Narratives Of British Socialism:

Narratives of British Socialism S. Ingle, 2002-10-23 What can the study of narratives bring to our understanding of political ideas that other forms of analysis cannot In *Narratives of British Socialism* Stephen Ingle shows how imaginative literature can be used to give definition to political thought The origins development and eventual decline of British socialism are analyzed in the writings of Morris Shaw Wells Huxley Koestler Orwell and others Ingle concludes that narratives can give us an experiential understanding of political ideas **British Socialist Fiction, 1884-1914, Volume 1** Deborah

Mutch, 2024-08-07 Socialism in late Victorian and Edwardian Britain was a highly literate movement Every socialist group produced some form of written text through which their particular brand of politics could be promoted This edition collects serialized fiction and short stories that have not been published since their original appearance **British Socialist**

Fiction, 1884-1914 Deborah Mutch, 2024-07-31 Socialism in late Victorian and Edwardian Britain was a highly literate movement Every socialist group produced some form of written text through which their particular brand of politics could be promoted This edition collects serialized fiction and short stories that have not been published since their original appearance *William Morris and the Idea of Community* Anna Vaninskaya, 2010-10-12 The great polymath William Morris

and his contemporaries and followers from H Rider Haggard to H G Wells are the focus of this study Anna Vaninskaya draws upon a wide array of primary sources from working class fiction and articles in fringe socialist newspapers to historical treatises autobiographies and diaries in order to explore the many ways Victorians and Edwardians talked about community and modernity Vaninskaya's narrative moves from the realm of romance bestsellers and sniggering reviews to debates in weighty historical tomes and then to the headquarters of revolutionary parties to street corners and shabby lecture halls She demonstrates how in each domain the dream of community clashed with the reality of the modern state and market

Narratives of Delusion in the Political Practice of the Labour Left 1931-1945 Roger Spalding, 2018-04-18 This book sets out a challenging re interpretation of the politics of Labour's left wing It shows how the Left developed a range of simplistic self sustaining narratives rather than supported analyses to guide its actions in the aftermath of the political crisis of 1931 This approach it is argued persisted down to the opening years of the present century its employment in part explaining the decline of the pre Corbyn Left The narratives developed by the Left reflected a belief in the existence of a working class waiting to be led in a radical direction The leading figures of the Left often had limited direct contact with working people but within their narratives the responses of their target audience were predictable and automatic The Left created an idealised working class that behaved as the Left wished In addition the book questions the popular view often enhanced by biographers of many of these Labour Left leaders *Generational Consciousness, Narrative, and Politics* June

Edmunds, Bryan S. Turner, 2002-11-19 With the erosion of strong class theory sociologists have recently started to look at aspects of social stratification other than class One of the most interesting new areas of investigation is the sociology of

generations This book brings together the work of scholars who are making a major contribution to this new sociological interest Through a combination of innovative theoretical and empirical studies this book shows that an analysis of generations is essential to an understanding of major social political and intellectual trends in the postwar period Each author brings to the volume insights from their own area of specialism with rich illustrative material spanning topics as diverse as African American identity and Spanish youth culture Theoretical inspiration also comes from a range of traditions including cultural and historical sociology social interactionism social and cognitive psychology and life course theory However a unifying thread emerges around questions about how generations should be conceptualized the role of trauma generating generational consciousness the relationship between auto biography and generational identity and the nature of inter and intra generational relationships This volume therefore provides a lively contribution to debates about the nature of generations and a stimulating basis for further work in this area
