## **Nature Culture Imperialism Essays On The Environmental History Of South Asia:**

*Nature, Culture, Imperialism* David Arnold, Ramachandra Guha, 1996 Environmental history is a fast developing field of critical enquiry In both ecological and cultural terms South Asia is characterized by an unparalleled diversity Ecological degradation and the social conflicts that have come in its wake have further underlined the need for historical research in this field

*Nature, Culture, Imperialism* David Arnold, 1995 Environmental history the study of changing human relations with the natural world is a fast developing field of historical enquiry In both ecological and cultural terms South Asia is characterized by an unparalleled diversity It thus offers unique possibilities for the environmental historian Ecological degradation and the social conflicts that have come in its wake have further underlined the need for historical research in this field

**The Oxford Handbook of Environmental History** Andrew C. Isenberg, 2017 The Oxford Handbook of Environmental History draws on a wealth of new scholarship to offer diverse perspectives on the state of the field

*Global Ecologies and the Environmental Humanities* Elizabeth DeLoughrey, Jill Didur, Anthony Carrigan, 2015-04-10 This book examines current trends in scholarly thinking about the new field of the Environmental Humanities focusing in particular on how the history of globalization and imperialism represents a special challenge to the representation of environmental issues Essays in this path breaking collection examine the role that narrative visual and aesthetic forms can play in drawing attention to and shaping our ideas about long term and catastrophic environmental challenges such as climate change militarism deforestation the pollution and management of the global commons petrocapiatalism and the commodification of nature The volume presents a postcolonial approach to the environmental humanities especially in conjunction with current thinking in areas such as political ecology and environmental justice Spanning regions such as Africa Asia Eastern Europe Latin America and the Caribbean Australasia and the Pacific as well as North America the volume includes essays by founding figures in the field as well as new scholars providing vital new interdisciplinary perspectives on the politics of the earth disaster vulnerability and resilience political ecologies and environmental justice world ecologies and the Anthropocene In engaging critical ecologies the volume poses a postcolonial environmental humanities for the twenty first century At the heart of this is a conviction that a thoroughly global postcolonial and comparative approach is essential to defining the emergent field of the environmental humanities and that this field has much to offer in understanding critical issues surrounding the creation of alternative ecological futures

*Environmental History in the Making* Estelita Vaz, Cristina Joanaz de Melo, Lúgia M. Costa Pinto, 2016-10-13 This book is the product of the 2nd World Conference on Environmental History held in Guimar es Portugal in 2014 It gathers works by authors from the five continents addressing concerns raised by past events so as to provide information to help manage the present and the future It reveals how our cultural background and examples of past territorial intervention can help to combat political and cultural limitations through the common language of environmental benefits without disguising harmful past human interventions Considering that political ideologies

such as socialism and capitalism as well as religion fail to offer global paradigms for common ground an environmentally positive discourse instead of an ecological determinism might serve as an umbrella common language to overcome blocking factors real or invented and avoid repeating ecological loss Therefore agency environmental speech and historical research are urgently needed in order to sustain environmental paradigms and overcome political cultural and economic interests in the public arena This book intertwines reflections on our bonds with landscapes processes of natural and scientific transfer across the globe the changing of ecosystems the way in which scientific knowledge has historically both accelerated destruction and allowed a better distribution of vital resources or as it in today's world can offer alternatives that avoid harming those same vital natural resources water soil and air In addition it shows the relevance of cultural factors both in the taming of nature in favor of human comfort and in the role of the environment matters in the forging of cultural identities which cannot be detached from technical intervention in the world In short the book firstly studies the past approaching it as a data set of how the environment has shaped culture secondly seeks to understand the present and thirdly assesses future perspectives what to keep what to change and what to dream anew considering that conventional solutions have not sufficed to protect life on our planet A Companion to Global Environmental History J. R. McNeill, Erin Stewart Mauldin, 2015-05-04

The Companion to Global Environmental History offers multiple points of entry into the history and historiography of this dynamic and fast growing field to provide an essential road map to past developments current controversies and future developments for specialists and newcomers alike Combines temporal geographic thematic and contextual approaches from prehistory to the present day Explores environmental thought and action around the world to give readers a cultural intellectual and political context for engagement with the environment in modern times Brings together environmental historians from around the world including scholars from South Africa Brazil Germany and China **Colonialism, Environment and Tribals in South India, 1792-1947** Velayutham Saravanan, 2016-08-12 This book offers a bird's eye view of the economic and environmental history of the Indian peninsula during colonial era It analyses the nature of colonial land revenue policy commercialisation of forest resources consequences of coffee plantations intrusion into tribal private forests and tribal controlled geographical regions and disintegration of their socio cultural political administrative and judicial systems during the British Raj It explores the economic history of the region through regional and non market economies and addresses the issues concerning local communities Comprehensive systematic and rich in archival material this book will be useful to scholars and researchers in history especially those concerned with economic and environmental history **What is Environmental History?** J. Donald Hughes, 2016-01-11 What is environmental history It is a kind of history that seeks understanding of human beings as they have lived worked and thought in relationship to the rest of nature through the changes brought by time In this new edition of his seminal student textbook J Donald Hughes provides a masterful overview of the thinkers topics and perspectives that have come to constitute the exciting discipline that is environmental history He

does so on a global scale drawing together disparate trends from a rich variety of countries into a unified whole illuminating trends and key themes in the process Those already familiar with the discipline will find themselves invited to think about the subject in a new way This new edition has been updated to reflect recent developments trends and new work in environmental history as well as a brand new note on its possible future Students and scholars new to environmental history will find the book both an indispensable guide and a rich source of inspiration for future work

**Environmental History and Tribals in Modern India** Velayutham Saravanan, 2018-03-07 This monograph presents a comprehensive account of environmental history of India and its tribals from the late eighteenth onwards covering both the colonial and post colonial periods The book elaborately discusses the colonial plunder of forest resources up to the introduction of the Forest Act 1878 and focuses on how colonial policy impacted on the Indian environment opening the floodgates of forest resources plunder primarily for timber and to establish coffee and tea plantations The book argues that even after the advent of conservation initiatives commercial exploitation of forests continued unabated while stringent restrictions were imposed on the tribals curtailing their access to the jungles It details how post colonial governments and populist votebank politics followed the same commercial forest policy till the 1980s without any major reform exploiting forest resources and also encroaching upon forest lands pushing the self sustainable tribal economy to crumble The book offers a comprehensive account of India's environmental history during both colonial and post colonial times contributing to the current environmental policy debates in Asia

*India and the British Empire* Douglas M. Peers, Nandini Gooptu, 2017-02-09 South Asian History has enjoyed a remarkable renaissance over the past thirty years Its historians are not only producing new ways of thinking about the imperial impact and legacy on South Asia but also helping to reshape the study of imperial history in general The essays in this collection address a number of these important developments delineating not only the complicated interplay between imperial rulers and their subjects in India but also illuminating the economic political environmental social cultural ideological and intellectual contexts which informed and were in turn informed by these interactions Particular attention is paid to a cluster of binary oppositions that have hitherto framed South Asian history namely colonizer colonized imperialism nationalism and modernity tradition and how new analytical frameworks are emerging which enable us to think beyond the constraints imposed by these binaries Closer attention to regional dynamics as well as to wider global forces has enriched our understanding of the history of South Asia within a wider imperial matrix Previous impressions of all powerful imperialism with the capacity to reshape all before it for good or ill are rejected in favour of a much more nuanced image of imperialism in India that acknowledges the impact as well as the intentions of colonialism but within a much more complicated historical landscape where other processes are at work

**Culture, Creativity and Environment** Fiona Becket, Terry Gifford, 2007 Culture Creativity and Environment New Environmentalist Criticism is a collection of new work which examines the intersection between philosophy literature visual art film and the environment at a time of environmental

crisis This book is unusual in the way in which the imaginative creative element is privileged notwithstanding the creativity of rigorous cultural criticism Genuinely interdisciplinary this book aims to be inclusive in its discussions of diverse cultural media different literary genres art forms and film for instance which offer thoughtful and thought provoking critiques of our relationships with the environment Our ability to transcend the ethical and aesthetic categories and discourses that have contributed to our alienation from our environment is dependant upon an enlargement of our imaginative capacities In a modest way this book might contribute to what Ted Hughes speaking of the imagination of each new child described as nature s chance to correct culture s error Postcolonial Ecologies Elizabeth DeLoughrey,George B. Handley,2011-04-20

The first edited collection to bring ecocritical studies into a necessary dialogue with postcolonial literature this volume offers rich and suggestive ways to explore the relationship between humans and nature around the globe drawing from texts from Africa and the Caribbean as well as the Pacific Islands and South Asia Turning to contemporary works by both well and little known postcolonial writers the diverse contributions highlight the literary imagination as crucial to representing what Eduoard Glissant calls the aesthetics of the earth The essays are organized around a group of thematic concerns that engage culture and cultivation arboriculture and deforestation the lives of animals and the relationship between the military and the tourist industry With chapters that address works by J M Coetzee Kiran Desai Derek Walcott Alejo Carpentier Zakes Mda and many others Postcolonial Ecologies makes a remarkable contribution to rethinking the role of the humanities in addressing global environmental issues **China, India, and East and Southeast Asia: Assessing Sustainability** Ray C.

Anderson,Sam Geall,Jingjing Liu,Sony Pellissery,E. N. Anderson,Joel R. Campbell,Joanna I. Lewis,Muhammad Aurang Zeb Mughal,Mark Wilson,2012-11-01 China India and East and Southeast Asia Assessing Sustainability provides unprecedented analyses by regional experts and scholars elsewhere in the world on China India and their neighbors Despite growing demands internally on their natural resources China and India alone are home to more than one third of the world s population the expanding global economic influence of this region makes these countries vital players in a sustainable future for all citizens of the Earth Regional coverage includes topics such as business and commerce environmental and corporate law and lifestyles and values Profit Mark Stoll,2022-11-08 Profit getting more out of something than you put into it is the original genius of homo sapiens who learned how to unleash the energy stored in wood exploit the land and refashion ecosystems As civilization developed we found more and more ways of extracting surplus value from the earth often deploying brutally effective methods to discipline people to do the work needed Historian Mark Stoll explains how capitalism supercharged this process and traces its many environmental consequences The financial innovations of medieval Italy created trade networks that with the European discovery of the Americas made possible vast profits and sweeping cultural changes to the detriment of millions of slaves and indigenous Americans the industrial age united the world in trade and led to an energy revolution that changed lives everywhere But when efficient production left society awash in goods a new sort

of capitalism predicated on endless individual consumption took its place This story of incredible ingenuity and villainy begins in the Doge's palace in medieval Venice and ends with Jeff Bezos aboard his own spacecraft Mark Stoll's revolutionary account places environmental factors at the heart of capitalism's progress and reveals the long shadow of its terrible consequences History of Ecology and Environment in India Mr. Rohit Manglik, 2023-08-23 In this book we will study

about India's environmental history traditional ecological knowledge forest policies environmental movements and challenges in conservation **Caste and nature** Mukul Sharma, 2017-09-25 Rarely do Indian environmental discourses examine nature through the lens of caste Whereas nature is considered as universal and inherent caste is understood as a constructed historical and social entity Mukul Sharma shows how caste and nature are intimately connected He compares Dalit meanings of environment to ideas and practices of neo Brahmanism and certain mainstreams of environmental thought Showing how Dalit experiences of environment are ridden with metaphors of pollution impurity and dirt the author is able to bring forth new dimensions on both environment and Dalits without valorizing the latter's standpoint Rather than looking for a coherent understanding of their ecology the book explores the diverse and rich intellectual resources of Dalits such as movements songs myths memories and metaphors around nature These reveal their quest to define themselves in caste ridden nature and building a form of environmentalism free from the burdens of caste The Dalits also pose a critical

challenge to Indian environmentalism which has until now marginalized such linkages between caste and nature *Property and Politics in Sabah, Malaysia* Amity A. Doolittle, 2011-11-15 In 1990 shortly after a Malaysian politician announced that the boundaries of Kinabalu Park a primary tourist destination were to be expanded to include the species rich tropical forest known locally as Bukit Hempuen most of the area was burned to the ground allegedly by local people What would motivate the people who had for generations hunted and gathered forest products there to act so destructively In this volume Amity Doolittle illuminates this and other contemporary land use issues by examining how resources were used historically in Sabah from 1881 to 1996 and what customary rights of access to land and resources were enjoyed by local people Drawing upon anthropology political science environmental history and political ecology she looks at how control over and access to resources have been defined negotiated and contested by colonial state agents the postcolonial Malaysian state and local people The study is grounded in methodological and theoretical advances in the field of political ecology merging the traditions of human ecology and political economy and looking at environmental conflicts in terms of the particulars of place culture and history Doolittle assumes that environmental problems have causes that are complex and changing and that solutions must be specific to time and place Using a political ecology perspective allows her to focus on the root causes of environmental degradation exposing the underlying political economic and social forces at work The challenge in the twenty first century she writes is to move beyond blaming local people for resource degradation and to find ways to achieve equitable access to natural resources and more sustainable land use practices *Property and Politics in Sabah Malaysia* has

great relevance to development studies political ecology environmental planning anthropology and legal studies in natural resource management

*South Asia* Christopher V. Hill, 2008-03-06 This work is a chronological study of South Asia that emphasizes the effect of humans on their environment and in return the influence of nature on the evolution of human society Ranging from prehistory to the present and encompassing the whole of South Asia this volume in ABC CLIO's Nature and Human Societies series offers the first chronological history of India Pakistan Bangladesh Nepal and Sri Lanka from the perspective of the crucial reciprocal relationship between humankind and the environment South Asia An Environmental History shows how the civilizations of this geographically diverse region were formed physically ethically and culturally by their interactions with the environment a relationship with particularly strong social and spiritual dimensions because of the interdependence of the predominantly agrarian population and the land Specific topics range from ancient irrigation techniques and peasant adaptation to the environment to the impact of imperialism on nature the effect of post colonial technology on contemporary life and the enduring influence of religion on the way South Asian societies address ecological issues

*A Dictionary of Environmental History* Ian Whyte, 2013-05-21 Increasing awareness of the extent and cause of environmental problems has fuelled the emergence of a new and timely discipline environmental history An exciting blend of geography history archaeology anthropology landscape environment and science it seeks to reveal how human activity has affected the environment in the past and how we in turn have been affected by that environment How did people use and transform their environment What problems of pollution and resource depletion occurred What has been the impact of industrialisation and urbanisation How have people's perceptions of nature and the environment changed over time Environmental historians are revealing how and why our environment changed in the past they are providing key insights into the mechanisms that influence environmental change today and are helping to make informed decisions on crucial environmental concerns such as deforestation desertification pollution global warming and climate change Professor Whyte's *A Dictionary of Environmental History* provides in a single volume a comprehensive reference work covering the past 12 000 years of the Earth's environmental history An introduction to the discipline is followed by almost 1 000 entries covering key terminology events places dates topics as well as the major personalities in the history of the discipline Entries range from shorter factual accounts to substantial mini essays on major topics and issues Fully cross referenced and with an extensive bibliography this pioneering work provides an authoritative yet accessible resource that will form essential reading for academics practitioners and students of environmental history and related disciplines

*The Economic History of India, 1857-2010* Tirthankar Roy, 2020-09-10 From the end of the eighteenth century two distinct global processes began to transform livelihoods and living conditions in the South Asia region These were the rise of British colonial rule and globalization that is the integration of the region in the emerging world markets for goods capital and labour services Two hundred years later India was the home to many of the world's poorest people as well as one of the fastest growing market

economies in the world Does a study of the past help to explain the paradox of growth amidst poverty The Economic History of India 1857 2010 claims that the roots of this paradox go back to India s colonial past when internal factors like geography and external forces like globalization and imperial rule created prosperity in some areas and poverty in others Looking at the recent scholarship in this area this revised edition covers new subjects like environment and princely states The author sets out the key questions that a study of long run economic change in India should begin with and shows how historians have answered these questions and where the gaps remain
