Narrative In Swahili:

Narrative in Swahili Joan Maw, 1992 First Published in 1992 Routledge is an imprint of Taylor Francis an informal company

Transgression in Swahili Narrative Fiction and its Reception Rémi Armand Tchokothe, 2014 This book remarkably analyses the development of recent Swahili prose narrative The main thesis is that since the 90s Swahili literature has developed to go beyond aspects that had hitherto conditioned literature in African languages local popular and didactic and has opened itself to global sophisticated and subversive perspectives Remi Tchokothe uses the leitmotif of transgression as the unifying thread to render an account of this evolution of the Swahili narrative fiction towards the disruption of narrative linearity an increase in intertextual references an awareness of globalisation in political analysis and a shift to magical realism The finishing touch to the analysis is a meticulously conducted reception survey which highlights editorial ambiguities that go with the transgressive turn Xavier Garnier U Sorbonne Nouvelle Paris 3 Series Contributions to Research on Africa Beitrage zur Afrikaforschung Vol 56

The Story of Swahili John M. Mugane, 2015-07-15 Swahili was once an obscure dialect of an East African Bantu language Today more than one hundred million people use it Swahili is to eastern and central Africa what English is to the world From its embrace in the 1960s by the black freedom movement in the United States to its adoption in 2004 as the African Union's official language Swahili has become a truly international language How this came about and why of all African languages it happened only to Swahili is the story that John M Mugane sets out to explore The remarkable adaptability of Swahili has allowed Africans and others to tailor the language to their needs extending its influence far beyond its place of origin Its symbolic as well as its practical power has evolved from its status as a language of contact among diverse cultures even as it embodies the history of communities in eastern and central Africa and throughout the Indian Ocean world The Story of Swahili calls for a reevaluation of the widespread assumption that cultural superiority military conquest and economic dominance determine a language's prosperity This sweeping history gives a vibrant living language its due highlighting its nimbleness from its beginnings to its place today in the fast changing world of global communication

The Swahili Novel Xavier Garnier, 2013 WINNER 2015 CHOICE Outstanding Academic Title Award An overview of the Swahili novel its place in a globalized world and a reflection on the status and dynamism of Kafka's concept of minor literature For more than fifty years a dynamic modern literature has been developing in the Kiswahili language The political weight that Kiswahili carries as the emerging national and pan national language of many East African countries places this literature much of it in the form of novels at the centre of heated literary debates on the social function of literature in the context of rapid global social change Garnier provides new insights into the Swahili novel form with all its vibrancy and capacity for experimentation Its obsession with social issues relates to larger all pervasive political debates running through

East Africa in its press its streets its public and private places The novels both record and provoke these debates Based on the study of more than 175 Swahili novels by almost 100 authors Garnier brings to light a body of work much neglected by African literary critics but which looks outwards to the wider world Xavier Garnier teaches African Literature at the Universit Paris 3 Sorbonne Nouvelle and is former director of the Centre d Etudes des Nouveaux Espaces Litt raires Universit Paris 13

Popobawa Katrina Daly Thompson,2017-02-06 Bravely takes on not the legendary shapeshifting creature spoken about sporadically on the Swahili coast of Tanzania but rather popobawa discourse The Journal of Modern African Studies Since the 1960s people on the islands off the coast of Tanzania have talked about being attacked by a mysterious creature called Popobawa a shapeshifter often described as having an enormous penis Popobawa s recurring attacks have become a popular subject for stories conversation gossip and humor that has spread far beyond East Africa Katrina Daly Thompson shows that talk about Popobawa becomes a tool that Swahili speakers use for various creative purposes such as subverting gender segregation advertising homosexuality or discussing female sexuality By situating Popobawa discourse within the social and cultural world of the Swahili Coast as well as the wider world of global popular culture Thompson demonstrates that uses of this legend are more diverse and complex than previously thought and provides insight into how women and men communicate in a place where taboo prohibition and restraint remain powerful cultural forces While Popobawa surely belong to one of the most interesting African legends Katrina Daly Thompson instead of asking where the story originated asks about how people talk about this trickster and what these conversations really mean Claudia Boehme University of Trier A well researched and well documented addition to the body of knowledge on local legends and their global manifestations Journal of Folklore Research Thompson s movement between local and global discourses demonstrates the importance of a phenomenon that could otherwise be viewed as exotic ethnographic trivia while her theoretical orientation makes the text as relevant to linguistic anthropologists as to African studies scholars African Studies Review

The Routledge Handbook of Archaeology and Globalization Tamar Hodos,2016-11-18 This unique collection applies globalization concepts to the discipline of archaeology using a wide range of global case studies from a group of international specialists The volume spans from as early as 10 000 cal BP to the modern era analysing the relationship between material culture complex connectivities between communities and groups and cultural change Each contributor considers globalization ideas explicitly to explore the socio cultural connectivities of the past In considering social practices shared between different historic groups and also the expression of their respective identities the papers in this volume illustrate the potential of globalization thinking to bridge the local and global in material culture analysis The Routledge Handbook of Archaeology and Globalization is the first such volume to take a world archaeology approach on a multi period basis in order to bring together the scope of evidence for the significance of material culture in the processes of globalization This work thus also provides a means to understand how material culture can be used to assess the impact of global engagement in our contemporary world As such it will appeal to

archaeologists and historians as well as social science researchers interested in the origins of globalization

Anthropological Linguistics Andrea Hollington, Alice Mitchell, Nico Nassenstein, 2024-02-15 This collection presents new research on key topics in anthropological linguistics with a focus on African languages While Africanist linguists have long been concerned with sociocultural aspects of language structure and use no comprehensive volume dedicated to the anthropological linguistics of Africa has yet been published This volume seeks to fill this gap The chapters address a broad range of topics in anthropological linguistics including classic themes such as spatial reference color kin terms and emotion as well as emerging interests in the linguistic expression of personhood sociality and language ideology All contributions are based on original empirical research and present insights into African language practices from a sociocultural perspective The volume showcases research on dozens of African languages spoken across the continent with particular emphasis on languages of East Africa This book will be of interest to areal specialists as well as to anthropological linguists worldwide

Narrative Factuality Monika Fludernik, Marie-Laure Ryan, 2019-12-16 The study of narrative the object of the rapidly growing discipline of narratology has been traditionally concerned with the fictional narratives of literature such as novels or short stories But narrative is a transdisciplinary and transmedial concept whose manifestations encompass both the fictional and the factual In this volume which provides a companion piece to Tobias Klauk and Tilmann Kppe s *Fiktionalit t Ein interdisziplin res Handbuch* the use of narrative to convey true and reliable information is systematically explored across media cultures and disciplines as well as in its narratological stylistic philosophical and rhetorical dimensions At a time when the notion of truth has come under attack it is imperative to reaffirm the commitment to facts of certain types of narrative and to examine critically the foundations of this commitment But because it takes a background for a figure to emerge clearly this book will also explore nonfactual types of narratives thereby providing insights into the nature of narrative fiction that could not be reached from the narrowly literary perspective of early narratology
