Na Au Tibet:

Religious Revival in the Tibetan Borderlands Koen Wellens, 2011-04-01 Revival of religious practices of all sorts in China after decades of systematic government suppression is a topic of considerable interest to scholars in disciplines ranging from religious studies to anthropology to political science This book examines contemporary religious practices among the Premi people of the Sichuan Yunnan Tibet area a group of about 60 000 who speak a language belonging to the Qiang branch of Tibeto Burman Koen Wellens s ethnographic research in two Premi communities on opposite sides of the border and his analysis of available historical documents find multiple advocates and rationales for the revival of both formal Tibetan Buddhism and the indigenous Premi practices centered on ritual specialists called anji Wellens argues that the variety in the shape the revitalization process takes as it affects Premi on the Sichuan side of the border and their counterparts on the Yunnan side can only be understood in a local cultural context This full length study of the Premi the first in a language other than Chinese makes a valuable contribution to our ethnographic knowledge of Southwest China as well as to our understanding of contemporary Chinese religious and cultural politics *A History of Sanskrit Grammatical Literature in Tibet, Volume 2 Assimilation into Indigenous Scholarship* Pieter Cornelis Verhagen, 2021-10-01 This first systematic survey of the Tibetan non canonical literature dealing with Sanskrit grammar partly consists of translations of Indic works such as revisions of canonical versions and translations of works not contained in the canon and partly of original Tibetan works In the first chapter of the book a detailed description of these textual materials is presented sixty one titles in total which were produced during all periods of Tibetan literary history from the ninth to the twentieth centuries The second chapter discusses one specific effect of the impetus of Indic traditional grammar within Tibetan scholastics namely the influence of Indic models of linguistic description on Tibetan indigenous grammar This particular assimilation of an Indic technical discipline into Tibetan scholarship is examined in detail and it is shown that other segments of Indic Buddhism were sources of inspiration and derivation for the Tibetan grammarians as well Studies in the Grammatical Tradition in Tibet Roy Andrew Miller, 1976-01-01 This volume reprints with additions and corrections seven papers originally published 1962 1973 on the indigenous grammars of Tibet and their linguistic tradition Two ancient treatises commonly attributed to Thon mi Sambho a are studied extensively as well as extracts from many other Tibetan texts with translations commentaries and detailed bibliographical data covering a wide range of linguistic doctrines from the early 11th to the beginning of the 20th century The final article incorporates a complete grammatical sketch of Classical Tibetan this together with the comprehensive indexes of Tibetan and Indic grammatical and technical terms proper names titles etc will facilitate the use of the volume as a basic reference source for all future work on the Tibetan grammarians A Historical Atlas of Tibet Karl E. Ryavec, 2015-05-08 This pioneering work documents cultural and religious sites across the Tibetan Plateau and its bordering regions from the Paleolithic Era to today Western fascination with Tibet has soared in recent decades yet this historic and

globally celebrated region has barely been mapped With this groundbreaking atlas Karl E Ryavec sweeps aside the image of Tibet as Shangri La offering a comprehensive vision of the region as it really is The product of twelve years of research and eight more of mapmaking the results are absolutely stunning A Historical Atlas of Tibet ranges through the five main periods in Tibetan history offering introductory maps of each followed by details of western central and eastern regions It beautifully visualizes the history of Tibetan Buddhism tracing its spread throughout Asia with thousands of temples mapped both within Tibet and across North China and Mongolia all the way to Beijing There are maps of major polities and their territorial administrations as well as of the kingdoms of Guge and Purang in western Tibet and of Derge and Nangchen in Kham There are town plans of Lhasa and maps that focus on history and language on population natural resources and contemporary politics Extraordinarily comprehensive and absolutely gorgeous this volume makes a major contribution in the realms of cartography Asian studies and Buddhist studies Revival: A Tibetan-English Dictionary (1934) Heinrich August

Jaeschke,2018-05-08 This work represents a new and thoroughly revised edition of a Tibetan German Dictionary which appeared in a lithographed form between the years 1871 and 1876 **A Tibetan-English Dictionary** Heinrich August Jäschke,2007 mutual interdependence The second half of the book discusses amongst **A Grammar of Purik Tibetan**

Marius Zemp,2018-05-29 In A Grammar of Purik Tibetan Marius Zemp offers a comprehensive description of the phonologically archaic Tibetan variety spoken in Kargil the capital of a region called Purik situated in the state of Jammu Kashmir India This book contains the most thorough and insightful description of the verbal system of a Tibetic language yet written and will be particularly relevant for scholars studying evidentiality It also includes highly valuable discussions of a syntactically and pragmatically well defined class of ideophones which Zemp calls dramatizers and of prosody topics which are too often neglected in language descriptions Finally this book goes beyond what others have done in that Purik data are used to elucidate our understanding of Classical Tibetan and its origins A History of Buddhism in India and Tibet

,2022-07-19 This volume contains the first full English translation of a thirteenth century history of Buddhism in India and Tibet That means most of all a complete life of the Buddha with the history of his renunciate order and of early Buddhist authors in India Midway through the action moves to Tibet where there is an emphasis on the Tibetan ruling dynasty the translators of Buddhist texts and the lineages that transmitted doctrinal understanding meditative insights and practical realization It concludes with a pessimistic account of the demise of the monastic order followed by optimism with the advent of the future Buddha Maitreya The composer of this remarkably ecumenical Buddhist history remains anonymous but was likely a follower of rare lineages of Dzogchen and Zhij e teachings He put together some of the most important early sources on the Tibetan imperial period that had been preserved in his times and supplies the best witnesses we have for many of them in our own times A Change in Worlds on the Sino-Tibetan Borderlands Jack Patrick Hayes,2013-12-19 A Change in Worlds explores the environmental economic and political history of the Sino Tibetan Songpan region of northern Sichuan

from the late imperial Qing Dynasty to the early 21st century A historically Tibetan region on the eastern edge of the Tibetan Plateau with significant Han and Muslim Chinese populations Songpan played important roles in the development of western and modern China s ethnic relations policies forestry sector grasslands and environmental conservation and recent developments in eco and ethnic tourism as part of various Chinese states However in spite of close associations with various Tibetan and Chinese regimes the region also has a rich history of local independence and resilient nomadic semi nomadic and agricultural populations and identities The Sino Tibetan diversity in Songpan partly formed by unique ecological conditions conditioned all attempts to incorporate the region into larger and more centralized state homogenizing structures This historical study analyzes the social force of markets and nature in the Songpan region in concert with the political and social conflicts and compromise at the heart of changing political regimes and the area s ethnic groups It presents new perspectives on the social transformation and economies of Tibetans and Han Chinese from the late Qing Dynasty to Mao era and contemporary western China It not only allows for a new understanding of how the natural environment and landscapes fit into the imagination of the Sino Tibetan borderlands it also figures in the challenges of negotiating ethnic and market relations among societies The mix of complicated relations over natural environment resources politics and markets was at the heart of the region s social and political infrastructures with far reaching implications for both historical and contemporary China
