Naacps Legal Strategy Against Segregated Education 1925 195:

The NAACP's Legal Strategy Against Segregated Education, 1925-1950 Mark V. Tushnet, 1987 Mark Tushnet presents the story of the NAACP's legal campaign against segregated schools as a case study in public interest law which in fact began in the United States with that very campaign **The African American Experience** Arvarh E.

Strickland, Robert E. Weems Jr., 2000-11-30 Compared to the early decades of the 20th century when scholarly writing on African Americans was limited to a few titles on slavery Reconstruction and African American migration the last thirty years have witnessed an explosion of works on the African American experience With the Civil Rights and Black Power movements of the 1960s came an increasing demand for the study and teaching of African American history followed by the publication of increasing numbers of titles on African American life and history This volume provides a comprehensive bibliographical and analytical guide to this growing body of literature as well as an analysis of how the study of African Americans has changed **Advancing Democracy** Amilcar Shabazz, 2004-01-01 As we approach the fiftieth anniversary of Brown v Board of Education 1954 it is important to consider the historical struggles that led to this groundbreaking decision Four years earlier in Texas the Sweatt v Painter decision allowed Elusive Equality Jeffrey L. Littlejohn, Charles Howard Ford, 2012 In

Elusive Equality Jeffrey L Littlejohn and Charles H Ford place Norfolk Virginia at the center of the South's school desegregation debates tracing the crucial role that Norfolk's African Americans played in efforts to equalize and integrate the city's schools The authors relate how local activists participated in the historic teacher pay parity cases of the 1930s and 1940s how they fought against the school closures and Massive Resistance of the 1950s and how they challenged continuing patterns of discrimination by insisting on crosstown busing in the 1970s and 1980s Despite the advances made by local activists however Littlejohn and Ford argue that the vaunted urban advantage supposedly now enjoyed by Norfolk's public schools is not easy to reconcile with the city's continuing gaps and disparities in relation to race and class In analyzing the history of struggles over school integration in Norfolk the authors scrutinize the stories told by participants including premature declarations of victory that laud particular achievements while ignoring the larger context in which they take place Their research confirms that Norfolk was a harbinger of national trends in educational policy and civil rights Drawing on recently released archival materials oral interviews and the rich newspaper coverage in the Journal and Guide Virginian Pilot and Ledger Dispatch Littlejohn and Ford present a comprehensive multidimensional and unsentimental analysis of the century long effort to gain educational equality A historical study with contemporary implications their book offers a balanced view based on a thorough sober look at where Norfolk's school district has been and where it is going The UAW and the Heyday of American Liberalism, 1945-1968 Kevin Boyle, 1995-11-21 Kevin Boyle has done a masterful job of identifying the unique contribution of the UAW not only to American Liberalism but also to the nation and to all people As contemporary labor and society at large search for new directions this book should be required reading Victor G Reuther
