National Transportation Safety Board acted as a public scold to shine bright lights on private failings while Federal Railroad Administration regulations reinforced market incentives for better safety Ultimately Aldrich concludes the past 50 years have seen great strides in restoring railroad safety while enhancing industry profitability Arguing that it was not inadequate safety regulation but rather stifling economic regulation that initially caused an uptick in train accidents Back on Track is both a paen to the return of more competitive railroading and the only comprehensive history of the safety of modern American railroads Praise for Death Rode the Rails A masterful study of the complex evolution of railroad safety American Historical Review Students of rail safety and today s Class I railroad managers need to read this volume Trains Aldrich has created a masterpiece His research is extensive drawing on a rich variety of obscure yet relevant sources Register of the Kentucky Historical Society One of the first large scale scholarly studies of railroad safety in America Railroad History A thought provoking and well grounded contribution to the history of American economic development Journal of American History Pioneering A central message of Aldrich s book is that little accidents played a crucial though until now largely hidden role in the gradual evolution of a risk society Technology and Culture A work of merit essential reading for historians of transport safety business and technology Journal of Transport History Impressive and thoroughly researched Demonstrates how railroad safety evolved from the intersection of market pressures technology and public sentiment Journal of Southern History Jane's World Railways 2009-2010 Ken Harris,Jackie Clarke,2009 The authority on rail systems around the globe Track the latest developments in railway systems and equipment manufacturers across the globe with this authoritative industry survey **Penn State Alumni Directory** ,2010 **Geology at Every Scale** Annette Summers Engel,Robert D.
