Nature And Destiny Of Man Vol 1:

Human Nature and the Discipline of Economics Patricia Donohue-White, 2002-01-01 Foundations of Economic Personalism is a series of three book length monographs each closely examining a significant dimension of the Center for Economic Personalism's unique synthesis of Christian personalism and free economic market theory In the aftermath of the momentous geo political and economic changes of the late 1980s a small group of Christian social ethicists began to converse with free market economists over the morality of market activity This interdisciplinary exchange eventually led to the founding of a new academic subdiscipline under the rubric of economic personalism These scholars attempt to integrate economic theory history and methodology with Christian personalism's stress upon human dignity humane social structures and social justice This second volume in the series surveys the anthropological foundations to the disciplines of economics and moral theology The first part of the book presents an overview of the German French and Polish branches of personalist thought Particular attention is given to theological anthropology especially as it is developed by such thinkers as Emmanuel Mounier Max Scheler Gabriel Marcel Karol Wojtyla and Emil Brunner Part two surveys models of human nature that have been espoused by various schools of free market thought including mainstream neoclassical economics In conclusion the authors demonstrate how an expanded understanding of human nature can augment the ability of economic science to model and predict human behavior

The Bonds of Freedom Rebekah L. Miles, 2001-08-23 In this constructive study Miles proposes a new feminist theological ethic drawing together the contributions of Reinhold Niebuhr Sharon Welch and Rosemary Ruether Seeking to critically reappropriate the Christian realism articulated by Niebuhr she reinterprets solutions to problems emergent from his theology Miles presents feminist Christian realism as an alternative that can reclaim a positive interpretation of divine transcendence and human self transcendence while maintaining newer emphases on human boundedness and divine immanence Theologians and ethicists will find her critical reassessment of the three authors distinctive and her challenging proposal for a positive creative transformation a significant contribution to the development of feminist ethics

Reassessing the Liberal State Timothy Fuller, John Hittinger, 2001 This collection of essays revisits Jacques Maritain's book Man and the State the University of Chicago Walgreen lectures of 1949 and critically engages its greatest themes and arguments the character of the modern state and its relation to the body politic the state's functions and claims the basis of authority the foundation of human rights and natural law structural pluralism Church and State relations national sovereignty and the prospects for world government The contributors address whether Maritain has successfully accomplished his project of engaging modernity from the perspective of a 20th century disciple of Thomas Aquinas whether his reformulations and revisions of the modern state are philosophically sound and prudent and whether his developments of Aristotle and Aquinas are faithful to the sources Maritain drawing upon the philosophy of Aquinas represents a significant achievement he provides a viable reassessment of the liberal state uniting Thomistic and Aristotelian traditions with the

human rights thrust of modern political philosophy In short Maritain reassesses the liberal state in light of ancient and medieval political traditions seeking to find what is true enduring and practical in the modern liberal state while criticizing its excesses and reconceptualizing its philosophical foundations The contributors to this collection find Maritain has achieved much in the accomplishment of this project Some continue this project by applying Maritain s philosophy to contemporary issues Other contributors find it helpful however to compare Maritain to other contemporary political philosophers and to question his use of the philosophy of Aquinas Maritain s political philosophy and Man and the State in particular is worth continued study Although his influence was greatest in the 1950s and 1960s and his philosophy has been displaced by new trends his work shows a remarkable resilience and relevance to the issues of the day offering a deeper philosophical foundation and more flexible set of tools for analysis than currently provided Timothy Fuller professor of political science and acting president of Colorado College is the editor of *Leading and Leadership* and *The Voice of Liberal Learning* Michael Oakeshott on Education John P Hittinger is professor of philosophy at the United States Air Force Academy and coeditor of *Liberalism at the Crossroads* An Introduction to Contemporary Liberal Theory and its Critics Contributors J Budziszewski Joseph M DeTorre Gregory Doolan Desmond FitzGerald Timothy Fuller John R Goodreau Catherine Green William Haggerty James G Hanink Jeanne M Heffernan John P Hittinger Russell Hittinger Richard Lemp V Bradley Lewis Nicholas C Lund Molfese John G Trapani Jr Deborah Wallace Henk E S Woldring and Michael Woodward

The Doctrine of Humanity in the Theology of Reinhold Niebuhr Kenneth Morris Hamilton, 2013-09-03 Reinhold Niebuhr was a twentieth century American theologian who was known for his commentary on public affairs One of his most influential ideas was the relating of his Christian faith to realism rather than idealism in foreign affairs His perspective influenced many liberals and is enjoying a resurgence today most recently Barack Obama has acknowledged Niebuhr s importance to his own thinking In this book Kenneth Hamilton makes a claim that no other work on Niebuhr has made that Niebuhr s chief and abiding preoccupation throughout his long career was the nature of humankind Hamilton engages in a close reading of Niebuhr s entire oeuvre through this lens He argues that this preoccupation remained consistent throughout Niebuhr s writings and that through his doctrine of humankind one gets a full sense of Niebuhr the theologian Hamilton exposes not only the internal consistency of Niebuhr s project but also its aporia Although Niebuhr s influence perhaps peaked in the mid twentieth century enthusiasm for his approach to religion and politics has never waned from the North American public theology and this work remains relevant today Although Hamilton wrote this thesis in the mid 1960s it is published here for the first time Jane Barter Moulaison in her editorial gloss and introduction demonstrates the abiding significance of Hamilton s work to the study of Niebuhr by bringing it into conversation with subsequent writings on Niebuhr particularly as he is re appropriated by twenty first century American theology

Women and Pride Luping Huang, 2018-09-30 Reinhold Niebuhr is largely regarded as the leading twentieth century theologian of sin However many feminist theologians criticize Niebuhr s

view of pride as the primary sin arguing that it fits only with men's experience In this detailed study Dr Luping Huang engages with Niebuhr and his feminist critics to provide a response to the feminist critique of Niebuhr's theology of sin Dr Huang provides a thorough analysis and examination of both the Niebuhrian and feminist understandings of sin highlighting the strengths and limitations of both arguments While some aspects of the feminists opposition to Niebuhr's doctrine of sin are valid there are weaknesses and limitations within its own framework Through her research and interaction with women's testimonies Huang's argument bridges these two competing views of women and sin resulting in a more accurate understanding and application of the theology of sin particularly in reference to women

Roots of Realism Benjamin Frankel, 2013-10-11 Political realism sees politics as a permanent struggle for power and security The essays in this volume examine the tradition of realist political analysis of international relations from the Sophists and Thucydides to the modern era

The Promise and Peril of AI and IA Ted Peters, 2023-12-31 How should public theologians and social ethicists assess anticipate and amend the projected path taken by Artificial Intelligence and Intelligence Amplification With the advent of generative AI along with large language models suddenly our techie whiz kids are sounding the fire alarm Will a Frankenstein monster escape its creator's design Will more highly evolved superintelligence render today's human race extinct Is this generation morally obligated to give birth to a tomorrow in which we outdated humans can no longer participate This book collects foresighted analyses and recommendations from computer scientists neuroscientists AI ethicists along with Christian and Muslim theologians

The Transcendence of Desire Tom James, David True, 2023-11-28 The secular age is not a smooth untroubled process of accumulation and advance but an uneven and unpredictable series of clashes of interest Charles Taylor's immanent frame cannot be construed merely as a phenomenon within religion and culture but urgently needs to be understood in political and economic terms i.e. as a class project The failure of the secular vividly displayed in the crumbling legitimacy of global institutions and in the spectacle of police violence both calls for and makes possible a renewal of political agency Tom James and David True argue that a theology of the cross has a distinctive potential today it can pierce the sacred aura of normalcy around the consensual anti politics of the neoliberal order so that a vision of a world beyond today's racialized capitalism can emerge But they contend that we don't need to forsake the emancipatory aims of modernity nor retreat to local communities As an alternative to these weak strategies they offer a constructive and cruciform account of political agency that includes both prophetic resistance and practical wisdom each embedded in contemporary struggles for freedom that they argue embody divine desire for a common world

Scripture and Ethics Jeffrey S. Siker, 1997 Siker brings together the history of biblical interpretation and the study of uses of the Bible in Christian ethics to examine how the Bible has actually been used in Christian theological ethics and in the process profiling eight influential twentieth century theologians

Just War on Terror? Brian Wicker, 2016-04-22 Following the 9/11 attacks by Al Qaeda President Bush declared war on terror In the succeeding years Western governments have struggled to

find the right way to respond to the new and deadly threat posed by terrorism With the election of President Obama the rhetoric has softened and policies have been adjusted but the underlying problems and challenges remain the same Meanwhile the war on terrorism in Afghanistan has been intensified Drawing on just war teaching as developed within both Christian and Muslim traditions this book examines whether and how liberal democracies can combat the new global terrorism both effectively and justly The authors including distinguished academics from both sides of the Atlantic Christian and Muslim theologians former senior civil servants and a General deploy a wide range of experience and expertise to address one of the most difficult and pressing ethical challenges to contemporary society **Justification in a**

Post-Christian Society Carl-Henric Grenholm, Goran Gunner, 2015-03-26 Since the Reformation in the sixteenth century Lutheran traditions have impacted culture and politics in many societies At the same time Lutheran belief has had an effect on personal faith morality and ethics Modern society however is quite different from that at the time of the Reformation How should we evaluate Lutheran tradition in today's Western multicultural and post Christian society Is it possible to develop a Lutheran theological position that can be regarded as reasonable in a society that evidences a considerable weakening of the role of Christianity What are the challenges raised by cultural diversity for a Lutheran theology and ethics Is it possible to develop a Lutheran identity in a multicultural society and is there any fruitful Lutheran contribution to the coexistence of different religious and non religious traditions in the future

God's Patience and our Work Ben Fulford, 2024-02-28 In God's Patience and our Work Ben Fulford argues that Hans Frei's theology and ethics offers unheralded but valuable resources for thinking about the social and political engagement of Christian communities in pluralistic societies in light of hope in Jesus Christ He shows how Frei's project of recovering the conditions for and shape of a generous orthodoxy runs through his work offering broad flexible vision of Christian identity ethical responsibility and humanistic witness focused in the person and presence of Jesus Christ In dialogue with liberation theologies Fulford draws from Frei an account of divine patience and providence to frame hopeful pragmatic Christian participation in work for dignity justice and penultimate reconciliation rooted in new and deeper contextual reading of his work

The Oxford Handbook of Reinhold Niebuhr Robin Lovin, Joshua Mauldin, 2021 This authoritative Handbook features 38 chapters placing Reinhold Niebuhr 1892-1971 in his historical context to offer readers an appreciation of his insights and how he was received by his contemporaries

The Good Kill Marc LiVecche, 2021 The Good Kill addresses the crisis of moral injury among warfighters from the perspective of the just war tradition By providing a moral framework for enduring the heavy business of killing in combat Marc LiVecche offers potential remedies to help warfighters manage the effects of killing without becoming irreparably morally injured

The Realist Tradition and Contemporary International Relations W. David Clinton, 2007-07 The tradition in international relations theory known as realism has often been associated with the Cold War The contributors to this intriguing volume argue however that realism remains a profound and relevant perspective on contemporary international politics They point

out that classical realism is based on concepts that were elucidated long before the Cold War began and are not confined by its boundaries Further they believe that insights of the realist tradition can provide valuable guidance in our contemporary world W David Clinton and ten scholars of foreign policy reexamine the work of thinkers spanning twenty five centuries who have contributed to the development of realism across the ages In their essays the authors consider two key questions What makes these thinkers realists And how is their work relevant to the modern post Cold War world These essays take a fresh look at such canonical thinkers as Thucydides Augustine Machiavelli Hobbes Hume Burke Carr Niebuhr and Morgenthau Countering the widespread belief that realism has nothing left to offer this collection demonstrates that continuities remain in the political world and that the ideas rooted in realism are too important and too useful to ignore While there are obvious differences among the political philosophers whose works are considered here they share a common concern about human limitations and the possible dangerous consequences of ignoring those limitations Each in his own way these classic thinkers discuss the need for prudence to counter the ever present threat of tragedy resulting from our innocent hopeful or self righteous efforts for perfection These provocative essays demonstrate that though a realist understanding of the nature of international relations is at least as old as Thucydides it is also as contemporaneous as the most recent headline

Economy, Difference, Empire Gary Dorrien, 2010-11-02 Sourcing the major traditions of progressive Christian social ethics social gospel liberalism Niebuhrian realism and liberation theology Gary Dorrien argues for the social ethical necessity of social justice politics In carefully reasoned essays he focuses on three subjects the ethics and politics of economic justice racial and gender justice and antimilitarism making a constructive case for economic democracy along with a liberationist understanding of racial and gender justice and an anti imperial form of liberal internationalism In Dorrien s view the three major discourse traditions of progressive Christian social ethics share a fundamental commitment to transform the structures of society in the direction of social justice His reflections on these topics feature innovative analyses of major figures such as Walter Rauschenbusch Reinhold Niebuhr James Burnham Norman Thomas and Michael Harrington and an extensive engagement with contemporary intellectuals such as Rosemary R Ruether Katie Cannon Gregory Baum and Cornel West Dorrien also weaves his personal experiences into his narrative especially his involvement in social justice movements He includes a special chapter on the 2008 presidential campaign and the historic candidacy of Barack Obama **AI and IA** Ted Peters, 2019-09-01 Will advances in AI Artificial Intelligence or IA Intelligence Amplification lead to the extinction of the human race as we know it Or will superintelligence lead to utopia In this collection of thoughtful essays we must first get clear on the question is artificial intelligence actually intelligent or not Only with an affirmative answer could our techies proceed toward their goal the creation of a superintelligence that leads through transhumanism to a posthuman entity that would replace today s human Should today s moderately intelligent human species voluntarily go extinct to make way for a more intelligent species to succeed us in evolutionary history These scientific questions are addressed in this volume in light

of their theological ethical and social implications
