Silber, 1998 The essays collected in *Analyzing the Different Voice* Feminist Psychological Theory and Literary Texts apply influential pathbreaking psychological studies about women's lives to literature In their analyses of fictional portraits contributors both challenge and confirm psychological theories about female identity about connection separation as developmental catalysts and about the impact of gender on voice moral decision making and epistemology in relation to classical and contemporary literary texts written by both women and men *Embodying Bioethics* International Association of Bioethics, 1999 Direct outcome of a meeting sponsored by the International Association of Bioethics in 1992 Preface Developing Moral Imagination Edward Stevens, 1997-01-01 The issues may change with the passing of the years

but the categories of concern change very little sexuality and the sexes medical decision making justice for the poor the powerless the underclass reproductive decision making moral decision making in business and personal moral choices Stevens attempts to present alternative positions on hotly debated new moral issues from a different standpoint using an ethical pluralism approach In doing this he hopes to help readers arrive at their own non polarized positions by learning from and respecting all parties in the discussion
