climb Mount Everest alone And in the darkened corridors of the Third Reich officials soon discovered the propaganda value of planting a Nazi flag on top of the world s highest mountains Set in London New York Germany and in India China and Tibet *The World Beneath Their Feet* is a story not only of climbing and mountain climbers but also of passion and ambition courage and folly tradition and innovation tragedy and triumph Scott Ellsworth tells a rollicking real life adventure story that moves seamlessly from the streets of Manhattan to the footlights of the West End deadly avalanches on Nanga Parbat rioting in the Kashmir and the wild mountain dreams of a New Zealand beekeeper named Edmund Hillary and a young Sherpa runaway called Tenzing Norgay Climbing the Himalayas was the Greatest Generation s moonshot one that was clouded by the onset of war and then incredibly fully accomplished A gritty fascinating history that promises to enrapture fans of Hampton Sides Erik Larson Jon Krakauer and Laura Hillenbrand *The World Beneath Their Feet* brings this forgotten story back to life

Deadly Peaks Robert Hauptman, Frederic V. Hartemann, 2016-10-01 *Deadly Peaks* is a collection of the most notable mountaineering disasters and near disasters in history Exhaustively researched by two of the most respected authorities on mountaineering history the book is structured in a unique way Longer recitations in chronological order followed by a group of briefer narratives which all offer an intimate glimpse into the worst case scenarios high altitude adventure can offer

Tigers of the Snow Jonathan Neale, 2002-06-29 *Tigers of the Snow* is true story of the tragedy and survival on one of the world s most dangerous mountains In 1922 Himalayan climbers were British gentlemen and their Sherpa and Tibetan porters were coolies unskilled and inexperienced casual laborers By 1953 Sherpa Tenzing Norgay stood on the summit of Everest and the coolies had become the Tigers of the Snow Jonathan Neale s absorbing book is both a compelling history of the oft forgotten heroes of mountaineering and a gripping account of the expedition that transformed the Sherpas into climbing legends In 1934 a German led team set off to climb the Himalayan peak of Nanga Parbat the ninth highest mountain on earth After a disastrous assault in 1895 no attempt had been made to conquer the mountain for thirty nine years The new Nazi government was determined to prove German physical superiority to the rest of the world A heavily funded expedition was under pressure to deliver results Like all climbers of the time they did not really understand what altitude did to the human body When a hurricane hit the leading party just short of the summit the strongest German climbers headed down and left the weaker Germans and the Sherpas to die on the ridge What happened in the next few days of death and fear changed forever how the Sherpa climbers thought of themselves From that point on they knew they were the decent and responsible people of the mountain Jonathan Neale interviewed many old Sherpa men and women including Ang Tsering the last man off Nanga Parbat alive in 1934 Impeccably researched and superbly written *Tigers of the Snow* is the compelling narrative of a climb gone wrong set against the mountaineering history of the early twentieth century the haunting background of German politics in the 1930s and the hardship and passion of life in the Sherpa valleys

The Third Man Factor John Geiger, 2009-09-01 *The Third Man Factor* is an extraordinary account of how people at the very edge of

death often sense an unseen presence beside them who encourages them to make one final effort to survive This incorporeal being offers a feeling of hope protection and guidance and leaves the person convinced he or she is not alone There is a name for this phenomenon it s called the Third Man Factor If only a handful of people had ever encountered the Third Man it might be dismissed as an unusual delusion shared by a few overstressed minds But over the years the experience has occurred again and again to 9 11 survivors mountaineers divers polar explorers prisoners of war sailors shipwreck survivors aviators and astronauts All have escaped traumatic events only to tell strikingly similar stories of having sensed the close presence of a helper or guardian The force has been explained as everything from hallucination to divine intervention Recent neurological research suggests something else Bestselling and award winning author John Geiger has completed six years of physiological psychological and historical research on the Third Man He blends his analysis with compelling human stories such as that of Ron DiFrancesco the last survivor to escape the World Trade Center on 9 11 Ernest Shackleton the legendary explorer whose account of the Third Man inspired T S Eliot to write of it in The Waste Land Jerry Linenger a NASA astronaut who experienced the Third Man while aboard the Mir space station and many more Fascinating for any reader The Third Man Factor at last explains this secret to survival a Third Man who in the words of famed climber Reinhold Messner leads you out of the impossible
