Naum Gabo, 60 years of constructivism Naum Gabo, 1987 *Constructing Modernity* Martin Hammer, Professor Christina Lodder, Naum Gabo, Christina Lodder, 2000-01-01 Naum Gabo 1890 1977 whose eventful life took him from his native Russia to Berlin Paris London and finally the United States achieved renown as one of the most inventive and controversial figures in twentieth century sculpture This book is the first comprehensive account of Gabo's life career and artistic theory and practice Martin Hammer and Christina Lodder explore in detail the evolution of the artist's work and his aesthetic concerns creative processes assimilation of such new materials as plastic and approach to public sculpture The authors also examine his response to the scientific and political revolutions of his age and trace the origins and development of Gabo's utopian conviction that Constructivist art was profoundly in tune with modernity social progress and advances in science and technology Drawing on Gabo's extensive and largely unpublished archives of letters diaries notebooks models and sketchbooks Hammer and Lodder discuss the sculptor's work in the context of his relations with other avant garde artists architects and critics including his brother Antoine Pevsner They also situate his aesthetic theory and practice within the Constructivist movement *The Poetics of the Avant-garde in Literature, Arts, and Philosophy* Slav N. Gratchev, 2020-10-05 The Poetics of the Avant garde in Literature Arts and Philosophy presents a range of chapters written by a highly international group of scholars from disciplines such as literary studies arts theatre and philosophy to analyze the ambitions of avant garde artists Together these essays highlight the interdisciplinary scope of the historic avant garde and the interconnectedness of its artists Contributors analyze topics such as abstraction and estrangement across the arts the imaginary dialogue between Lev Yakubinsky and Mikhail Bakhtin the problem of the masculine ethos in the Russian avant garde the transformation of barefoot dancing Kazimir Malevich's avant garde poetic experimentations the ecological imagination of the Polish avant garde science fiction in the Russian avant garde cinema and the almost forgotten history of the avant garde children's literature in Germany The chapters in this collection open a new critical discourse about the avant garde movement in Europe and reshape contemporary understandings of it NAUM GABO, 1985 Naum Gabo : Sixty Years of Constructivism Naum Gabo (Bildhauer, Russland, Deutschland, USA), 1985 **From Space in Modern Art to a Spatial Art History** Jutta Vinzent, 2019-12-02 This book traces artists theories of constructive space in the first half of the twentieth century Drawing on these concepts and recent theories on space it develops a methodology termed Spatial Art History that conceives of artworks as physical spatio temporal things which produce the social to overcome the reductive understanding of art as a mere mirror or facilitator of society **Naum Gabo, the Constructive Idea** Naum Gabo, Museum of Modern Art (Oxford, England), 1987 **The Oxford Handbook of Communist Visual Cultures** Aga Skrodzka, Xiaoning Lu, Katarzyna

Marciniak,2020-06-04 Stereotypes often cast communism as a defunct bankrupt ideology and a relic of the distant past However recent political movements like Europe s anti austerity protests the Arab Spring and Occupy Wall Street suggest that communism is still very much relevant and may even hold the key to a new idealized future In The Oxford Handbook of Communist Visual Cultures contributors trace the legacies of communist ideology in visual culture from buildings and monuments murals and sculpture to recycling campaigns and wall newspapers all of which work to make communism s ideas and values material Contributors work to resist the widespread demonization of communism demystifying its ideals and suggesting that it has visually shaped the modern world in undeniable and complex ways Together contributors answer curcial questions like What can be salvaged and reused from past communist experiments How has communism impacted the cultures of late capitalism And how have histories of communism left behind visual traces of potential utopias An interdisciplinary look at the cultural currency of communism today The Oxford Handbook of Communist Visual Cultures demonstrates the value of revisiting the practices of the past to form a better vision of the future *Naum Gabo; sixty years of constructivism* S.A. Plastics Anne Gunnison,David Joselit,2025-11-11 Why modern and contemporary art and art conservation can t be understood without taking account of the revolutionary impact of plastics Modern and contemporary art wouldn t exist without the invention of plastics From sculpture to paint and photography to film plastics have shaped every major medium of art In turn plastics have revolutionized art conservation transforming the possibilities of preservation but also producing new challenges for conservators struggling to preserve toxic and degrading material Hailed as utopian in the twentieth century plastics today are often understood as pollution and waste a central cause of ecological crisis *Plastics* is the first book to address the multifaceted history of plastics from the perspective of artists art historians conservators and environmental scientists *Plastics* demonstrates that this material cannot easily be summarized as toxic or utopian catastrophic or necessary Instead plastics define the modern world in both its possibility and failures The book also reveals how artists have been a critical overlooked voice in debates about plastics and how they have offered theories of the material through works that explore its potential and harmfulness Presenting a variety of perspectives on the world of plastics through the lens of art artmaking art history and art conservation *Plastics* shows why and how coming to terms with this material is critical to understanding not only modern and contemporary art and art conservation but also the crises of the twenty first century Make it Modern Brandon Taylor,2022-01-01 A fascinating journey through Western art from the 1910s to the 1960s charting how artists wrestled with the headlong changes of a turbulent and conflict ridden world From the chaos of the First World War to the ravages of the Second from the Great Depression to the rise of consumer culture artists we call modern faced the challenge of responding imaginatively to utterly new circumstances of life Original thought startling artistic techniques and new attitudes to experimentation were required to produce exceptional and timely work

Make It Modern guides the reader through the art of the modern world Works of celebrated artists from Pablo Picasso and Wassily Kandinsky to Frida Kahlo Jackson Pollock and Yayoi Kusama alongside a panoply of undervalued or less known figures populate this decade by decade narrative Make It Modern tells an unforgettable story of how art was changed forever

Jed Rasula,2020-02-27 This is a book about artistic modernism contending with the historical transfigurations of modernity As a conscientious engagement with modernity s restructuring of the lifeworld the modernist avant garde raised the stakes of this engagement to programmatic explicitness But even beyond the vanguard the global phenomenon of jazz combined somatic assault with sensory tutelage Jazz like the new technologies of modernity re calibrated sensory ratios The criterion of the new as self making also extended to names pseudonyms and heteronyms The protocols of modernism solicited a pragmatic arousal of bodily sensation as artistic resource validating an acrobatic sensibility ranging from slapstick and laughter to the pathos of bereavement Expressivity trumped representation The artwork was a diagram of perception not a mimetic rendering For artists the historical pressures of altered perception provoked new models and Ezra Pound s slogan Make It New became the generic rallying cry of renovation The paradigmatic stance of the avant garde was established by Futurism but the discovery of prehistoric art added another provocation to artists Paleolithic caves validated the spirit of all over composition unframed and dynamic Geometric abstraction Constructivism and Purism and Surrealism were all in quest of a new mythology Making it new yielded a new pathos in the sensation of radical discrepancy between futurist striving and remotest antiquity The Paleolithic cave and the USSR emitted comparable siren calls on behalf of the remote past and the desired future As such the present was suffused with the pathos of being neither but subject to both      *Academic American Encyclopedia: Cit-Cz* ,1995 A twenty one volume encyclopedia with 32 000 entries and more than 16 000 illustrations
