Bureau of Internal Revenue, 1958 *Official Gazette of the United States Patent and Trademark Office*, 2004 Universe in Creation Roy R. Gould, 2018-05-07 In a unique take on the cosmos Gould makes the case that the emergence of a great many things are not only pre ordained but predictable Forbes We know the universe has a history but does it also have a story of self creation to tell Yes in Roy R Gould s account He offers a compelling narrative of how the universe with no instruction other than its own laws evolved into billions of galaxies and

gave rise to life Far from being a random accident the universe is hard at work extracting order from chaos Making use of the best current science Gould turns what many assume to be true about the universe on its head The cosmos expands inward not outward Gravity can drive things apart not merely together And the universe seems to defy entropy as it becomes more ordered rather than the other way around Strangest of all the universe is exquisitely hospitable to life despite its being constructed from undistinguished atoms and a few unexceptional rules of behavior Universe in Creation explores whether the emergence of life rather than being a mere cosmic afterthought may be written into the most basic laws of nature A must have for all avid popular science fans Astronomy Now Gould proposes a fascinating thesis about life s emergence in this eloquent debut Publishers Weekly A joyous romp through a cosmos full of wonders Roald Hoffmann Nobel Laureate and author of Beyond the Finite Exciting original and extremely well written Avi Loeb Harvard University New York Times bestselling author of Extraterrestrial Fascinating Gould artfully describes various highlights in universal history like the formation of stars and planets Many of these moments are majestic New Republic
