Odd Nerdrum Odd Nerdrum, 2001 **Odd Nerdrum** Odd Nerdrum, Richard Vine, 2004 The first one artist San Francisco gallery exhibition of Odd Nerdrum Odd Nerdrum Paintings Odd Nerdrum, 2007 This slender catalogue features the most recent body of work by the important figurative artist Odd Nerdrum The condition of man alone in the universe has long been Nerdrum's essential subject and the eight new paintings detailed here continue themes repeatedly explored by this consummate representational painter including such basic feelings and needs as love fear reverence and conflict as well as the ideas of man cast against nature society versus solitude and the limits of man's location within the universe Featuring haunting self portraiture and figures that float free of gravity and disconnected in space this volume offers a brief glimpse of Nerdrum's vision of man's position in the universe Removed from any earthly landscape man is not circumscribed by life on earth but is shown in the deep space of the night sky or the endless depth of primordial waters free to explore the boundaries of human potential **Odd Nerdrum** Odd Nerdrum, Jan-Erik Ebbestad Hansen, 1995 *Paintings, Sketches and Drawings* Odd Nerdrum, Richard Vine, 2004 **Odd Nerdrum, the Drawings** Odd Nerdrum, Richard Vine, Edgar John Bullard, 1994 Calling himself an historical anarchist Norwegian artist Odd Nerdrum has rejected the modernist development in art of the past 100 years Embracing the traditional values and techniques of the old masters particularly Rembrandt and Caravaggio Nerdrum creates a mythic Nordic world of barren landscapes populated with what appear to be lonely survivors of a lost civilization His constant theme is that of estrangement of man from the world from his fellows from himself Nerdrum repeatedly portrays a longing for reconciliation that can only be described as religious in intensity A dual strangeness pervades these graphic works Executed for the most part between 1985 and 1993 they reveal a desolate view of the human situation which the sumptuousness of their execution subtly contradicts This coupling of a forlorn vision with a paradoxical faith in technical virtuosity and artistic tradition stems from his rejection of modernism both as a style and as a progressive creed Odd Nerdrum Odd Nerdrum, Bjørn Li, 2007 Themes is the most comprehensive collection of Odd Nerdrum's works ever published Its 500 pages are filled with sketches drawings and studies along with excellent reproductions of the artist's most important and most recent finished works A wide selection of close up details offers the tightest possible view of Nerdrum's brushstrokes which will be of particular interest to students those who wish to learn his modern take on the Old Master style just as they would learn from the work of the Old Masters themselves The selection is the artist's own divided into 20 chapters devoted to space nudes portraits and other topics and presented chronologically within each chapter to show the development of specific motifs over the course of his career This structure and the wide range of work present provoke new insights into the central themes in Nerdrum's work and his treatment of them from first sketches to final canvases Nerdrum's latest works more than 40 paintings in all dating from the last five years are presented here for the first time They complete an unprecedented overview of his oeuvre a must for everyone interested in the how and why behind one
