Narrative And Freedom The Shadows Of Time:

Narrative and Freedom Gary Saul Morson, 1994-01-01 In this important and controversial book one of our leading literary theorists presents a major philosophical statement about the meaning of literature and the shape of literary texts Drawing on works by the Russian writers Dostoevsky Tolstoy and Chekhov by other writers as diverse as Sophocles Cervantes and George Eliot by thinkers as varied as William James Mikhail Bakhtin and Stephen Jay Gould and from philosophy the Bible television and much more Gary Saul Morson examines the relation of time to narrative form and to an ethical dimension of the literary experience Morson asserts that the way we think about the world and narrate events is often in contradiction to the truly eventful and open nature of daily life Literature history and the sciences frequently present experience as if contingency chance and the possibility of diverse futures were all illusory As a result people draw conclusions or accept ideologies without sufficiently examining their consequences or alternatives However says Morson there is another way to read and construct texts He explains that most narratives are developed through foreshadowing and backshadowing foreshadowing ascribed after the fact which tend to reduce the multiplicity of possibilities in each moment But other literary works try to convey temporal openness through a device he calls sideshadowing Sideshadowing suggests that to understand an event is to grasp what else might have happened Time is not a line but a shifting set of fields of possibility Morson argues that this view of time and narrative encourages intellectual pluralism helps to liberate us from the false certainties of dogmatism creates a healthy skepticism of present orthodoxies and makes us aware that there are moral choices available to us

Responses to Modernity Joseph Frank, 2012 This book consists of essays and reviews that address social political and cultural issues which arose in connection with literature broadly conceived in the wake of the First World War and extending throughout the twentieth century The first portion of the volume concerns France with both essays on individual writers such as Paul Val ry Jacques Maritain Albert Camus Andr Malraux Jean Paul Sartre and Yves Bonnefoy and a piece on French intellectuals between the wars The second part concerns Germany and Romania with essays on Ernst Juenger Gottfried Benn Erich Kahler E M Cioran and others The volume concludes with essays on problems of literary criticism in dialogue with such critics as Gary Saul Morson Ian Watt T S Eliot and R P Blackmur These essays also discuss the history of the novel and the question of realism

Freedom from Violence and Lies Michael C. Finke, 2021-11-11 An enlightening nuanced and accessible introduction to the life and work of one of the greatest writers of short fiction in history Anton Chekhov s stories and plays endure far beyond the Russian context as outstanding modern literary models In a brief remarkable life Chekhov rose from lower class provincial roots to become a physician leading writer and philanthropist all in the face of a progressive fatal disease In this new biography Michael C Finke analyzes Chekhov s major stories plays and nonfiction in the context of his life both fleshing out the key features of Chekhov s poetics of prose and drama and revealing key continuities across genres as well as between his lesser studied early writings and the later works An excellent resource for readers new to

Chekhov this book also presents much original scholarship and is an accessible comprehensive overview of one of the greatest modern dramatists and writers of short fiction in history *The Eudaimonic Turn* James O. Pawelski, D. J. Moores, 2013 In much of the critical discourse of the seventies eighties and nineties scholars employed suspicion in order to reveal a given text's complicity with various undesirable ideologies and or psychopathologies Construed as such interpretive practice was often intended to demystify texts and authors by demonstrating in them the presence of false consciousness bourgeois values patriarchy orientalism heterosexism imperialist attitudes and or various neuroses complexes and lacks While it proved to be of vital importance in literary studies suspicious hermeneutics often compelled scholars to interpret eudaimonia or well being variously conceived in pathologized terms At the end of the twentieth century however literary scholars began to see the limitations of suspicion conceived primarily as the discernment of latent realities beneath manifest illusions In the last decade often termed the post theory era there was a radical shift in focus as scholars began to recognize the inapplicability of suspicion as a critical framework for discussions of eudaimonic experiences seeking out several alternative forms of critique most of which can be called despite their differences a hermeneutics of affirmation In such alternative reading strategies scholars were able to explore configurations of eudaimonia not by dismissing them as bad politics or psychopathology but in complex ways that have resulted in a new eudaimonic turn a trans disciplinary phenomenon that has also enriched several other disciplines The Eudaimonic Turn builds on such work offering a collection of essays intended to bolster the burgeoning critical framework in the fields of English Comparative Literature and Cultural Studies by stimulating discussions of well being in the post theory moment The volume consists of several examinations of literary and theoretical configurations of the following determinants of human subjectivity and the role these play in facilitating well being values race ethics morality aesthetics class ideology culture economics language gender spirituality sexuality nature and the body Many of the authors compellingly refute negativity bias and pathologized interpretations of eudaimonic experiences or conceptual models as they appear in literary texts or critical theories Some authors examine the eudaimonic outcomes of suffering marginalization hybridity oppression and or tragedy while others analyze the positive effects of positive affect Still others analyze the aesthetic response and or the reading process in inquiries into the role of language use and its impact on well being or they explore the complexities of strength resilience and other positive character traits in the face of struggle suffering and othering *J.M. Coetzee's Austerities* Graham Bradshaw, Michael Neill, 2016-05-06 Representing a wide range of critical and theoretical perspectives this volume examines J M Coetzee's novels from *Dusklands* to *Diary of a Bad Year* The choice of essays reflects three broad goals aligning the South African dimension of Coetzee's writing with his late modernist aesthetic exploring the relationship between Coetzee's novels and his essays on linguistics and paying particular attention to his more recent fictional experiments These objectives are realized in essays focusing on among other matters the function of names and etymology in Coetzee's fiction the vexed relationship

between art and politics in apartheid South Africa the importance of film in Coetzee's literary sensibility Coetzee's reworkings of Defoe the paradoxes inherent in confessional narratives ethics and the controversial politics of reading Disgrace intertextuality and the fictional self consciousness of Slow Man Through its pronounced emphasis on the novelist's later work the collection points towards a narratological and linguistic reassessment of the Coetzee canon **Routledge Handbook of Counter-Narratives** Klarissa Lueg, Marianne Wolff Lundholt, 2020-10-22 Routledge Handbook of Counter Narratives is a landmark volume providing students university lecturers and practitioners with a comprehensive and structured guide to the major topics and trends of research on counter narratives The concept of counter narratives covers resistance and opposition as told and framed by individuals and social groups Counter narratives are stories impacting on social settings that stand opposed to perceived dominant and powerful master narratives In sum the contributions in this handbook survey how counter narratives unfold power to shape and change various fields Fields investigated in this handbook are organizations and professional settings issues of education struggles and concepts of identity and belonging the political field as well as literature and ideology The handbook is framed by a comprehensive introduction as well as a summarizing chapter providing an outlook on future research avenues Its direct and clear appeal will support university learning and prompt both students and researchers to further investigate the arena of narrative research **Freedom and Dialogue in a Polarized World** Sharon Schuman, 2013-12-11 Freedom and Dialogue in a Polarized World argues that our most cherished ideas about freedom being left alone to do as we please or uncovering the truth have failed us They promote the polarized thinking that blights our world Rooted in literature political theory and Mikhail Bakhtin's theories of language this book introduces a new concept dialogic freedom This concept combats polarization by inspiring us to feel freer the better able we are to see from the perspectives of others To say that freedom is dialogic is to apply to it an idea about language If you and I are talking I anticipate from you a response that could be friendly hostile or indifferent and this awareness helps determine what I say If you look bored or give me a blank stare I might not say anything at all In this sense language is dialogic The same can be said of freedom Our decisions take into account the voices of others to which we feel answerable and these voices coauthor our choices In today's polarized world prevailing concepts of freedom as autonomy and enlightenment have encouraged us to take refuge in echo chambers among the like minded Whether the subject is abortion terrorism or gun control these concepts encourage us to shut out the voices of those who dare to disagree We need a new way to think about freedom Freedom and Dialogue in a Polarized World presents riveting moments of choice from Homer's Iliad Dante's Inferno Shakespeare's Merchant of Venice Milton's Paradise Lost Melville's Benito Cereno Dostoevsky's The Brothers Karamazov Kafka's In the Penal Colony and Morrison's Beloved in order to advocate reading for and with dialogic freedom It ends with a practical application to the debate about abortion and an invitation to rethink other polarizing issues For more information please visit <http://dialogicfreedom.weebly.com> **Moments of Moment**, 2021-11-22 a sudden spiritual

manifestation whether in the vulgarity of speech or of gesture or in a memorable phase in the mind itself Thus Stephen Dedalus in James Joyce's *Stephen Hero* defines the phenomenon that has ever since been known as the literary epiphany The essays gathered in this volume comprise a wide survey of this phenomenon With recurrent reference to its most famous creators notably William Wordsworth who was the first to consciously explore and delineate those momentous spots in time in his *Prelude* Walter Pater James Joyce and Virginia Woolf this book intends to provide a broad and unbiased exploration into the various types and categories of the moment of moment that can be distinguished ranging from William Blake Ann Radcliffe and Charles Maturin through the nineteenth century sonnet tradition and the naturalistic novel to modernist and postmodernist exponents such as Ezra Pound and Elizabeth Bowen Philip larkin and Seamus Heaney and include contributions by acclaimed experts in the field such as Martin Bidney Robert Langbaum Jay Losey and Ashton Nichols

Arts of Connection Karen S. Feldman, 2019-08-05 At the intersection of literary theory philosophy of history and phenomenology *Arts of Connection Poetry History Epochality* explores the representation of connections between events in literary historical and philosophical narratives Events in a story can be seen as ordered according to proximate causation which leads diachronically from one event to the next and they can also be understood in view of the structure of the narrative as a whole for instance in terms of the unity of plot Feldman argues that there exists an essential narrative tension between these two kinds of connection i e between the overarching arrangement or plot that holds together events from outside as it were in order to produce an intelligible whole and the portrayal of one by one interstitial connections between events within the narrative *Arts of Connection* demonstrates by means of exemplary moments in Aristotle and classical German poetics eighteenth century philosophy of history and twentieth century phenomenology that the task of connection is a fraught one insofar as the formal unity of narrative competes or interferes with the representation of one by one connections between events and vice versa

The Location of Experience Adela Pinch, 2024-10-15 We tend to feel that works of fiction give us special access to lived experience But how do novels cultivate that feeling Where exactly does experience reside *The Location of Experience* argues that paradoxically novels create experience for us not by bringing reality up close but by engineering environments in which we feel constrained from acting By excavating the history of the rise of experience as an important category of Victorian intellectual life this book reveals how experience was surprisingly tied to emotions of remorse and regret for some of the era's great women novelists the Brontës George Eliot Margaret Oliphant and Elizabeth Gaskell It shows how these writers passed ideas about experience and experiences themselves among each other Drawing on intellectual history psychology and moral philosophy *The Location of Experience* shows that through manipulating the psychological dimensions of fiction's formal features Victorian women novelists produced a philosophical account of experience that rivaled and complemented that of the male philosophers of the period
