Nachalo Vol 1 When In Russia:

Narrating the Soviet Era in Russian School History Textbooks Olga Konkka, 2025-09-03 This study focuses on how Russian history textbooks published between 1992 and 2021 dealt with the topic of the Soviet period 1917-1991. Representations of this part of Russia's past in school manuals have provoked vivid debates and bolstered government intervention in the field while a gradual shift towards a less critical narrative of the USSR in more recent textbooks is often presented as directed by Vladimir Putin. This study combines research into these texts and inquiry into those who write, publish, approve or criticize them. Bringing together these perspectives provides a more complex view of school textbooks as final products of both top-down and bottom-up processes. This volume is aimed at postgraduate researchers and academics specializing in Soviet history, contemporary Russian politics and society and history education and textbooks. *Russian Traditional Culture* Marjorie Mandelstam Balzer, 1992 This is an annotated collection of recent studies of Russian folk religion, village organization and family life including the rituals associated with childbirth and paying special attention to women's roles and to the specificity of Siberia in Russian culture. *The Liberation Movement in Russia 1900-1905* Shmuel Galai, 2002-06-27 The story of Russian liberalism's failure to present an effective alternative to Tsarism and Bolshevism.

Russia in the Nineteenth Century A. I. U. Polunov, Thomas C. Owen, L. G. Zakharova, 2015-02-12 This is a comprehensive interpretive history of Russia from the defeat of Napoleon to the eve of World War I. It is the first such work by a post-Soviet Russian scholar to appear in English. Drawing on the latest Russian and Western historical scholarship, Alexander Polunov examines the decay of the two central institutions of tsarist Russia: serfdom and autocracy. Polunov explains how the major social groups—the gentry, merchants, petty townspeople, peasants and ethnic minorities—reacted to the Great Reforms and why, despite the emergence of a civil society and capitalist institutions, a reformist evolutionary path did not become an alternative to the Revolution of 1917. He provides detailed portraits of many tsarist bureaucrats and political reformers, complete with quotations from their writings to explain how the principle of autocracy, although significantly weakened by the Great Reforms, reasserted itself under the last two emperors. Polunov stresses the relevance for Russians in the post-Soviet period of issues that remained unresolved in the pre-Revolutionary period, such as the question of private property in land and the relationship between state regulation and private initiative in the economy. St Petersburg and the Russian Court, 1703-1761 P. Keenan, 2013-06-24 This book focuses on the city of St Petersburg, the capital of the Russian empire from the early eighteenth century until the fall of the Romanov dynasty in 1917. It uses the Russian court as a prism through which to view the various cultural changes that were introduced in the city during the eighteenth century. *Russia's Cold War* Jonathan Haslam, 2011-01-01 moved decisively beyond his control and instead of managed détente he faced imminent collapse. Book Jacket. **The Emergence of Russian Constitutionalism 1900-1904** K. Fröhlich, 2012-12-06 My interest in the topic of this book traces back over more than ten years to my interest in the history

of political parties in pre revolutionary Russia To my late tutor Professor Reinhard Wittram who guided me during my undergraduate and post graduate days as a student at the University of Gottingen I owe a special gratitude for giving my interest its special focus I am indebted to him for my academic training more than this book may indicate He did not see the results of his influence but he followed my preparatory work with both sympathy and critical attention My thanks are due equally to Professors Hans Roos Bochum and Rudolf Vierhaus Göttingen whose constant advice and help meant continued encouragement I am further obliged to Professors Dietrich Geyer Tübingen and Hans Kiesel Oldenburg and their critical reading of the 1973 draft of my book In 1977-78 during my revision of the manuscript and its preparation for publication the most important suggestions came to me from many discussions deep into the night with my friend Jürgen Jahnke To the many others whose names do not appear here I owe my thanks for their help and encouragement

Popular Religion in Russia Stella Rock, 2007-09-10 This book dispels the widely held view that paganism survived in Russia alongside Orthodox Christianity demonstrating that double belief *dvoverie* is in fact an academic myth Scholars citing the medieval origins of the term have often portrayed Russian Christianity as uniquely muddled by paganism with double believing Christians consciously or unconsciously preserving pagan traditions even into the twentieth century This volume shows how the concept of *dvoverie* arose with nineteenth century scholars obsessed with the Russian folk and was perpetuated as a propaganda tool in the Soviet period colouring our perception of both popular faith in Russia and medieval Russian culture for over a century It surveys the wide variety of uses of the term from the eleventh to the seventeenth century and contrasts them to its use in modern historiography concluding that our modern interpretation of *dvoverie* would not have been recognized by medieval clerics and that double belief is a modern academic construct Furthermore it offers a brief foray into medieval Orthodoxy via the mind of the believer through the language and literature of the period

Historians and Historical Societies in the Public Life of Imperial Russia Vera

Kaplan, 2017-02-27 What was the role of historians and historical societies in the public life of imperial Russia Focusing on the Society of Zealots of Russian Historical Education 1895 1918 Vera Kaplan analyzes the network of voluntary associations that existed in imperial Russia showing how they interacted with state public and private bodies Unlike most Russian voluntary associations of the late imperial period the Zealots were conservative in their view of the world Yet like other history associations the group conceived their educational mission broadly engaging academic and amateur historians supporting free public libraries and widely disseminating the historical narrative embraced by the Society through periodicals The Zealots were champions of voluntary association and admitted members without regard to social status occupation or gender Kaplan's study affirms the existence of a more substantial civil society in late imperial Russia and one that could endorse a modernist program without an oppositional liberal agenda
