

Pathways through and beyond gridlock

Shifts in major powers' core interests	Coalitions of powers with strong interest in solving problems (e.g. P5+1 and Iran over nuclear weapons)
Autonomous and adaptive international institutions	Some institutions have a degree of autonomy and adaptability (esp. legal institutions with 'generative' ability, the capacity to formulate new rules, e.g. International Energy Agency)
Technical groups with effective and legitimate processes	Technical groups in low politics contexts, where issues are expertise-based (e.g. intellectual property, internet domain names and protocols)
Multiple, diverse organisations and institutions coalesce around common goals	Pluralistic landscapes with common rules and goals (e.g. private legal organisations around the globe specialised in commercial dispute resolution)
Mobilisation of domestic constituencies for cooperation and compliance	Domestic constituencies being mobilised to push for cooperation and compliance at national level (e.g. National Human Rights Institutions that mobilise civil society)
Civil society coalitions with reformist states	Activist groups partner with progressive states, normally achieving gradual changes (e.g. creation of the International Criminal Court, the Mine Ban Treaty)
Innovative leadership as a reaction to gridlock	Agency of individual actors and leaders stimulates change, with the paradigm of 'norm entrepreneurship' (e.g. on the Responsibility to Protect doctrine)

Moving Beyond Gridlock:

Moving Beyond Gridlock Robert T. Dunphy, 1997 This volume attempts to put the transportation problem in the context of regional land use and to offer guidance to those who make transportation improvements and to planners who approve and implement projects that need transportation services

Beyond Gridlock Thomas Hale, David Held, 2017-09-25 It is now conventional wisdom to see the great policy challenges of the 21st century as inherently transnational. It is equally common to note the failures of the international institutions the world relies on to address such challenges. As the acclaimed 2013 book *Gridlock* argued, the world increasingly needs effective international cooperation, but multilateralism appears unable to deliver it in the face of deepening interdependence, rising multipolarity, and the growing complexity and fragmentation that characterise the global order. The *Gridlock* authors have now partnered with a group of leading experts to offer a trenchant reassessment of elements of the argument. Comparing anomalies and exceptions to multilateral dysfunction across a number of spheres of world politics, *Beyond Gridlock* explores seven pathways through and beyond gridlock. While multilateralism continues to fall short, *Beyond Gridlock* identifies systematic means to avoid or resist these forces and turn them into collective solutions. This book offers a vital new perspective on world politics as well as a practical guide for positive change in global policy.

The Limitless City Oliver Gillham, 2002-03 One of the great debates of our time concerns the predominant form of land use in America today: the all too familiar pattern of commercial and residential development known as sprawl. But what do we really know about sprawl? Do we know what it is? Where did it come from? Is it really so bad? If so, what are the alternatives? Can anything be done to make it better? *The Limitless City* offers an accessible examination of those and related questions. Oliver Gillham, an architect and planner with more than twenty-five years of experience in the field, considers the history and development of sprawl and examines current debates about the issue. The book offers a comprehensive definition of sprawl in America, traces the roots of sprawl and considers the factors that led to its preeminence as an urban and suburban form; reviews both its negative impacts (loss of open space, increased pollution, gridlock) as well as its positive aspects (economic development, personal freedom, privacy); considers responses to sprawl, including smart growth, urban growth boundaries, regional planning, and the New Urbanism; looks at what can be done to improve and counterbalance sprawl. The author argues that whether we like it or not, sprawl is here to stay, and only by understanding where it came from and why it developed will we be able to successfully address the problems it has created and is likely to create in the future. *The Limitless City* is the first book to provide a realistic look at sprawl with a frank recognition of its status as the predominant urban form in America now and into the near future. Rather than railing against it, Gillham charts its probable future course while describing critical efforts that can be undertaken to improve the future of sprawl and our existing urban core areas.

Latin America-European Union relations in the twenty-first century Arantza Gomez Arana, María J. García, 2022-03-22 Latin America-European Union relations in the twenty-first century provides a

valuable overview of transatlantic trade agreement negotiations and developments in the first decades of the twenty first century This edited collection examines key motivations behind trade agreements traces the evolution of negotiations and explores some of the initial impacts of new generation trade agreements with the EU on South American countries The book makes an important contribution to our understanding of relations between these regions by contextualising relations and trade agendas both in terms of domestic political and economic policies and broader global trends It demonstrates the importance of a shift toward mega regional trade agreements in the 2010s particularly under the Obama administration in the United States in shaping South American and European agendas for trade agreement negotiations and their outcomes Detailed case studies in the book investigate EU relations and negotiations with countries that have successfully negotiated new generation trade agreements with the EU Mercosur the Andean states Chile and Mexico Other contributions offer a wider overview of EU Latin American relations including parliamentary and civil society relations The net result is a balanced analysis of contemporary EU relations with South America useful for students and scholars of foreign policy and political economy in both regions

Taking Sustainable Cities Seriously, second edition Kent E. Portney, 2013-01-11 A theoretically driven comparison of sustainability programs in American cities updated with the latest research and additional case studies Today most major cities have undertaken some form of sustainability initiative Yet there have been few systematic comparisons across cities or theoretically grounded considerations of what works and what does not and why In Taking Sustainable Cities Seriously Kent Portney addresses this gap offering a comprehensive overview and analysis of sustainability programs and policies in American cities After discussing the conceptual underpinnings of sustainability he examines the local aspects of sustainability considers the measurement of sustainability and offers an index of serious sustainability for the fifty five largest cities in the country examines the relationship between sustainability and economic growth and discusses issues of governance equity and implementation He also offers extensive case studies with separate chapters on large medium size and small cities and provides an empirically grounded analysis of why some large cities are more ambitious than others in their sustainability efforts This second edition has been updated throughout with new material that draws on the latest research It also offers numerous additional case studies a new chapter on management and implementation issues and a greatly expanded comparative analysis of big city sustainability initiatives Portney shows how cities use the broad rubric of sustainability to achieve particular political ends and he dispels the notion that only cities that are politically liberal are interested in sustainability Taking Sustainable Cities Seriously draws a roadmap for effective sustainability initiatives

Urban and Regional Planning and Development Rajiv R. Thakur, Ashok K. Dutt, Sudhir K. Thakur, George M. Pomeroy, 2020-02-10 This book discusses urban planning and regional development practices in the twentieth century and ways in which they are currently being transformed It addresses questions such as What are the factors affecting planning dynamics at local regional national and global scales With the push to adopt a market paradigm in

land development and infrastructure the relationship between resource management sustainable development and the role of governance has been transformed Centralized planning is giving way to privatization not only in the traditional regions but also in newly emerging regions of Asia Africa and Latin America Further attempts are being made to bring planning related decision making closer to the people who are most affected by it Presenting a collection of studies from scholars around the world and highlighting recent advances in the field the book is a valuable reference guide for those engaged in urban transformations whether as graduate students researchers practitioners or policymakers Leadership for Global Systemic Change Christopher Anne Robinson-Easley, 2016-10-31 This book argues that organizations corporations and governments have the abilities and resources to drive deep systemic change yet fail to evoke change strategies that can significantly improve the social fabric of our global environment It actively engages the reader in a conversation that reviews evaluates and challenges these issues juxtaposed to current strategies and resulting positions regarding business ethics social responsibility our view towards humanity and the role of leaders Provocative in its voice and message this book demonstrates how more robust contributions can lead to effective change The author includes a detailed change model designed to invoke significant global change that builds upon the current work of the United Nations Global Compact and incorporates the participation of all critical stakeholders including corporate leaders civil society government leaders and the people who are challenged daily by ethical dilemmas and social responsibility initiatives It speaks to academics and students of change management social responsibility and business ethics as well as the organizations and communities who stand to make a positive difference in the world

Moving Beyond Gridlock: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels enthralling the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the engaging narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Moving Beyond Gridlock : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and suspenseful novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
