## **Naibance Du Concept De Patrimoine En Chine:**

**Changing Urban Renewal Policies in China** Giulia C. Romano, 2020-01-03 This is a very rich monograph based on impressive fieldwork in China which demonstrates excellent qualitative and ethnographic research skills research integrity and cultural perceptiveness in the analysis This book will make a great contribution to the literature on policy transfer and and policy mobilities and on urban politics in contemporary China as it offers a rich understanding of the nitty gritty practices of transferring and learning from abroad Claire Colomb Professor of Urban Studies and Planning at the University College London UK This book explores the concept of Careful Urban Renewal a concept of urban renewal that originated in Berlin in the 1980s and that was proposed to Yangzhou a Chinese city of the wealthy province of Jiangsu in the early 2000s It sets out to understand whether knowledge and ideas originating in a specific setting can be transferred to another locality thousands of miles away from the point of origin and have the chance to change the policies and the practices of the destination city The book shows that foreign ideas can inspire ambitious reforms of the policies of a single city but that there also exist multiple challenges to policy learning and to the rooting of new ideas in local practices To explore these challenges this book develops an analysis of the micro dynamics of policy transfer showing that there exist multiple hierarchies to which a Chinese city can be subjected intermittently opening or closing windows for policy learning **A Museum Studies**

**Approach to Heritage** Sheila Watson, Amy Jane Barnes, Katy Bunning, 2018-10-08 Heritage s revival as a respected academic subject has in part resulted from an increased awareness and understanding of indigenous rights and non Western philosophies and practices and a growing respect for the intangible Heritage has thus far focused on management tourism and the traditionally heritage minded disciplines such as archaeology geography and social and cultural theory Widening the scope of international heritage studies A Museum Studies Approach to Heritage explores heritage through new areas of knowledge including emotion and affect the politics of dissent migration and intercultural and participatory dimensions of heritage Drawing on a range of disciplines and the best from established sources the book includes writing not typically recognised as heritage but which nevertheless makes a valuable contribution to the debate about what heritage is what it can do and how it works and for whom Including heritage perspectives from beyond the professional sphere the book serves as a reminder that heritage is not just an academic concern but a deeply felt and keenly valued public and private practice This blending of traditional topics and emerging trends established theory and concepts from other disciplines offers readers international views of the past and future of this growing field A Museum Studies Approach to Heritage offers a wider more current and more inclusive overview of issues and practices in heritage and its intersection with museums As such the book will be essential reading for postgraduate students of heritage and museum studies It will also be of great interest to academics practitioners and anyone else who is interested in how we conceptualise and use the past **Living Shrines of Uyghur China** Lisa Ross, 2013-02-12 Lisa Ross s ethereal photographs of Islamic holy sites were created over the course of a

decade on journeys to China's Xinjiang region in Central Asia historically a cultural crossroads but an area to which artists and researchers have generally been denied access since its annexation in 1949 These monumental images show shrines created during pilgrimages many of which have been maintained continuously over several centuries visitation to the tombs of saints is a central aspect of daily life in Uyghur Islam and its pilgrims ask for intercession for physical mental and spiritual ailments The shrines adorned with small devotional offerings that mark a prayer or visit are poignant representations of collective memory and a pacifistic faith and endure despite vulnerability to natural forces of sand heat and powerful winds Their simplicity and austerity as captured by Ross invoke ideas of spirituality eternity and transcendence Three essays by a historian of Central Asian Islam a Uyghur folklorist and the curator of an accompanying exhibition at the Rubin Museum of Art situate the photographic content in context This volume emerges at a critical time as modernization and new policies for development of China's far west bring about rapid extreme and irrevocable change the region is its largest source of untapped natural gas oil and minerals Many of the sites in Ross's work are threatened by political and economic pressures her images are valuable therefore not only for their intrinsic beauty but as an important record of a rich and vibrant culture

Prato, 2017-11-14 These ethnographically based studies of diverse urban experiences across the world present cutting edge research and stimulate an empirically grounded theoretical reconceptualization The essays identify ethnography as a powerful tool for making sense of life in our rapidly changing complex cities They stress the point that while there is no need to fetishize fieldwork or to view it as an end in itself its unique value cannot be overstated These active engaged researchers have produced essays that avoid abstractions and generalities while engaging with the analytical complexities of ethnographic evidence Together they prove the great value of knowledge produced by long term fieldwork to mainstream academic debates and more broadly to society **The Sinosphere and Beyond** Joan Judge, Joachim Kurtz, Ori Sela, Dan Shao, Hugh Shapiro, 2024-07-22 The history of East Asia can be most productively studied through a transnational translingual and transcultural approach to the region In *The Sinosphere and Beyond* twenty six leading and emerging scholars use such approaches in rich clusters of essays on Historiography Sino Japanese Encounters Law and Justice Politics Art Literature and Translation Each essay builds on the legacy of Joshua Fogel whose scholarship defined the contours of the Sinosphere in the Western world and beyond The collection will be of interest to scholars and students with specific research concerns within these broader rubrics from the towering progenitors of Japanese Sinology to gendered diplomatic and cultural dimensions of Sino Japanese encounters from Sinitic poetry to legal culture and revolutionary life from art commerce and levels of literary expression to the quandaries of
