Republicanism Martin van Gelderen,Quentin Skinner,2002 These volumes offer the first comprehensive study of republicanism as a shared European heritage Professors Skinner and van Gelderen have assembled an internationally distinguished set of contributors whose studies highlight the richness and diversity of European republican traditions Volume I looks at anti monarchism in Europe humanist theories of citizenship and the constitutional nature of the republic Volume II is devoted to the study of key republican values liberty virtue politeness and toleration It also addresses the role of women and relationship between republicanism and the rise of a commercial society Amazon com *The Languages of Political Theory in Early-Modern Europe* Anthony Pagden,1987 Essays on the political languages of natural law classical republicanism commerce and political science The Psychology of Blindness and Visual Culture Simon Hayhoe,2025-06-27 The Psychology of Blindness and Visual Culture Towards a New Ecological Model of Visual Impairment advances the debate regarding the inclusion and wellbeing of people with visual impairment PVI through looking at the psychological nature of visual culture and its effects on the lived experience It explores whether it is possible to increase access to visual culture for PVI through language alternative sensory data or contemporary communication media and in so doing questions whether or not communication and culture are intrinsically visual Occupying a unique field of study by focusing on the understanding of visual culture and visual communication by PVI in real world settings this empirical book examines the difference between the understanding of visual culture and visual communication by PVI who acquire their visual impairments late in life and PVI who acquire their visual impairments early in life Understanding these concepts not only helps us to understand how PVI feel socially included in visual culture but also how culture and artifacts are conceptualized verbally culturally and through the senses It is compelling reading for advanced students of psychology and philosophy and those studying learning in cultural settings and in museum studies computer science disability studies education and fine art management Theories of World Governance Cornelius F. Murphy,1999 For centuries philosophers political scientists and jurists have struggled to understand the possibilities for justice and peace among a multiplicity of sovereign states Like Dante who sought to organize the world under the authority of the Holy Roman Empire many theorists have tried to explain how sovereign states should be

governed to ensure stability and peace in the absence of any established higher authority Theories of World Governance traces the various conceptual approaches to world harmony from the close of the Middle Ages to today Considering the immediate problems of order in a decentralized world community Cornelius F Murphy Jr outlines what he believes are the essential long term conditions for world peace Covering a wide range of disciplines from theology and philosophy to jurisprudence ethics and sociology Murphy explores how theorists have reflected upon the necessary components of an effective global order At the outset the thought of Christian Europe was shaped by a belief in a natural order established by the Creator of the universe However with the advent of the Enlightenment the connections between the human and the transcendent were severed There was a movement from a theocentric understanding of the powers of the human mind to an intellectual outlook that blurred the distinctions between the divine and human This study in the history of ideas examines the profound effects of the fundamental shift from transcendence to immanence upon the development of international theory Murphy discusses the thought of Leibniz Wolff Kant Hegel and Phillip Allott among others The study concludes with an extended reflection on the importance of a sound political philosophy to the future well being of the global community Possible improvements in the existing arrangements such as reform of the United Nations are discussed Murphy suggests that in order for a society of sovereign states to be transformed into a world political community human rights and self governance within states must first be strengthened and at the same time individuals of all states must begin to realize their responsibilities toward the whole human family
