Nature Of Personal Reality A Seth:

The Nature of Personal Reality (A Seth Book) Jane Roberts, 2011-10-01 In this perennial bestseller Seth challenges our assumptions about the nature of reality and shows us how we create our personal reality through our conscious beliefs about ourselves others and the world His message is clear we are not at the mercy of the subconscious or helpless before forces we cannot understand We are Gods couched in creaturehood Seth says We are given the ability to form our experience as our thoughts and feelings become actualized Seth was one of my first metaphysical teachers He remains a constant source of knowledge and inspiration in my life Marianne Williamson I would like to see the Seth books as required reading for anyone on their spiritual pathway The amazing in depth information in the Seth books is as relevant today as it was in the early 70s when Jane Roberts first channeled this material Louise Hay

The Nature of Personal Reality Jane Roberts, Seth (Spirit), 1978 The words of Seth the personality channeled through Jane Roberts show readers that they possess hidden powers within themselves that have the potential to transform their lives By learning to control their own experiences they can create a new fulfilling reality

The Unknown Reality, Volume One Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks and The Nature of Personal Reality In this mind stretching journey into the very frontiers of consciousness Seth reveals the multidimensional nature of the human soul In Seth Speaks Seth introduced the concept of probable realities in which our idle daydreams and unfulfilled impulses do take place in which all possible choices are fully experienced by other portions of the self Now in this first volume of The Unknown Reality Seth explains the dazzling labyrinths of unseen probabilities involved in any decision and how our awareness of these can enrich the waking life we know In a fascinating exploration of the cosmic web of our existence Seth reveals The purpose of dreams and how they are often fulfilled unconsciously Misconceptions about death and the afterlife How different probable realities intersect and influence one another The relationship between physical health and inner reality A series of exercises to help you discover the unknown portions of your greater identity The self is multidimensional when it is physically alive It is a triumph of spiritual and psychological identity ever choosing from a myriad of probable realities its own clear unassailable focus When you don't realize this then you project upon life after death all of the old misconceptions The fact is that in life you poise delicately and yet perfectly between realities and after death you do the same Jane Roberts Speaking for Seth

Nature of Personal Reality Jane Roberts, 1982-06

The Individual and the Nature of Mass Events Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks Speaking exclusively through Jane Roberts Seth has repeatedly stressed the concept that we create our own reality according to our individual beliefs But how do our realities merge and combine to form mass reactions such as the overthrow of governments the birth of a new religion wars epidemics earthquakes and new periods of art architecture and technology In this pioneering work Seth explores the connection between personal beliefs and world events He pinpoints the unconscious and often negative beliefs pervading science and religion medicine and mythology and

offers thought provoking reflections on Darwinism Freudianism religions cults and medical beliefs With fascinating and inspiring implications Seth asserts that the personal impulses we are often taught to see as dangerous chaotic or contradictory are instead crucial to the best interests of the species and the natural world for they lead us to live not only as loving caretakers but as partners with other species Only people who trust their spontaneous impulses can be consciously wise enough to choose from a myriad of probable futures the most promising events Jane Roberts Speaking for Seth *The Unknown Reality, Vol 2* Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks In this second volume of The Unknown Reality Seth radically expands our conceptions of self by showing us that the human personality is literally infinite in its scope and potential He discloses precisely how probable realities combine to create our waking lives and how our higher selves make decisions regarding our everyday existence In a far reaching exploration of the dynamics of desire and free will he asserts that each atom molecule and cell has its own consciousness and powers of choice With humor and simple analogies Seth leads us beyond our ordinary level of awareness into a spectacular discovery of the multidimensional nature of the self including Consciousness units as the basis of our universe The relevance of extrasensory perception in understanding our world The worlds we visit in dreams and out of body states Dreaming as a science to create present and future realities Families of consciousness we choose to belong to Practical methods for exploring your own unknown reality There is an unknown reality I am part of it and so are you Each individual is a part of the unknown reality To explore the unknown reality you must venture within your own psyche travel inward through invisible roads as you journey outward on physical ones I hope that in this book the reader can see the greater dimensions that touch ordinary living and sense the psyche's greater magic Jane Roberts Speaking for Seth

Summary of Jane Roberts's The Nature of Personal Reality

Everest Media, 2022-07-02T22:59:00Z Please note This is a companion version not the original book Sample Book Insights

- 1 The world as you see it is a reflection of what you are a reflection not in glass but in three dimensional reality The smallest blade of grass or flower is aware of this connection and without reasoning comprehends its position its uniqueness and its source of vitality
- 2 You are the living picture of yourself Your feelings thoughts and events all affect your physical appearance You did not just happen to be thin or fat tall or short healthy or ill Those characteristics were chosen by your inner self
- 3 Ruburt was correct in the insight that his book was not dictation He was more intrigued with questions concerning consciousness and personality since beginning his novel He did not realize that he created the personalities free of time and organized them under the leadership of the conscious mind
- 4 Your experience in the world of physical matter flows outward from the center of your inner psyche You perceive this experience and from it the most minute areas of your outer experience spring Your feelings have electromagnetic realities that rise outward and affect the atmosphere itself

Miller's Illustrated, Industrial-Strength Metaphysics Jim Miller, 2010-08-05 The author uses the story of his life as a vehicle to tell what he has learned along the way about metaphysics It is not a scholarly treatise but the record of one person's attempt to understand

what lies beyond the physical From another point of view the book can be seen as a comment on the gods of organized religion and a project to pose a metaphysical alternative

Albanese,2023-01-17 Can you draw a clear line through American history from the Puritans to the Nones of today On the surface there is not much connective tissue between the former who often serve as shorthand for a persistent religious fanaticism in the United States and the almost one quarter of the population who now regularly check the None or None of the above box when responding to surveys of religious preference But instead of seeing a disconnect between these two groups separated by time historian Catherine Albanese insists there is a deep connection that spans the centuries With a targeted romp through American history from the seventeenth century to the present Albanese ties together these seemingly disparate groups through a shared and distinctively American preoccupation with delight and desire Albanese begins our journey with the role of delight and desire in the brand of Calvinism championed by renowned Puritan minister Cotton Mather and later Jonathan Edwards She then traces the development of these themes up through the present treating the reader to revelatory readings of Ralph Waldo Emerson Horace Bushnell Andrew Jackson Davis William James Emma Curtis Hopkins Elizabeth Towne and others revealing the contours of an evolving theology of desire The result is an original and entertaining take on an underexamined through line in American history **Acorns:**

Windows High-Tide Foghat Joshua Morris,2013-01-23 Acorns delineates the future of humanity as a reunification of intellect with the Deep Self Having chosen to focus upon ego established securely by the time of Christ much more beta brain wave development will destroy our species and others which process has already begun We create our own realities through beliefs intents and desires and we were in and out of probabilities constantly Feelings follow beliefs not the other way around

The System of Antichrist Charles Upton,2005 The System of Antichrist examines the present religious and cultural scene from the standpoint of traditional metaphysics and critiques the New Age spiritualities within their postmodern context Its many references to Rene Guenon and Frithjof Schuon also help introduce these important but little known traditionalist thinkers The book presents lore relating to the latter days of the present cycle from the vantage point of comparative religion drawing upon relevant doctrines from Buddhism Hinduism Judaism Christianity Islam Zoroastrianism and the Native American traditions It also speculates upon the social psychic and spiritual nature of that being known to Christianity Judaism and Islam as the Antichrist presenting him as both an individual and a system and warning those willing to be warned against the spiritual seduction and terror he represents and against the regime which will be and is the social expression of that seduction and that terror Finally in tracing the roots of Antichrist in the fallen nature of man the author sketches the particular quality of spirituality proper to apocalyptic times the dangers it faces the unique opportunities open

to it And along the way he describes his own course from the spiritual revolution of the 1960s through the world of New Age spiritualities to the threshold of traditional esoterism and metaphysics As he says speaking of the angst that characterizes the modern world The specific medicine for the shock of despair is the deeper shock of meaning Nothing but the weight of eternity breaking through the thin brittle shell of the postmodern sky can set us on our feet **It's About You!** Chris Johnson,2013-06-28 The ultimate guide to who you are why you are here and the tools you use to create your reality

Dreams, Evolution, and Value Fulfillment, Vol 1 Jane Roberts,2011-07-08 From the Bestselling Author of Seth Speaks and The Nature of Personal Reality In this first volume of Dreams Evolution and Value Fulfillment Seth takes us on an odyssey to identify the origins of our universe and our species He asserts that consciousness units form the basis of all energy and matter and charts a conscious self aware universe that is constantly recreated by our own thoughts dreams and desires Illuminating the part that humans play in the greater scheme of things he suggests that we are alive not only for the continuation of the species but to add to the very quality of life itself Other fascinating topics include The role dreams play in the creation of language and technology The relationship between genetic heritage and reincarnation How creativity provides a link with the source of all existence The true power of the imagination and the importance of broadening its scope A discussion of value fulfillment or the yearning to enhance the quality of life as a fundamental desire in all life forms Stimulating and provocative this long awaited book answers crucial questions about the entire significance of Seth's system of thought When I speak of the dream world I am not referring to some imaginary realm but to the kind of world of ideas of thoughts of mental actions out of which all form as you think of it emerges In actuality this is an inner universe rather than an inner world Your physical reality is but one materialization of that inner organization Jane Roberts Speaking for Seth

Dreams, Evolution, and Value Fulfillment, Volume Two Jane Roberts,2011-07-08 The Seth books present an alternate map of reality with a new diagram of the psyche useful to all explorers of consciousness Deepak Chopra M D author of The Seven Spiritual Laws of Success From the Bestselling Author of Seth Speaks and The Nature of Personal Reality In the first volume of Dreams Evolution and Value Fulfillment Seth presented an in depth picture of the origin of all life from the inner dream world to the vast display of material creation Here in Volume Two Seth continues his explanation of the physical world as an ongoing self creation a direct and intentional outgrowth of the wisdom of the life forms that inhabit it including humanity He expands upon his vision of a thoroughly animate universe where virtually every possibility not only exists but is constantly encouraged to achieve its highest potential In his typical awe inspiring manner Seth sheds light on many controversial and complex subjects including The ways in which our religions have stifled the human spirit Surprising insight into life's meaning and purpose The genetic basis of faith hope and charity The pursuit of pleasure as a fundamental human need How each species keeps millions of characteristics within its genetic bank for various contingencies Dreams are mental work and play combined psychic and emotionally rich creative dramas They also involve you in the most productive of
