[Aristotle on the Nature of Truth](#) Christopher P. Long, 2010-11-22 This book reconsiders the traditional correspondence theory of truth which takes truth to be a matter of correctly representing objects Drawing Heideggerian phenomenology into dialogue with American pragmatic naturalism Christopher P Long undertakes a rigorous reading of Aristotle that articulates the meaning of truth as a co operative activity between human beings and the natural world that is rooted in our endeavours to do justice to the nature of things By following a path of Aristotle's thinking that leads from our rudimentary encounters with things in perceiving through human communication to thinking this book traces an itinerary that uncovers the nature of truth as ecological justice and it finds the nature of justice in our attempts to articulate the truth of things

Behan McCullagh,2002-11-01 Modern relativism and postmodern thought in culture and language challenge the truth of history This book considers how all historians confined by the concepts and forms of argument of their own cultures can still discover truths about the past The Truth of History presents a study of various historical explanations and interpretations and evaluates their success as accounts of the past C Behan McCullagh contests that the variety of historical interpretations and subjectivity does not exclude the possibility of their truth Through an examination of the constraints of history the author argues that although historical descriptions do not mirror the past they can correlate with it in a regular and definable way Far from debating in the abstract and philosophical only the author beds his argument in numerous illuminating concrete historical examples The Truth of History explores a new position between the two extremes of believing that history perfectly represents the past and that history can tell us nothing true of the past
