ANATOMY OF AN ATROCITY

MASAHIRO YAMAMOTO

Nanking Anatomy Of An Atrocity

William Logan, Keir Reeves

Nanking Anatomy Of An Atrocity:

Nanking Masahiro Yamamoto, 2000-08-30 The December 1937 incident that has come to be known as the Rape of Nanking is without doubt a tragedy that will not soon be forgotten While acknowledging that a tremendous loss of life occurred this study challenges the current prevailing notion that the incident was a deliberate planned effort on the part of the Japanese military and analyzes events to produce an accurate estimate of the scale of the atrocities Drawing on Chinese Japanese and English sources Yamamoto determines that what happened at Nanking were unfortunate atrocities of conventional war with precedents in both Eastern and Western military history He concludes that post war events such as the war crimes trials and the impact of the Holocaust in Europe affected public opinion regarding Nanking and led to a dramatic reinterpretation of events The Rape of Nanking consisted of two distinct phases the mass execution of prisoners of war as well as conscription age men who appeared to be combatants and the delinquent acts of individual soldiers The first phase which occurred immediately after Nanking's fall and which claimed most of the atrocity victims was the result of the Japanese military's attempt to clear the city of Chinese soldiers thought to be in plain clothes The second phase which lasted approximately six weeks was horrible but resulted in a much smaller number of fatalities It was characterized by numerous criminal acts ranging from rape and murder to arson and theft committed by unrestrained Japanese soldiers The root cause for both phases was the Japanese military's bureaucratic inefficiency and command irresponsibility While both Chinese and American contemporary sources initially attributed the incident to these causes subsequent Japanese atrocities against both military and civilian Allied personnel during World War II and evidence presented at war crimes trials would come to reshape perceptions of the Nanking events as an Asian counterpart to the Nazi Holocaust **Global Lynching and Collective**

Violence Michael J. Pfeifer, 2017-02-10 Often considered peculiarly American lynching in fact takes place around the world In the first book of a two volume study Michael J Pfeifer collects essays that look at lynching and related forms of collective violence in Africa Asia and the Middle East Understanding lynching as a transnational phenomenon rooted in political and cultural flux the writers probe important issues from Indonesia where a long history of public violence now twines with the Internet to South Africa with its notorious history of necklacing Other scholars examine lynching in medieval Nepal the epidemic of summary executions in late Qing era China the merging of state sponsored and local collective violence during the Nanking Massacre and the ways public anger and lynching in India relate to identity autonomy and territory Contributors Laurens Bakker Shaiel Ben Ephraim Nandana Dutta Weiting Guo Or Honig Frank Jacob Michael J Pfeifer Yogesh Raj and Nicholas Rush Smith **The Nanjing Massacre and Sino-Japanese Relations** Zhaoqi Cheng, 2020-10-17 Based on extensive research on the International Military Tribunal for the Far East this book closely examines the claims and controversy surrounding the Nanjing Massacre a period of murder in 1937 1938 committed by Japanese troops against the residents of Nanjing Nanking after the capture of the then capital of the Republic of China during the Second Sino Japanese

War Focusing on weighing up arguments denying Nanjing Massacre this book considers the Japanese Illusion school of thought which contests the truth of the Nanjing Massacre claims including the death toll and the scale of the violence The Nanjing Massacre remains a controversial issue in Sino Japanese relations despite the normalization of bilateral relations and this book goes to great lengths to examine the events through comparative narratives investigating different perspectives and contributions to the debate from the extensive research of the Tokyo Trial Research Centre at Shanghai as well as volumes of Chinese and Japanese historical documents **A Companion to Japanese History** William M.

Tsutsui,2009-07-20 A Companion to Japanese History provides an authoritative overview of current debates and approaches within the study of Japan s history Composed of 30 chapters written by an international group of scholars Combines traditional perspectives with the most recent scholarly concerns Supplements a chronological survey with targeted thematic analyses Presents stimulating interventions into individual controversies **China at War** Xiaobing Li,2012-01-10 This comprehensive volume traces the Chinese military and its experiences over the past 2 500 years describing clashes with other kingdoms and nations as well as internal rebellions and revolutions As the first book of its kind China at War An Encyclopedia expands far beyond the conventional military history book that is focused on describing key wars battles military leaders and influential events Author Xiaobing Li an expert writer in the subjects of Asian history and military affairs provides not only a broad chronological account of China s long military history but also addresses Chinese values concepts and attitudes regarding war As a result readers can better understand the wider sociopolitical history of the most populous and one of the largest countries in the world and grasp the complex security concerns and strategic calculations often behind China s decision making process This encyclopedia contains an introductory essay written to place the reference entries within a larger contextual framework allowing students to compare Chinese with Western and American views and approaches to war Topics among the hundreds of entries by experts in the field include Sunzi s classic The Art of War Mao Zedong s guerrilla warfare in the 20th century Chinese involvement in the Korean War and Vietnam War and China s nuclear program in the 21st century Places of Pain and Shame William Logan,Keir Reeves,2008-12-05 Places of Pain and Shame is a cross cultural study of sites that represent painful and or shameful episodes in a national or local community s history and the ways that government agencies heritage professionals and the communities themselves seek to remember commemorate and conserve these cases or conversely choose to forget them Such episodes and locations include massacre and genocide sites places related to prisoners of war civil and political prisons and places of benevolent internment such as leper colonies and lunatic asylums These sites bring shame upon us now for the cruelty and futility of the events that occurred within them and the ideologies they represented They are however increasingly being regarded as heritage sites a far cry from the view of heritage that prevailed a generation ago when we were almost entirely concerned with protecting the great and beautiful creations of the past reflections of the creative genius of humanity rather than the reverse the

destructive and cruel side of history Why has this shift occurred and what implications does it have for professionals practicing in the heritage field In what ways is this a difficult heritage to deal with This volume brings together academics and practitioners to explore these questions covering not only some of the practical matters but also the theoretical and conceptual issues and uses case studies of historic places museums and memorials from around the globe including the United States Northern Ireland Poland South Africa China Japan Taiwan Cambodia Indonesia Timor and Australia **Myth and the Greatest Generation** Kenneth Rose, 2013-05-13 Myth and the Greatest Generation calls into question the glowing paradigm of the World War II generation set up by such books as The Greatest Generation by Tom Brokaw Including analysis of news reports memoirs novels films and other cultural artefacts Ken Rose shows the war was much more disruptive to the lives of Americans in the military and on the home front during World War II than is generally acknowledged Issues of racial labor unrest juvenile delinquency and marital infidelity were rampant and the black market flourished This book delves into both personal and national issues calling into questions the dominant view of World War II as The Good War

Criminology, Civilisation and the New World Order Wayne Morrison, 2013-10-18 Expertly authored by the co editor of the best selling text Cultural Criminology Unleashed this book re examines criminology in a global context Wide ranging and up to date it covers the topics of colonialism and post colonialism genocide state control the impact of September 11th and the post 9 11 world Exploring the relationship between a modern discipline and modernity it reworks the history and composition of criminology in light of September 11th and the prevalence of genocide in modernity Analyzing statistics anthropology and the everyday assumptions of criminology s history this text addresses the political and scholarly grip on the territorial state and the absence of a global criminology Rejecting the prevalent belief that September 11th and the responses it evoked were exceptions that either destroyed or revealed the absence of global legal order the author argues that in fact they confirm the nature of the world order of modernity A compelling and topical volume this is a must read for anyone interested or studying in the areas of criminology and criminal justice **Operation Snow** John Koster, 2012-09-17 Americans have long debated the cause of the December 7 1941 bombing of Pearl Harbor Many have argued that the attack was a brilliant Japanese military coup or a failure of U S intelligence agencies or even a conspiracy of the Roosevelt administration But despite the attention historians have paid to the bombing of Pearl Harbor the truth about that fateful day has remained a mystery until now In Operation Snow How a Soviet Mole in FDR s White House Triggered Pearl Harbor author John Koster uses recently declassified evidence and never before translated documents to tell the real story of the day that FDR memorably declared would live in infamy forever Operation Snow shows how Joseph Stalin and the KGB used a vast network of double agents and communist sympathizers most notably Harry Dexter White to lead Japan into war against the United States demonstrating incontestable Soviet involvement behind the bombing of Pearl Harbor A thrilling tale of espionage mystery and war Operation Snow will forever change the way we think about Pearl Harbor and World War II

Genocide Donald Bloxham, A. Dirk Moses, 2022 A collection of essays on the key themes of genocide addressing imperial violence and military contexts for genocide predicting preventing and prosecuting genocide gender ideology the state memory transitional justice and ecocide

Immerse yourself in the artistry of words with Experience Art with is expressive creation, **Nanking Anatomy Of An Atrocity** .
