about and thought about animals and of particular interest to modern scholars about animal minds If the science is sometimes sketchy the facts often fanciful and the history sometimes suspect it is clear enough that Aelian had a fine time assembling the material which can be said in the most general terms to support the notion of a kind of intelligence in nature and that extends human qualities

for good and bad to animals His stories which extend across the known world of Aelian s time tend to be brief and to the point and many return to a trenchant question If animals can respect their elders and live honorably within their own tribes why must humans be so appallingly awful Aelian is as brisk as entertaining and as scholarly a writer as Pliny the much better known Roman natural historian That he is not better known is simply an accident he has not been widely translated into English or indeed any European language This selection from his work will introduce readers to a lively mind and a witty writer who has much to tell us **Nature's Garden** Neltje Blanchan,1900 **Mother Nature Is Trying to Kill You** Dan Riskin,2014-03-04 This fact filled and amusing trek through nature s dark side Kirkus Reviews reveals the fascinating weird and often perverted ways that Mother Nature fends only for herself It may be a wonderful world but as Dan Riskin host of the Animal Planet s TV show Monsters Inside Me explains it s also a dangerous disturbing and disgusting one At every turn it seems living things are trying to eat us poison us use our bodies as their homes or have us spread their eggs In Mother Nature Is Trying to Kill You Riskin is our tour guide through the natural world at its most gloriously ruthless Using the seven deadly sins as a road map Riskin offers dozens of jaw dropping examples that illuminate how brutal nature can truly be From slothful worms that hide in your body for up to thirty years to wrathful snails with poisonous harpoons that can kill you in less than five minutes to lustful ducks that have orgasms faster than you can blink these fascinating accounts reveal the candid truth about gentle Mother Nature s true colors Riskin s passion for the strange and his enthusiastic expertise bring Earth s most fascinating fauna and flora into vivid focus Through his adventures which include sliding on his back through a thick soup of bat guano just to get face to face with a vampire bat befriending a parasitic maggot that has taken root in his head and coming to grips with having offspring of his own Riskin makes unexpected discoveries not just about the world all around us but also about the ways this brutal world has shaped us as humans and what our responsibilities are to this terrible wonderful planet we call home Old and New Media after Katrina Diane Negra,2016-02-10 Ten years after Hurricane Katrina this thoughtful collection of essays reflects on the relationship between the disaster and a range of media forms The assessments here reveal how mainstream and independent media have responded sometimes innovatively sometimes conservatively to the political and social ruptures Katrina has come to represent The contributors explore how Hurricane Katrina is positioned at the intersection of numerous early twenty first century crisis narratives centralizing uncertainties about race class region government and public safety Looking closely at the organization of public memory of Katrina this collection provides a timely and intellectually fruitful assessment of the complex ways in which media forms and national events are hopelessly entangled **Listverse.com's Epic Book of Mind-Boggling Lists** Jamie Frater,2014-05-13 Features lists that cover a broad range of subjects including bizarre births weird jobs crazy diets strange phobias historical oddities religious scandals ridiculous criminal acts and weird superstitions
