ABSTRACT

Nigeria is facing profound social, economic and environmental impact of population growth, development and environmental constraints. It is apparent that government alone has limited capacity to deal with all these problems. NGOs being one of the most effective partners have been playing supportive roles with the government, in some cases, they are considered more effective to get attached with the grass root level developmental initiatives. However, despite the role NGOs played, their presence and impact is not fully evaluated, recognized and appreciated by many governments and community members. It is for this reason this article attempts to examine whether projects executed by NGOs have any impact on sustainable development in Katsina Metropolis, given special emphasis on projects that dealt with environmental protection, poverty alleviation and health care services. Nongovernmental Organizations In Malawi The Contribution To Development And Democratization:

Non-governmental Organizations in Malawi M. Glasgow, 1997 The role of Non Governmental Organizations in Africa has been widely discussed Malawi like other African countries underwent a transition towards pluralism and democratization The NGOs play a vital part in this process especially since state bureaucracies and market mechanisms do not provide the expected development But are NGOs really able to make up for the shortcomings of official institutions considering the problems that still lie ahead Taking their historical political economic and social environment into consideration the study draws a picture of NGOs in Africa with all their possibilities and limitations Competitive Authoritarianism Steven

Levitsky, Lucan A. Way, 2010-08-16 Based on a detailed study of 35 cases in Africa Asia Latin America and post communist Eurasia this book explores the fate of competitive authoritarian regimes between 1990 and 2008 It finds that where social economic and technocratic ties to the West were extensive as in Eastern Europe and the Americas the external cost of abuse led incumbents to cede power rather than crack down which led to democratization Where ties to the West were limited external democratizing pressure was weaker and countries rarely democratized In these cases regime outcomes hinged on the character of state and ruling party organizations Where incumbents possessed developed and cohesive coercive party structures they could thwart opposition challenges and competitive authoritarian regimes survived where incumbents lacked such organizational tools regimes were unstable but rarely democratized **Mission as God's Spiral of Renewal** Ross,

Kenneth R., 2019-02-06 In this remarkable volume covering diverse subjects in a span of three decades Kenneth R Ross articulates his views on the meaning and practice of Christian mission and challenges the binary view of mission that prevailed before the 1950s He further reflects on Scotland's experiences in the world wide Christian mission and demonstrates the centrality of Africa in any discourse on Christianity This volume is invaluable in its argument for a rethinking of Christian mission especially in relation to the West which is now a new frontier for Christian mission The book will be immensely beneficial to students of missiology and general readers who are interested in the subject of Christian Mission **Media, Development and Democracy** Heloisa Pait, Juliana Laet, 2021-12-08 Sponsored by the Communication

Makuwira, 2013-12-04 The Non Governmental Development Organisations NGDOs have over the past two decades entered centre stage in their active participation in the social political and economic issues affecting both the developing and developed world This book offers a highly stimulating and concise summary of the NGDO sector by examining their history and metamorphosis their influence on the social political and economic landscapes of the Northern and Southern governments and societies The author analyses competing theoretical and conceptual debates not only regarding their

contribution to the global social political dynamism but also on the sector's changing external influence as they try and mitigate poverty in marginalized communities This book presents NGOs as multidimensional actors propelled by the desire to make a lasting change but constrained by market oriented approaches to development and other factors both internal and external to their environment While a lot of attention has been given to understanding international NGOs like World Vision International Oxfam Care International and Plan International this book offers a critical analysis of grassroots organizations those NGOs founded and established by locals and operate at the deepest end of the development contexts This work will be of interest to students and scholars in a range of areas including Development Studies International Organizations and Globalization

Non-Governmental Organizations and the State in Latin America Anthony Bebbington, Graham Thiele, 2023-06-16 This presents twenty specially commissioned case studies of farmer participatory approaches to agricultural innovation initiated by NGOs in Latin America Beginning with a broad review of institutional activity at the grassroots the authors set the case material within the context of NGO relations with the State and their contribution to democratisation and the consolidation of rural civil society Specific questions are raised how good bad are NGOs at promoting technological innovation and addressing constraints to change in present agriculture how effective are NGOs at strengthening grassroots organizations and how do will donor pressures influence NGOs and their links to the State This title is part of a series on Non Governmental Organizations co ordinated by the Overseas Development Institute To complete this comprehensive review and critique there are two other regional case study volumes on Asia and Africa and an overview volume Reluctant Partners

Monitoring Democracy Judith G. Kelley, 2012-03-25 In recent decades governments and NGOs in an effort to promote democracy freedom fairness and stability throughout the world have organized teams of observers to monitor elections in a variety of countries But when more organizations join the practice without uniform standards are assessments reliable When politicians nonetheless cheat and monitors must return to countries even after two decades of engagement what is accomplished Monitoring Democracy argues that the practice of international election monitoring is broken but still worth fixing By analyzing the evolving interaction between domestic and international politics Judith Kelley refutes prevailing arguments that international efforts cannot curb government behavior and that democratization is entirely a domestic process Yet she also shows that democracy promotion efforts are deficient and that outside actors often have no power and sometimes even do harm Analyzing original data on over 600 monitoring missions and 1 300 elections Kelley grounds her investigation in solid historical context as well as studies of long term developments over several elections in fifteen countries She pinpoints the weaknesses of international election monitoring and looks at how practitioners and policymakers might help to improve them
