Myths Of Freedom Equality Modern Thought And Philosophical Radicalism:

Myths of Freedom Stephen L. Gardner, 1998-08-30 The status of the modern age has long been debated but since post modernism it has assumed centrality as if it were the issue of philosophy Gardner brings a new approach to the problem of modernity based on theories of Ren Girard and others While modernity is commonly seen as an ideological project or interpretation of Being Gardner sees it in terms of the structure of human relations and their impact on philosophy The decisive feature of the modern world is what Tocqueville called equality of conditions which has wrought a revolution in the self image of the individual and in one's dealings with others But in the process it has replaced old myths debunked by the Enlightenment with new ones of its own invention Hence emerged the myths of freedom of the autonomy of the self or the spontaneity of passion or later of emancipation or authenticity from Descartes to Heidegger Gardner probes the central issue To what extent have philosophers clarified these myths or perhaps succumbed to their illusions This inquiry attacks the major dogmas of contemporary criticism such as the primacy of the question of technology or of the quarrel of ancients and moderns It restores the philosophical legitimacy of anthropology both in opposition to Heidegger's ontology and to the deconstructive retreat into an idealism and in contrast to classical political philosophy This provocative analysis will be of interest to philosophers political theorists and others dealing with the problem of modernity

Mimetic Theory and Its Shadow Scott Cowdell, 2023-08-01 Leading Girardian theologian Scott Cowdell seeks to resolve a long standing challenge to mimetic theory that it entails a fundamental brutishness an ontological violence Girard's account of scapegoating violence seen as providing the initial stability for our species to emerge and consolidate hardly seems compatible with Christian belief in God's good creation with violence only appearing after a subsequent Fall The brilliant but controversial theologian John Milbank has long raised this concern about Girard grounded in a remarkably sophisticated though seldom fathomed philosophical theology Unpacking Milbank's program along with Girard's recasting of Continental philosophy in light of mimetic theory Cowdell finds a way between two apparently irreconcilable positions With irenic spirit but analytic tenacity he probes for ways through Milbank's arguments while pressing on growth points in Girard's Cowdell's proposals involve reframing divine creation in light of salvation history reimagining divine participation by thinking Christ and evolution together and developing a semiotic approach to mimetic theory that delivers ontological peace hermeneutically Cowdell shows how Girard's vision of human transformation through faith in Christ reveals a different world beyond ontological violence while preserving the divine participation that Milbank champions

Dystopia(n) Matters Fátima Vieira,2013-07-16 The volume is divided into two parts separated by an Intermezzo The first part Dystopia Matters benefits from the contribution of reputed scholars of the field of Utopian Studies who were asked to make a statement explaining why dystopia is important The Intermezzo completes this part and offers the reader an informed discussion of the concepts of utopia dystopia and anti utopia whilst providing ground for the case studies presented in the second part in the sections devoted to literature film and theatre In one way or another despite the variety of approaches all contributors argue for the idea that if dystopia has invaded most forms of contemporary discourse its sibling utopia has not been eradicated from the scene Furthermore the studies show that the tension between the two concepts is instrumental to our cautious conscious and tentative construction of the future

The Transient and the Absolute Mordecai Roshwald,1999-03-30 The two principles of the Transient and the Absolute are fundamental to man s self perception While we perceive ourselves as transient biological phenomena with a limited span of existence we also view ourselves as immaterial creatures whose personalities persist and are not subject to change This original philosophical essay surveys the totality of human experience from this dual perspective showing the presence and the constant interaction of the two principles in the civilizational endeavors of humanity The author analyzes our constant search for the absolute among transient manifestations in diverse domains such as religion philosophy art society and politics This volume offers a unifying view of the great diversity of human experience based on the author s insight into man s self perception
