Justice Alexander S. Leidholdt, 2002-05-01 From his assumption of the Norfolk Virginian Pilot's editorial helm in 1919 until his death in 1950 Louis Isaac Jaff served as one of the South's leading and most respected liberal journalists Prejudice he faced as a Jew created in him an abiding empathy with the downtrodden and his World War I military service and subsequent Red Cross work deepened his sensitivity to injustice Alexander Leidholdt's new biography maps the battlefield of intolerance and civil rights violations on which Jaff fired his journalistic salvos and explores the complexities of a man who was poised to become a national spokesman for a better South Jaff worked ceaselessly to advance racial understanding successfully lobbying locally for black parks and beaches black police and a black college A high point of Leidholdt's book is the account of Jaff's attacks on mob justice a stirring record of one writer's response to what he saw as inexcusable moral sluggishness in civil authorities For his campaign urging Virginia lawmakers to adopt stiff antilynching legislation he earned the 1929 Pulitzer Prize for distinguished editorial writing Achieving a poignant balance between Jaff's significant professional accomplishments and the private pains he bore including anti-Semitism a mentally unstable wife and an estranged son this superb study demonstrates how Jaff's difficulties limited him as an active liberal reformer but also fueled his prescient and impassioned warnings against Hitler's rise to power in the early thirties Drawing extensively from primary source material much of it previously unexamined Editor for Justice makes an important contribution to journalism and to southern Jewish and black history Readers will treasure the depiction of an extraordinary champion of human rights **Classic**

Blue Laws and Black Codes Peter Wallenstein, 2013-02-20 Women were once excluded everywhere from the legal profession but by the 1990s the Virginia Supreme Court had three women among its seven justices This is just one example of how law in Virginia has been transformed over the past century as it has across the South and throughout the nation In *Blue Laws and Black Codes* Peter Wallenstein shows that laws were often changed not through legislative action or constitutional amendment but by citizens taking cases to state and federal courtrooms Due largely to court rulings for example stores in Virginia are no longer required by blue laws to close on Sundays Particularly notable was the abolition of segregation laws modified versions of southern states black codes dating back to the era of slavery and the first years after emancipation Virginia's long road to racial equality under the law included the efforts of black civil rights lawyers to end racial discrimination in the public schools the 1960 Richmond sit ins a case against segregated courtrooms and a court challenge to a law that could imprison or exile an interracial couple for their marriage While emphasizing a single state *Blue Laws and Black Codes* is framed in regional and national contexts Regarding blue laws Virginia resembled most American states Regarding racial policy Virginia was distinctly southern Wallenstein shows how people pushed for changes in the laws under which they live love work vote study and shop in Virginia the South and the nation

Town House Bernard L. Herman, 2012-12-01 In this abundantly illustrated volume Bernard Herman provides a history of urban dwellings and the people who built and lived in them in early America In the eighteenth century cities were constant objects of idealization often viewed as the outward manifestations of an organized civil society As the physical objects that composed the largest portion of urban settings town houses contained and signified different aspects of city life argues Herman Taking a material culture approach Herman examines urban domestic buildings from Charleston South Carolina to Portsmouth New Hampshire as well as those in English cities and towns to better understand why people built the houses they did and how their homes informed everyday city life Working with buildings and documentary sources as diverse as court cases and recipes Herman interprets town houses as lived experience Chapters consider an array of domestic spaces including the merchant family's house the servant's quarter and the widow's dower Herman demonstrates that city houses served as sites of power as well as complex and often conflicted artifacts mapping the everyday negotiations of social identity and the display of sociability

Elusive Equality Jeffrey L. Littlejohn, Charles H. Ford, 2012-08-20 In *Elusive Equality* Jeffrey L. Littlejohn and Charles H. Ford place Norfolk Virginia at the center of the South's school desegregation debates tracing the crucial role that Norfolk's African Americans played in efforts to equalize and integrate the city's schools The authors relate how local activists participated in the historic teacher pay parity cases of the 1930s and 1940s how they fought against the school closures and Massive Resistance of the 1950s and how they challenged continuing patterns of discrimination by insisting on crosstown busing in the 1970s and 1980s Despite the advances made by local activists however Littlejohn and Ford argue that the vaunted urban advantage supposedly now enjoyed by Norfolk's public schools is not easy to reconcile with the city's continuing gaps and disparities in relation to race and class In analyzing the history of struggles over school integration in Norfolk the authors scrutinize the stories told by participants including premature declarations of victory that laud particular achievements while ignoring the larger context in which they take place Their research confirms that Norfolk was a harbinger of national trends

in educational policy and civil rights Drawing on recently released archival materials oral interviews and the rich newspaper coverage in the Journal and Guide Virginian Pilot and Ledger Dispatch Littlejohn and Ford present a comprehensive multidimensional and unsentimental analysis of the century long effort to gain educational equality A historical study with contemporary implications their book offers a balanced view based on a thorough sober look at where Norfolk s school district has been and where it is going

The Myth of Southern Exceptionalism Matthew D. Lassiter, Joseph Crespino, 2009-11-19 The Myth of Southern Exceptionalism dismantles clichés about regional distinctiveness and rewrites modern American history through a national focus on topics such as the civil rights movement conservative backlash and liberal reform the rise of the Religious Right the emergence of the Sunbelt and the increasing diversity of the suburbs

Defining Moments Kathleen Ann Clark, 2006-05-26 The historical memory of the Civil War and Reconstruction has earned increasing attention from scholars Only recently however have historians begun to explore African American efforts to interpret those events With *Defining Moments* Kathleen Clark shines new light on African American commemorative traditions in the South where events such as Emancipation Day and Fourth of July ceremonies served as opportunities for African Americans to assert their own understandings of slavery the Civil War and Emancipation efforts that were vital to the struggles to define assert and defend African American freedom and citizenship Focusing on urban celebrations that drew crowds from surrounding rural areas Clark finds that commemorations served as critical forums for African Americans to define themselves collectively As they struggled to assert their freedom and citizenship African Americans wrestled with issues such as the content and meaning of black history class inflected ideas of respectability and progress and gendered notions of citizenship Clark s examination of the people and events that shaped complex struggles over public self representation in African American communities brings new understanding of southern black political culture in the decades following Emancipation and provides a more complete picture of historical memory in the South

The Contagion of Liberty Andrew M. Wehrman, 2022-12-06 Now an LA Times Book Prize finalist a timely and fascinating account of the raucous public demand for smallpox inoculation during the American Revolution and the origin of vaccination in the United States Finalist of the LA Times Book Prize for History by the LA Times Winner of the Peter J Gomes Memorial Book Prize by the Massachusetts

Historical Society The Revolutionary War broke out during a smallpox epidemic and in response General George Washington ordered the inoculation of the Continental Army But Washington did not have to convince fearful colonists to protect themselves against smallpox they were the ones demanding it In *The Contagion of Liberty* Andrew M Wehrman describes a revolution within a revolution where the violent insistence for freedom from disease ultimately helped American colonists achieve independence from Great Britain Inoculation a shocking procedure introduced to America by an enslaved African became the most sought after medical procedure of the eighteenth century The difficulty lay in providing it to all Americans and not just the fortunate few Across the colonies poor Americans rioted for equal access to medicine while cities and towns shut down for quarantines In Marblehead Massachusetts sailors burned down an expensive private hospital just weeks after the Boston Tea Party This thought provoking history offers a new dimension to our understanding of both the American Revolution and the origins of public health in the United States The miraculous discovery of vaccination in the early 1800s posed new challenges that upended the revolutionaries dream of disease eradication and Wehrman reveals that the quintessentially American rejection of universal health care systems has deeper roots than previously known During a time when some of the loudest voices in the United States are those clamoring against efforts to vaccinate this richly documented book will appeal to anyone interested in the history of medicine and politics or who has questioned government action or lack thereof during a pandemic

How Cities Work Alex Marshall, 2000-12-31 Marshall writes with wit reason and style An excellent resource on the history and future of American cities *Library Journal* Do cities work anymore How did they get to be such sprawling conglomerations of lookalike subdivisions mega freeways and big box superstores surrounded by acres of parking lots And why most of all don t they feel like real communities These are the questions that Alex Marshall tackles in this hard hitting highly readable look at what makes cities work Marshall argues that urban life has broken down because of our basic ignorance of the real forces that shape cities transportation systems industry and business and political decision making He explores how these forces have built four very different urban environments the decentralized sprawl of California s Silicon

Valley the crowded streets of New York City's Jackson Heights neighborhood the controlled growth of Portland Oregon and the stage set facades of Disney's planned community Celebration Florida To build better cities Marshall asserts we must understand and intelligently direct the forces that shape them Without prescribing any one solution he defines the key issues facing all concerned citizens who are trying to control urban sprawl and build real communities His timely book is important reading for a wide public and professional audience

Old Dominion, New Commonwealth Ronald L. Heinemann, 2007 Tackles the four centuries of Virginia's history from Jamestown through the present emphasizing the major themes that play throughout Virginia history change and continuity a conservative political order race and slavery economic development and social divisions and how they relate to national events includes helpful bibliographical listings at the end of each chapter as well as a general listing of useful sources and Websites

Ploughshares Into Swords James Sidbury, 1997-10-13 During the summer of 1800 slaves in and around Richmond conspired to overthrow their masters and abolish slavery This book uses Gabriel's Conspiracy and the evidence produced during the repression of the revolt to expose the processes through which Virginians of African descent built an oppositional culture Sidbury portrays the rich cultures of eighteenth century black Virginians and the multiple and sometimes conflicting senses of identity that emerged among enslaved and free people living in and around the rapidly growing state capital The book also examines the conspirators vision of themselves as God's chosen people and the complicated African and European roots of their culture In so doing it offers an alternative interpretation of the meaning of the Virginia that was home to so many of the Founding Fathers This narrative focuses on the history and perspectives of black and enslaved people in order to develop Gabriel's Virginia as a counterpoint to more common discussions of Jeffersonian Virginia

Shadrach Minkins Gary Collison, 2009-07-01 In 1851 Minkins the first runaway to be arrested in New England under the 1850 Fugitive Slave Law became the catalyst of a dramatic episode of antebellum rebellion and legal wrangling Collison restores an extraordinary chapter to American history and offers an engrossing portrait of an ordinary Black man in 19th century North America

The Making and Unmaking of A Revolutionary Family Hamilton, 2003-04-29 In mid April 1814 the Virginia congressman John Randolph of Roanoke had reason to brood over his family's decline since the American Revolution The once sumptuous world of the Virginia gentry was vanishing its kinship ties crumbling along with its mansions crushed by democratic leveling at home and a strong federal government in Washington D C Looking back in an effort to grasp the changes around him Randolph fixated on his stepfather and onetime guardian St George Tucker The son of a wealthy Bermuda merchant Tucker had studied law at the College of William and Mary married well and smuggled weapons and fought in the Virginia militia during the Revolution Quickly grasping the significant changes political democratization market change and westward expansion that the War for Independence had brought changes that undermined the power of the gentry Tucker took the atypical step of selling his plantations and urging his children to pursue careers in learned professions such as law Tucker's stepson John Randolph bitterly disagreed

precipitating a painful break between the two men that illuminates the transformations that swept Virginia in the late eighteenth and early nineteenth centuries Drawing upon an extraordinary archive of private letters journals and other manuscript materials Phillip Hamilton illustrates how two generations of a colorful and influential family adapted to social upheaval He finds that the Tuckers eventually rejected wider family connections and turned instead to nuclear kin They also abandoned the liberal principles and enlightened rationalism of the Revolution for a romanticism girded by deep social conservatism *The Making and Unmaking of a Revolutionary Family* reveals the complex process by which the world of Washington and Jefferson evolved into the antebellum society of Edmund Ruffin and Thomas Dew
