Occupational Mobility in an Exiled Community Professor Dr Madhu Rajput, 2019-01-01 The book is an empirical research done by Prof Madhu Rajput on socio economic status of Tibetan women in exile Though the author has focused on Tibetan women at Dharamsala and Dehradun she takes readers to the era when Tibet was an independent nation narrating their livelihood and traditions It is a story of skillful adaptation they displayed in the face of drastically changed circumstances in exile to make their existence meaningful and contributory In early 1960s during conflict migration and resettlement it were the Tibetan women and children who suffered the most as out of their sheltered existence they became vulnerable to various forms of gender based exploitation As a result of flight trauma anxiety and hardships of beginning a life in exile most of them suffer from psychological disorders which affect their social and family lives In addition to many subjects discussed in the book the author puts an effort to understand the challenges specific to Tibetan women and children and create sensitization on the issue

High Hopes Tony London, 2016-01-01 High Hopes is the story of Tibetan education in India since the arrival of Tenzin Gyatso the Fourteenth Dalai Lama in India in 1959 When His Holiness the Dalai Lama arrived in India he came with his retinue and many thousands of followers who arrived soon after Their arduous journey was to a country about which most of them were ignorant They came as deeply committed Buddhists and with a positive belief in the future Other than the monks and high officials most of them had little or no formal education or experience They arrived into a country which was still emerging and forming its own identity and still reeling from the Partition and all of the related changes that had taken place after the departure of the British Raj This relatively small group of Tibetans were strangers in the political landscape of the sub continent with its millions Somehow Nehru and the Indians found a way to accommodate the Tibetans This book traces that story and the way that the Tibetans in exile have been able to forge their own unique Buddhist way of life and to incorporate that into their path for future

The Autobiography of a Tibetan Monk Palden Gyatso, 2015-12-15 With this memoir by a simple monk who spent 33 years in prisons and labor camps for resisting the Chinese a rare Tibetan voice is heard The New York Times Book Review Palden Gyatso was born in a

Tibetan village in 1933 and became an ordained Buddhist monk at eighteen just as Tibet was in the midst of political upheaval. When Communist China invaded Tibet in 1950 it embarked on a program of reform that would eventually affect all of Tibet's citizens and nearly decimate its ancient culture. In 1967 the Chinese destroyed monasteries across Tibet and forced thousands of monks into labor camps and prisons. Gyatso spent the next twenty-five years of his life enduring interrogation and torture simply for the strength of his beliefs. Palden Gyatso's story bears witness to the resilience of the human spirit and to the strength of Tibet's proud civilization faced with cultural genocide. To readers of this memoir, however, untraveled Tibet will never again seem remote or unfamiliar. Gyatso reminds us that the language of suffering is universal. Library Journal. Has the ring of undeniable truth. Palden Gyatso's clear-sighted eloquence in Tsering Shakya's fluent translation makes his tale even more engrossing. San Francisco Chronicle

Beyond the Robe Bobby Sager, 2013-06-25 Twelve years ago the Sager Family Foundation, the Library of Tibetan Works and Archives, and the Dalai Lama's private office began a groundbreaking program called Science for Monks to teach Western science to Tibetan monks and nuns. Recently Tenzin Gyatso, His Holiness the 14th Dalai Lama, announced a decision by the leaders of the monasteries to make the study of Western science part of the core curriculum required of all monastic scholars in the Gelug tradition. *Beyond the Robe* tells the story of the decade-long development of the Science for Monks program and what it reveals about the larger role Tibetan Buddhist monks and nuns can play in their monasteries, in their communities, and in the world at large. *Beyond the Robe* is a collection of essays from the monks and scientists containing the first insights that have come out of this historic effort. *Beyond the Robe* follows the monks' study of science, but it is not a science book. The real story here is what the study of science has revealed about who these remarkable men and women really are and the much bigger role that they seem so suited to fill. I hope that *Beyond the Robe* helps you to feel closer to the monks and nuns and to better understand their immense potential to provide leadership in their world and further insight into ours. Instead of simply admiring them from afar, let's all get close enough to really listen. Bobby Sager. Bobby Sager has been not only a most generous and dedicated benefactor of the Science for Monks program since it was launched 12 years ago, but also he is a direct witness to its flourishing. His testimony and insight are key to an in-depth understanding of this unique encounter between two major traditions of knowledge: Buddhist contemplative science and modern Western science. His account provides a welcome encouragement to this wonderful meeting of minds and hearts at the service of humanity. Matthieu Ricard. *Beyond the Robe* has many fascinating dimensions and makes a critical contribution to Tibet, to Buddhism, and to our world today. The space it opens is the world of the Tibetan Buddhist monastic universities still thriving in Indian exile. Within that world we encounter in beautiful and thought-provoking ways the living tradition of Buddhist monastics: their realms of study, debate, prayer, and meditation, and their living intellectual and experiential encounter with the modern worldview with its discoveries, technologies, and anxieties. Robert Thurman. [Lives in Exile](#) Honey Oberoi Vahali, 2020-08-09 This book explores the devastating consequences and psychological ruptures of

In the sixty years since Tibet was incorporated into the People s Republic of China Tibetans within its border and in exile have never stopped advocating for their sovereignty Although the Chinese government has constantly put their effort to systematically destroy Tibetan identity and Chinese propagandist misconstrued interpretation of Tibet s sovereignty which is evident in their insidious approach in restricting the basic human rights in Tibet such as the freedom of speech and religion Tibetan determination vividly outweighs China s approach by depicting success stories of not giving up around the world with more supporters and scholars to contribute to this struggle for independence
