Nag Hammadi Codex VIII Nag Hammadi Studies 31:

Nag Hammadi Codices XI, XII, XIII Charles W. Hedrick, 2020-10-26 This volume presents critical editions of three of the most fragmentary codices in the Nag Hammadi Library Their nine tractates are presented in an English translation with critically edited transcriptions of Coptic texts including introductions and notes A complete set of indices is provided for Coptic and Greek words proper names ancient texts and authors and modern authors The contents of these three ancient books reflect the rich diversity of the Library as a whole They include a fragmentary and apparently non Christian revelation descent narrative Hypsiphrone a non Christian Sethian text reflecting heavy platonizing influence Allogenes Hellenistic Greek wisdom literature Sentence of Sextus a non christian Sethian text secondarily Christianized Trimorphic Protennoia Valentinian Gnosticism A Valentinian Exposition a Christian Gnostic tractate with Valentinian affinities The Interpretation of Knowledge A Christian Gnostic perhaps Valentinian homily on the gospel the Gospel of Truth the first page of On the Origin of the World completely preserved in NHC II and an identified fragmentary tractate with ethical content There are also five Valentinian liturgical supplements appended to Allogenes The publication of these religio philosophical materials from Nag Hammadi provides the scholar and interested reader with critical editions of texts that help to fill in background and context of gnostic origins and that shed light on the interaction among early Christianity and gnostic movements in antiquity **The Coptic Gnostic Library** James McConkey Robinson, 2000-01-01 The Gnostic Library continues where the Dead Sea Scrolls left off It is based on the Nag Hammadi codices which were unearthed in 1945 a discovery considered as significant as the Dead Sea Scrolls themselves The Coptic Gnostic Library contains all the texts of the Nag Hammadi codices both in the original Coptic and in translation It sheds an invaluable light upon early Judaism and the roots of Christianity Now available in paperback [The Monastic Origins of the Nag Hammadi Codices](#) Hugo Lundhaug, Lance Jenott, 2015-10-19 Hugo Lundhaug and Lance Jenott offer a sustained argument for the monastic provenance of the Nag Hammadi Codices They examine the arguments for and against a monastic Sitz im Leben and defend the view that the Codices were produced and read by Christian monks most likely Pachomians in the fourth and fifth century monasteries of Upper Egypt Eschewing the modern classification of the Nag Hammadi texts as Gnostic the authors approach the codices and their ancient owners from the perspective of the diverse monastic culture of late antique Egypt and situate them in the context of the ongoing controversies over extra canonical literature and the theological legacy of Origen Through a combination of sources including idealized hagiographies travelogues monastic rules and exhortations and the more quotidian details revealed in documentary papyri manuscript collections and archaeology monasticism in the Thebaid is brought to life and the Nag Hammadi codices situated within it The cartonnage papyri from the leather covers of the codices which bear witness to the monastic culture of the region are closely examined while scribal and codicological features of the codices are analyzed and compared with contemporary manuscripts from Egypt Special attention is given to the codices scribal notes and colophons which offer direct

evidence of their producers and users The study ultimately reveals the Nag Hammadi Codices as a collection of books completely at home in the monastic manuscript culture of late antique Egypt A Companion to Second-Century Christian 'Heretics' Antti Marjanen, Petri Luomanen, 2008 The book deals with thinkers and movements that were embraced by many second century religious seekers but which are now largely forgotten or known only as heretics Basilides Sethianism Valentinus school Marcion Tatian Bardaisan Montanists Cerinthus Ebionites Nazarenes Jewish Christianity of the Pseudo Clementines and Elchasites The Coptic Gnostic Library: Nag Hammadi codex IX-Nag Hammadi codex XIII. Melchizedek, 2000 *Sethian Gnosticism and the Platonic Tradition* John Douglas Turner, 2001 Studies on Greek and Coptic Majuscule Scripts and Books Pasquale Orsini, 2018-11-19 The volume contains a critical review of data results and open problems concerning the principal Greek and Coptic majuscule bookhands based on previous research of the author revised and updated to offer an overview of the different graphic phenomena Although the various chapters address the history of different types of scripts i e biblical majuscule sloping poitend majuscule liturgical majuscule epigraphic and monumental scripts their juxtaposition allows us to identify common issues of the comparative method of palaeography From an overall critical assessment of these aspects the impossibility of applying a unique historical paradigm to interpret the formal expressions and the history of the different bookhands comes up due to the fact that each script follows different paths Particular attention is also devoted to the use of Greek majuscules in the writing of ancient Christian books A modern and critical awareness of palaeographic method may help to place the individual witnesses in the context of the main graphic trends in the social and cultural environments in which they developed and in a more accurate chronological framework

The A to Z of the Coptic Church Gawdat Gabra, 2009-10-26 During the first century Saint Mark brought Christianity to Egypt and in so doing formed the basis for the Coptic Orthodox Church Today Copts members of the Coptic Church comprise the largest Christian Community in the Middle East The Coptic Church is more than 19 centuries old and has produced thousands of texts and biblical and theological studies During the last half of the 20th century however economic and political discrimination has forced between 400 000 and one million Copts to emigrate from Egypt with the majority settling in North America and Australia The A to Z of the Coptic Church details the history of one of the oldest Christian churches This is done through a chronology an introductory essay a bibliography and more than 400 cross referenced dictionary entries on important people organizations and structures the theology and practices of the church its literature and liturgy and monasteries and churches **The Gnostic Bible** Willis Barnstone, Marvin W. Meyer, 2006 The most comprehensive collection of gnostic literature ever published this volume is the result of a unique collaboration between a renowned poet translator and a leading scholar of early Christian texts **The facsimile edition of the Nag Hammadi codices** Shafik Farid, 2024-08-05
