Napoleon Iii And The Concert Of Europe:

Napoleon III and the Concert of Europe William E. Echard,1960 **Napoleon III and the Concert of Europe**
William E. Echard,1983-01-01 **Napoleon III and the Concert of Europe** William E. Echard,1983-01-01 Napoleon III
and the Concert of Europe William Earl Echard,1960 Mexico and the Foreign Policy of Napoleon III M.
Cunningham,2001-04-16 Napoleon III s motives for intervening in Mexico in the 1860s were consistent with his foreign policy
which was based on his belief that free trade was the best foundation for peace He saw the establishment of a friendly
government in Mexico as an opportunity to expand that policy to encompass the world by ensuring European access to
American markets and preventing monopoly by the United States His attempts to achieve this however were thwarted by his
representatives in Mexico and the suspicions of his neighbours **Peace, War and the European Powers, 1814-1914**
Christopher John Bartlett,1996-10-02 The causes of war have tended to attract more attention than the causes of peace yet
the two are intimately related Indeed there was much talk of war during the unprecedentedly long periods of peace between
the European great powers in the years 1815 1854 and again in 1871 1914 the Near Eastern crises of 1878 and 1887 8 being
only two of the more notable examples In the case of the latter there occurred a spell of fatalistic and belligerent talk in both
Berlin and Vienna which in many ways anticipated that which gripped those capitals by 1914 A study of the whole question of
the best methods by which to defend and advance the national interest is often more illuminating on why wars were avoided
that are studies of the documentation surrounding the Holy Alliance the congress system or the Concert of Europe It is clear
that the Concert tended to become most active only after a war had already been fought or when the powers had already
decided that conflict was likely to prove too costly dangerous and unpredicable in its effects both at home and abroad Thus
the Russians twice advanced almost to the gates of Constantinople only to recoil at the implications of trying to obtain control
of the Straits Similarly Habsburg thoughts of war were frequently neutralised by reminders of financial weakness This
valuable book will be welcomed by anyone wishing to understand the nature of European state relations in the nineteenth
century Professor Bartlett examines why major wars did happen and did not happen with particular attention being paid to
the events of 1914 *The Politics of Imperial Memory in France, 1850-1900* Christina B. Carroll,2022-05-15 By highlighting
the connections between domestic political struggles and overseas imperial structures *The Politics of Imperial Memory in*
France 1850 1900 explains how and why French Republicans embraced colonial conquest as a central part of their political
platform Christina B Carroll explores the meaning and value of empire in late nineteenth century France arguing that
ongoing disputes about the French state s political organization intersected with racialized beliefs about European
superiority over colonial others in French imperial thought For much of this period French writers and politicians did not
always differentiate between continental and colonial empire By employing a range of sources from newspapers and
pamphlets to textbooks and novels Carroll demonstrates that the memory of older continental imperial models shaped French

understandings of and justifications for their new colonial empire She shows that the slow identification of the two types of empire emerged due to a politicized campaign led by colonial advocates who sought to defend overseas expansion against their opponents This new model of colonial empire was shaped by a complicated set of influences including political conflict the legacy of both Napoleons international competition racial science and French experiences in the colonies The Politics of Imperial Memory in France 1850 1900 skillfully weaves together knowledge from its wide ranging source base to articulate how the meaning and history of empire became deeply intertwined with the meaning and history of the French nation

Warfare in Europe 1815-1914 Peter H. Wilson, 2017-11-22 The history of nineteenth century European warfare is framed by the end of the Napoleonic Wars in 1815 and the outbreak of the First World War in 1914 The Crimean War and the struggles for Italian and German unification divide this century in two In the first half armies struggled to emerge from the shadow of Napoleon amidst an era of financial retrenchment political unrest and accelerating technological change The mid century wars left an equally problematic legacy including aspects that pointed towards total war The 26 essays in this volume examine these changes from a variety of innovative and fresh perspectives

Making of the West, Volume II: Since 1500 Lynn Hunt, Thomas R. Martin, Barbara H. Rosenwein, Bonnie G. Smith, 2012-01-04 Students of Western civilization need more than facts They need to understand the cross cultural global exchanges that shaped Western history to be able to draw connections between the social cultural political economic and intellectual happenings in a given era and to see the West not as a fixed region but a living evolving construct These needs have long been central to The Making of the West The book s chronological narrative emphasizes the wide variety of peoples and cultures that created Western civilization and places them together in a common context enabling students to witness the unfolding of Western history understand change over time and recognize fundamental relationships

Europe 1850-1914 Jonathan Sperber, 2014-01-14 This innovative survey of European history from the middle of the nineteenth century to the outbreak of the First World War tells the story of an era of outward tranquillity that was also a period of economic growth social transformation political contention and scientific and artistic innovation During these years the foundations of our present urban industrial society were laid the five Great Powers vied in peaceful and violent fashion for dominance in Europe and throughout the world and the darker forces that were to dominate the twentieth century violent nationalism totalitarianism racism ethnic cleansing began to make themselves felt Jonathan Sperber sets out developments in this period across the entire European continent from the Atlantic to the Urals from the Baltic to the Mediterranean To help students of European history grasp the main dynamics of the period he divides the book into three overlapping sections covering the periods from 1850 75 1871 95 and 1890 1914 In each period he identifies developments and tendencies that were common in varying degrees to the whole of Europe while also pointing the unique qualities of specific regions and individual countries Throughout his argument is supported by illustrative material tables charts case studies and other explanatory features and there is a detailed bibliography to help students to explore
