Naked Emotion:

On Understanding Emotion Melvin J. Lasky, 2017-07-12 Emotions fleeting insubstantial changeable and ambiguous seem to defy study and analysis Nothing is more complex mysterious and subject to conflicting theories and interpretations than human emotion Yet the central importance of emotion in human affairs is undeniable Emotions affect all levels of life personal organizational political cultural economic and religious Emotions give meaning to life Emotional disturbances can destroy that meaning How should emotions be studied How can an understanding of the inner feelings of individuals illuminate important social interactions and human developments In his book Norman Denzin presents a systematic in depth analysis of emotion that combines new theoretical advances with practical applications Based on an intensive critical examination of classical and modern theoretical research and on revealing personal interviews in which ordinary people express their emotional lives he builds a new framework for understanding ordinary emotions and emotional disturbances Denzin analyzes how people experience joy and pain love and hate anger and despair friendship and alienation and examines the personal psychological social and cultural aspects of human emotion to provide new perspectives for understanding human experience and social interactions He offers new insights on the role of emotions in family violence and recommends ways of helping people escape from recurring patterns of violence And in criticizing current conceptions of emotionally disturbed people he reveals the nature of their inner lives and the ways they perceive and relate to others In sum this book presents new insights on human relationships and human experience It is now available in paperback for the first time with a new introduction by the author

Emotions Stephanie H.M. van Goozen, Nanne E. Van de Poll, Joseph A. Sergeant, S.H.M. van Goozen, Joe A. Sergeant, 2014-02-25 Based upon lectures presented at an invitational colloquium in honor of Nico Frijda this collection of essays represents a brief and up to date overview of the field of emotions their significance and how they function For most emotions are simply what we feel giving our lives affective value Scientists approach emotions differently some considering the feeling aspect to be of little relevance to their research questions Some investigators consider emotions from a phenomenological perspective while others believe that the psychophysiological bases of the emotions are of prime importance and still others observe and study animals in order to generate hypotheses about human emotions Containing essays which represent each of these approaches this book is in one sense a heterogeneous collection Nevertheless the variety of approaches and interests come together since these scholars are all operating from a more or less cognitive psychological orientation and use the same conceptual reference scheme Written by experts in their own area the essays reflect the richness of research in emotions Whether these approaches and opinions can be harmonized into a single theory of emotions is a question which the future will have to answer

Illusion's Game Chogyam Trungpa, 1994-06-28 In what he calls a 200 percent potent teaching Ch gyam Trungpa reveals how the spiritual path is a raw and rugged unlearning process that draws us away from the comfort of conventional expectations and conceptual attitudes toward a naked encounter with reality The

tantric paradigm for this process is the story of the Indian master Naropa 1016-1100 who is among the enlightened teachers of the Kagyu lineage of the Tibetan Buddhism. Naropa was the leading scholar at Nalanda, the Buddhist monastic university, when he embarked upon the lonely and arduous path to enlightenment. After a series of daunting trials, he was prepared to receive the direct transmission of the awakened state of mind from his guru, Tilopa. Teachings that he received, including those known as the six doctrines of Naropa, have been passed down in the lineages of Tibetan Buddhism for a millennium. Trungpa's commentary shows the relevance of Naropa's extraordinary journey for today's practitioners who seek to follow the spiritual path. Naropa's story makes it possible to delineate in very concrete terms the various levels of spiritual development that lead to the student's readiness to meet the teacher's mind. Trungpa thus opens to Western students of Buddhism the path of devotion and surrender to the guru as the embodiment and representative of reality.

Naropa's Wisdom Khenchen Thrangu, 2020-01-21 Accessible and practical teachings on the life of Naropa with verse by verse commentary on his two most important Mahamudra songs by a contemporary Karma Kagyu master. Naropa is one of the accomplished lineage holders of the Mahamudra tradition of Tibetan Buddhism. In this book, Khenchen Thrangu Rinpoche, a beloved Mahamudra teacher, first tells the extraordinary story of Naropa's life and explains its profound lessons. He follows this with lucid and practical commentaries on two of Naropa's songs of realization, explaining their precious instructions for realizing Mahamudra, the nature of one's mind. Throughout, Thrangu Rinpoche speaks plainly and directly to Westerners eager to receive the essence of Mahamudra instructions from an accomplished teacher.

The Search Alannah Breen Dore, 2022-02-23 We all experience grief, loss, and deep disappointment, but what matters most is how we choose to respond when challenged: do we give up or go searching? What if you could use your pain to create something wonderful? This is the question explored through this story of one woman's journey of discovery as she overcame seemingly impossible odds to find holistic wellbeing. With three well-recognised holistic elements: mind, body, and spirit, Alannah Dore embraces a crucial gap in holistic healing: the emotions. This story speaks to our common struggles in life: loving relationships, parenting, and how to find peace and purpose within ourselves. Like a friend, Alannah takes the reader's hand, sharing her truth and providing practical strategies to leverage for your own journey towards joyful living and emotional wellbeing. Read it in a few hours, though you will likely want to return to it again and again or gift it to someone who needs some inspiration.

Imitation of Life Douglas Sirk, 1991 Douglas Sirk Claus Detler Sierck was born in Hamburg, Germany, in 1900. He made nine films before fleeing Nazi Germany, eventually coming to America. His best-known films, made during the 1950s, all of them melodramas, were *Magnificent Obsession*, *All That Heaven Allows*, *The Tarnished Angels*, *Written on the Wind*, and *Imitation of Life*, made in 1958 and released in 1959. This volume includes the complete continuity script of the film, critical commentary, and published reviews, interviews with the director, and a filmography and bibliography. It also includes an excellent introduction by Lucy Fischer.

Handbook of Emotions Lisa Feldman Barrett, Michael Lewis, Jeannette M. Haviland-Jones, 2018-03-20 Recognized as the definitive reference this handbook brings together leading experts from multiple psychological subdisciplines to examine one of today's most dynamic areas of research. Coverage encompasses the biological and neuroscientific underpinnings of emotions as well as developmental, social, and personality, cognitive, and clinical perspectives. The volume probes how people understand, experience, express, and perceive affective phenomena and explores connections to behavior and health across the lifespan. Concluding chapters present cutting-edge work on a range of specific emotions. Illustrations include 10 color plates. New to This Edition: Chapters on the mechanisms, processes, and influences that contribute to emotions such as genetics, the brain, neuroendocrine processes, language, the senses of taste and smell; Chapters on emotion in adolescence and older age and in neurodegenerative dementias; Chapters on facial expressions and emotional body language; Chapters on stress, health, gratitude, love, and empathy. Many new authors and topics extensively revised with the latest theoretical and methodological innovations. A Choice Outstanding Academic Title. The Psychological Foundations of Evidence Law Michael J. Saks, Barbara A. Spellman, 2016-01-22 Identifies and evaluates the psychological choices implicit in the rules of evidence. Evidence law is meant to facilitate trials that are fair, accurate, and efficient and that encourage and protect important societal values and relationships. In pursuit of these often conflicting goals, common law judges and modern drafting committees have had to perform as amateur applied psychologists. Their task has required them to employ what they think they know about the ability and motivations of witnesses to perceive, store, and retrieve information about the effects of the litigation process on testimony and other evidence and about our capacity to comprehend and evaluate evidence. These are the same phenomena that cognitive and social psychologists systematically study. The rules of evidence have evolved to restrain lawyers from using the most robust weapons of influence and to direct judges to exclude certain categories of information, limit it, or instruct juries on how to think about it. Evidence law regulates the form of questions lawyers may ask, filters expert testimony, requires witnesses to take oaths, and aims to give lawyers and factfinders the tools they need to assess witnesses' reliability. But without a thorough grounding in psychology is the common sense of the rulemakers as they create these rules always or even usually correct? And when it is not, how can the rules be fixed? Addressed to those in both law and psychology, The Psychological Foundations of Evidence Law draws on the best current psychological research based on knowledge to identify and evaluate the choices implicit in the rules of evidence and to suggest alternatives that psychology reveals as better for accomplishing the law's goals. **Lorca, Buñuel, Dalí** Gwynne Edwards, 2009-06-17 Lorca, Bunuel, and Dali were in their respective fields of poetry and theatre, cinema, and painting, three of the most imaginative creative artists of the twentieth century. Their impact was felt far beyond the boundaries of their native Spain. But if individually they have been examined by many, their connected lives have rarely been considered. It is these ties that bind them that constitute the

subject of this illuminating book They were born within six years of each other and as Gwynne Edwards reveals their childhood circumstances were very similar Each was affected by a narrow minded society and an intolerant religious background which equated sex with sin and led all three to experience sexual problems of different kinds Lorca the guilt and anguish associated with his homosexuality Bunuel feelings of sexual inhibition and Dali virtual impotence Having met during the 1920s at the Residencia de Estudiantes in Madrid they developed intense personal relationships and channelled their respective obsessions into the cultural forms then prevalent in Europe in particular Surrealism Rooted in emotional turmoil their work from Lorca s dramatic characters in search of sexual fulfilment to Bunuel s frustrated men and women and Dali s potent images of shame and guilt is highly autobiographical Their left wing outrage directed at bourgeois values and the Catholic Church was strongly felt and in the case of Lorca in particular was sharpened by the catastrophic Civil War of 1936-9 during the first months of which he was murdered by Franco s fascists The war hastened Bunuel s departure to France and Mexico and Dali s to New York Edwards describes how for the rest of his life Bunuel clung to his left wing ideals and made outstanding films while the increasingly eccentric and money obsessed Dali embraced Fascism and the Catholic Church and saw his art go into rapid decline The Idiots John Rockwell,2019-07-25 A Dogme film The Idiots is quintessential Lars von Trier and perhaps his most powerful work John Rockwell shows how it relates to the other two films in the Good Woman trilogy as well as von Trier s Danish television work and his direction of Wagner s Ring cycle at the Bayreuth Festival

Judging the Image Alison Young,2005 This book extends the cultural turn in legal and criminological studies by interrogating our responses to the image It provides a space to think through problems of ethics social authority and the legal imagination **The Sum of Her Parts** Siân Griffiths,2022-05-01 The Sum of Her Parts explores how women s body parts and the roles parts that women play have been deployed toward political ends One essay examines Sarah Winchester and the lore that sprung up around her most famous and most falsely mythologized home the Winchester Mystery House to suggest that the woman and her house have been used as vessels to hold the nation s ongoing gun guilt Another essay springboards from a personal encounter into etymological history tracing how the word cunt went from being a relatively benign description of a body part to the word the Oxford English Dictionary cites as the most vile invective in the English language Connecting topics as diverse as bra shopping Wonder Woman and a Metallica rockumentary Griffiths explores what women s parts mean in contemporary America Griffiths uses humor and sincerity to approach the topic of the female body through a wide variety of essay forms blending lyric and narrative modes Using fragmentation as well as traditional argumentation the collection invites the reader to think ambiguously and explosively allowing complication rather than easily connected dots The result is a discussion of the female body that is varied complex nuanced and thoughtful *Margin of Interest* Shane Neilson,2019-09-24 As Shane Neilson writes in Margin of Interest Maritime poetry is the sum of what s come before a unique history and yes a unique place In Margin of Interest Neilson examines representation identity power and the

politics of literary history from the creative traditions of the Mi kmaq to the work of young poets today He pays due homage to iconic Maritime writers Milton Acorn Alden Nowlan George Elliott Clarke shines a critical spotlight on lesser known masters from the region Travis Lane Wayne Clifford and provides a glimpse inside the diverse ecosystem of poets under 40 writing in or about the Maritimes Rebecca Thomas Lucas Crawford El Jones He also combats the prejudices so often applied to writers from Atlantic Canada stigma associated with mental illness rigid gendering vernacular language and even poetic form and advocates for a long overdue reappropriation of the regionalist stance as well as a proper recognition of the region's writers and their contribution to the Canadian literary landscape For as Neilson wisely asks What's the matter with taking pride in any kind of regional identity that we articulate
