*Nature's Oracle* Ullica Segerstrale, 2013-02-28 W D Hamilton 1936 2000 was responsible for a revolution in thinking about evolutionary biology a revolution that changed our understanding of life itself He played a central role in the realization that what matters in evolution is not the survival of the individual but of the survival of its genes This provided the solution to the long standing problem of animal altruism that vexed even Darwin himself and in due course resulted in terms like selfish genes kin selection and sociobiology becoming familiar to a wider public Hamilton went on to solve many more major problems and open up ever new fields he shaped much of our current understanding of central problems including the evolution of sexual reproduction and ageing He became world famous and garnered international prizes But this is all in hindsight In fact Hamilton s recognition came late his career is a classic case of misunderstood genius In this illuminating and moving biography Ullica Segerstrale documents Hamilton s extraordinary life and work revealing a man of immense intellectual curiosity an uncompromising truth seeker a naturalist and jungle explorer a risk taker an unconventional scientist with a poet s soul and a deep concern for life on earth and mankind s future **Pushing to the Front** Orison

 Marden s Pushing to the Front is a classic of the literature of personal motivation that remains startlingly relevant today A  
 phenomenal bestseller when it was first published in 1894 it was greatly expanded by popular demand to two volumes in  
 1911 Marden explores a wide range of issues that hold us back from success in all areas of our lives Presented here as one  
 combined volume Marden discusses Choosing a vocation Success under difficulties The habit of happiness The power of  
 suggestion Why some succeed and others fail And much more Nearly all great men those who have towered high above their  
 fellows have been remarkable above all things else for their energy of will Marden notes and shows us how to cultivate our  
 energy of will too American writer and editor ORISON SWETT MARDEN 1850 1924 was born in New England and studied at  
 Boston University and Andover Theological Seminary In 1897 he founded Success Magazine      **A History of the Earth and

 animated nature ... To which is subjoined an appendix ... By Captain Thomas Brown, etc* Oliver Goldsmith, 1836      **Nature's  
 Hidden Force** George Land, Beth Jarman, 2014-07-30 A stunning new take on the old science vs spirituality debate Land and  
 Jarman begin by demolishing one of the sacred cows of physics entropy the idea that the universe is irreversibly headed  
 toward a whimpering heat death Using rigorous scientific methods they show that the universe isn t falling apart after all it s

getting better all the time They next take on Einstein s theory of relativity explaining in simple terms how quantum mechanics describes a universe that isn t a giant clockwork but something far more profound a combination of past cause and Future Pull What does all this science have to do with spirituality Everything Land and Jarman label nature s impulse for overcoming entropy and pulling us into the future Creative Connecting A force as scientifically real and demonstrable as gravity and far more worthy of reverence than any ghost dreamed up by an ancient religion Think of your most memorable moments of deep spirituality watching a sunset being moved by music That powerful feeling you experience is being at one with the universe In other words a sense of connecting What s the best part of religious teaching Love thy neighbor more connecting Land and Jarman prove that you don t have to give up on science to be truly spiritual you just have to get it right And you don t have to be ashamed of your spiritual side if you want to live your life according to empirical reality you just have to revere the force in nature that really exists **A History of the earth and animated nature v.1** Oliver
