Murnaghan,Laura J. Shillington,2016-05-26 Why does the way we think about urban children and urban nature matter This volume explores how dichotomies between nature culture rural urban and child adult have structured our understandings about the place of children and nature in the city By placing children and youth at the center of re theorising the city as a socio natural space the book illustrates how children and youth s relations to and with nature can change adultist perspectives and help create more ecologically and socially just cities As a key contribution to children s studies the book engages and enlivens debates in urban political ecology and urban theory which have not yet treated age as an important axis of difference With examples from ten localities the chapters in this volume ask how we can subvert both romanticized and modernist conceptualizations of nature and childhood that conflate innocence and purity with children and nature the volume asks what happens when we re invent urban natures with children s needs and perspectives in mind Crustacean

Farming John F. Wickins,Daniel O'C. Lee,2008-04-15 Crustacean Farming Ranching and Culture Second edition John F Wickins and Daniel O C Lee The second edition of an extremely well received book Crustacean Farming deals with all cultivated crustaceans of commercial significance shrimp prawns crayfish lobsters crabs and spiny lobsters and examines the criteria by which both the feasibility and desirability of farming proposals are assessed The characteristics and production methods of farmed and candidate crustacean species are described in sufficient detail to enable areas of profitable involvement to be distinguished form other opportunities presenting only very high risks and possibilities for serious loss Coverage extends right from broodstock acquisition and management through to the operation of hatcheries nurseries and

on growing units to key aspects of processing and marketing New to this second edition are ranching and re stocking operations together with the culture of ornamental shrimp and small crustaceans used as live food in fish and shellfish hatcheries The sections on crustacean diseases genetics and nutrition have been extended in the light of recent research advances Examples of investment and operating costs of the different culture options are compared and an analysis of current trends in world crustacean markets is presented to assist in economic and financial appraisal Special consideration is given to the place of crustacean farming within the economics of developing nations in relation to social and environmental impact in order to promote awareness of the wider implications of global developments The consequences of recent research and technical developments are considered together with concerns over genetic and animal welfare issues Specific areas where further advances in technology are needed to improve the reliability or productivity of farming systems are highlighted This important book is a vital tool and reference work for all those involved with crustacean farming worldwide
