Nobility Land And Service In Medieval Hungary:

Nobility, Land and Service in Medieval Hungary Martyn C. Rady, 2000 *Nobility, Land and Service in Medieval Hungary* M. Rady, 2000-10-27 The absence in medieval Hungary of fief holding and vassalage has often been cited by historians as evidence of Hungary's early deviation from European norms This new book argues that medieval Hungary was nevertheless familiar with many institutions characteristic of noble society in Europe Contents include the origins of the Hungarian nobility and baronage lordship and clientage the role of the noble kindred conditional landholding the organization of the frontier the administration of the counties and the establishment of representative institutions

Rulership in Medieval East Central Europe, 2021-11-01 This book provides the first detailed overview of research on rulership in theory and practice with a particular emphasis on the monarchies of Bohemia Hungary and Poland in the High and Late Middle Ages The contributions examine the legitimation of rule of the first local dynasties the ritual practice of power the ruling strategies and practices of power in the established monarchies and the manifold influences on the rulership in East Central Europe from outside the region such as from Byzantium and the Holy Roman Empire The collection shows that these ideas and practices enabled the new polities to become legitimate members of Latin Christendom **The Routledge Handbook of East Central and Eastern Europe in the Middle Ages, 500-1300** Florin Curta, 2021-11-29 The Routledge Handbook of East Central and Eastern Europe in the Middle Ages 500 1300 is the first of its kind to provide a point of reference for the history of the whole of Eastern Europe during the Middle Ages While historians have recognized the importance of integrating the eastern part of the European continent into surveys of the Middle Ages few have actually paid attention to the region its specific features problems of chronology and historiography This vast region represents more than two thirds of the European continent but its history in general and its medieval history in particular is poorly known This book covers the history of the whole region from the Balkans to the Carpathian Basin and the Bohemian Forest to the Finnish Bay It provides an overview of the current state of research and a route map for navigating an abundant historiography available in more than ten different languages Chapters cover topics as diverse as religion architecture art state formation migration law trade and the experiences of women and children This book is an essential reference for scholars and students of medieval history as well as those interested in the history of Central and Eastern Europe

Customary Law in Hungary Martyn Rady, 2015-08-06 This is the first comprehensive treatment in any language of the history of customary law in Hungary from the thirteenth to the twentieth centuries Hungary's customary law was described by Stephen Werboczy in 1517 in the extensive law code known as the Tripartitum As Werboczy explained Hungarian law derived from the interplay of Romano canonical law statute written instruments and court judgments It was also responsive however to popular conceptions of the law's content and application as communicated through the lay membership of the kingdom's courts Publication of the Tripartitum was intended to make the law more certain by fixing it in writing

Nevertheless its text was customized by actual use in the same way as the statute laws of the kingdom were adjusted as a consequence of court practice and of errors in their transmission The reputation attaching to the Tripartitum and Hungary's insulation from the Roman Law Reception meant that the Tripartitum continued to retain authority until well into the nineteenth century Attempts to replace it foundered and it was the principal text on which the courts and the schools relied not only in Habsburg Hungary but also in Transylvania Courts nevertheless continued to modify its provisions in the interests of rendering judgments that they deemed either to be right or in conformity with developing practices Even after the establishment of a parliamentary form of government in the nineteenth century a strong customary element attached to Hungarian law which was amplified by the association of customary law with national traditions The consequence was that Hungary maintained aspects of a customary law regime until the Communist period

The Szekler Nation and Medieval Hungary Nathalie Kalnoky, 2019-12-26 In 13th century the Szeklers were granted a territory Terra Sirulorum on the eastern border of the kingdom of Hungary These lands were donated by the king to the community as a whole in exchange for the armed border guard service The use of Szekler customary law based on a military judicial and most likely multi ethnic clan structure was confirmed by the Hungarian crown Based on extensive archival sources from the 13th to 16th centuries this fascinating book examines how customary law maintains complex structures of clan membership as a condition of access to judicial and military dignities and how the Szeklers developed rules for land ownership and devolution These documents recall legal principles in which the clan has pre eminence over individuals all free and equal before their laws In this period one can observe an evolution towards individual property a factor of inequality constantly shaped and limited by the Szeklers determination to safeguard their freedom This unique text is vital reading for scholars interested in Hungarian history medieval law and clan structures

Lordship and the Decentralized State in Late Medieval Europe Erika Graham-Goering, Jim van der Meulen, Frederik Buylaert, 2025-01-23 Lordship and the Decentralized State in Late Medieval Europe rethinks the rise of modern European states as a process of decentralization The idea that states made lordships obsolete is challenged by showing how the distribution of authority among local lords reinforced the development of new political systems

The Military Orders: On land and by sea Malcolm Barber, Judith Mary Upton-Ward, 1994 The twenty seven papers published here represent a selection of those delivered at the Fourth International Conference on the Military Orders in 2005 Architecture archaeology and the part which the orders played in Europe are well represented along with work on northern

and eastern Europe Four papers deal specifically with military or naval matters while another four deal with the spiritual life of the brothers and sisters Family relationships represent a growing field of interest Slavery in Árpád-era Hungary in a Comparative Context Cameron Sutt,2015-07-28 In Slavery in Árpád-era Hungary in a Comparative Context Cameron Sutt examines servile labour in the first three centuries of the Hungarian kingdom and compares it with dependent labour in Carolingian Europe Such comparative methodology provides a particularly clear view of the nature of dependent labour in both regions Using legislation as well as charter evidence Sutt establishes that lay landlords of Árpádian Hungary frequently relied upon slaves to work their land but the situation in Carolingian areas was much more complex The use of slave labour in Hungary continued until the end of the thirteenth century when a combination of economic and political factors brought it to an end

Hungary's Long Nineteenth Century Laszlo Péter,2012-03-23 Laszlo Péter whose fourteen carefully selected essays are edited in this posthumous collection was an indefatigable seeker of the most appropriate terminological modelling and narrative reconstruction of Hungary's late nineteenth and early twentieth century progress from an essentially feudal entity into a modern European state The articles examine thorny subjects such as the growing tensions between the nationalities living within the multi ethnic kingdom language rights autocracy democracy and civil rights in Hungary perceived in a wider European context the concept of the Holy Crown the army question church state relations the role of the intellectuals and the changing British perception of Hungary The central focus of the author's microscope is reserved for a substantive re evaluation of the Settlement between Hungary and the Austrian Empire in 1867 which had a decisive impact on the eventual fate of the old kingdom of Hungary and of the rest of Central Europe The Realm of St Stephen Pal Engel,Pal Engel,Andrew Ayton,Pál Engel,2001-02-23 Now recognised as the standard work on the subject Realm of St Stephen is a comprehensive history of medieval Eastern and Central Europe Pal Engel traces the establishment of the medieval kingdom of Hungary from its conquest by the Magyar tribes in 895 until defeat by the Ottomans at the Battle of Mohacs in 1526 He shows the development of the dominant Magyars who upon inheriting an almost empty land absorbed the remaining Slavic peoples into their culture after the original communities had largely disappeared

A Handbook of Military Conscription and Composition the World Over Rita J. Simon,Mohamed Alaa Abdel-Moneim,2011-10-16 This book provides data on the main policies guiding military mobilization and structures It addresses the gender racial and political forces that shaped these policies The Holy Crown and the Hungarian Estates Kees Tszelszky,2023-04-17 This book is about one of the most important elements of the political narratives in the history of Hungary in past and present the Holy Crown of Hungary This object is one of the most widely used symbols of modern Hungarian nationalism in our times and has been in use for ages in political culture Surprisingly less is known how the meaning of the crown has changed over the centuries and how this influenced the development of national identity in the early modern period Starting point is that the medieval doctrine of the holy crown is a modern invention Tszelszky's research concentrates on the relation between the

change in the meaning of this crown and the construction of an early modern national identity between 1572 and 1665 Using a constructivist method of research the author shows how the Habsburg ruler and the Hungarian estates legitimised their political program through an image of the crown and the Hungarian political community In a short period between the end of 1604 and 1613 during a rebellion in Hungary a war with the Ottomans and a strife between Emperor Rudolf II and his brother Archduke Matthias the medieval tradition of the holy crown was revived and redeveloped by Hungarian and foreign historiographers into an ideology which is still present today *The Economy of Medieval Hungary*, 2018-04-10 The Economy of Medieval Hungary is the first concise English language volume about the economic life of medieval Hungary It is a product of the cooperation of specialists representing various disciplines of medieval studies including archaeologists archaeozoologists specialists in medieval demography historical hydrologists climate and environmental historians as well as archivists and church historians The twenty five chapters of the book focus on structures of medieval economy different means and ways of human nature interactions in production and offer an overview of the different spheres of economic life with a particular emphasis on taxation income and commercial activity Thanks to its interdisciplinary character this volume is a basic handbook for the history of economy production and material culture Contributors are Krisztina Arany L szl Bartosiewicz Zolt n Batizi Anna Zs fia Biller P ter Csipp n L szl Dar czi Szab M rta Dar czi Szab Istv n Drask czy Istv n Feld L szl Ferenczi Erika G l M rton Gy ngy ssy Istv n Kenyeres Istv n Kov ts Andr s Kubinyi Kyra Lyublyanovics rp d N gr dy va gnes Nyerges Istv n Petrovics Zsolt Pinke Beatrix F Romh nyi Katalin Szende L szl Szende Magdolna Szil gyi Csaba T th and Bogl rka Weisz **An Eoraip: Gaelic Ireland in Medieval and Early Modern Europe**, 2025-08-14 Medieval and early modern Irish scholars thought of themselves as Europeans As an expression of territorial association this belief reflects both their familiarity with the geographical traditions of Antiquity and the integration of their society into economic cultural and political networks that spanned the continent But it was also an articulation of a perceived cultural affinity often denied in modern scholarship The chapters in this volume examine the many and various ways that Gaelic Ireland was integrated into the broader European world focusing on literature and learning real world politics economics and travel and questions of identity Contributors are Rachel Brody Michael Clarke Simon Egan Deborah Hayden Brendan Kane Victoria L McAlister Ken Donnchu Patricia Palmer Brian Stone and Patrick Wadden *Oxford Handbook of Medieval Central Europe* Nada Zečević, Daniel Ziemann, 2022 A unique comparative presentation of a region that is often considered forgotten this handbook provides a variety of expertly informed perspectives on life and society in medieval Central Europe and its dynamic interactions across the continent **Climbing up the Social Ladder?** Vlad Popovici, Alice Velková, Martin Klečáček, 2024-10-21 Social mobility is about climbing the societal ladder or switching to a better more promising or rewarding position But how does this work for those already atop or very close to it Climbing up the Social Ladder explores instances of social mobility among different types of positional decisional and status defined elites in East Central Europe
