*Navajo Architecture* Stephen C. Jett, Virginia E. Spencer, 1981-01-01      **Navajo Architecture** Stephen C. Jett, Virginia E. Spencer, 1981 Complete explication of hogan and house forms root forms summer structures and more make this possibly the most complete study ever made of the folk architecture of a tribal society to date      *Diné* Peter Iverson, 2002-08-28 This comprehensive narrative traces the history of the Navajos from their origins to the beginning of the twenty first century Based on extensive archival research traditional accounts interviews historic and contemporary photographs and firsthand observation it provides a detailed up to date portrait of the Din past and present that will be essential for scholars students and interested general readers both Navajo and non Navajo As Iverson points out Navajo identity is rooted in the land bordered by the four sacred mountains At the same time the Navajos have always incorporated new elements new peoples and new ways of doing things The author explains how the Din remember past promises recall past sacrifices and continue to build upon past achievements to construct and sustain North America s largest native community Provided is a concise and provocative analysis of Navajo origins and their relations with the Spanish with other Indian communities and with the first Anglo Americans in the Southwest Following an insightful account of the traumatic Long Walk era and of key developments following the return from exile at Fort Sumner the author considers the major themes and events of the twentieth century including political leadership livestock reduction the Code Talkers schools health care government economic development the arts and athletics Monty Roessel Navajo an outstanding photographer is Executive Director of the Rough Rock Community School He has written and provided photographs for award winning books for young people      *Navajo Weavers of the American Southwest* Peter Hiller, Ann Lane Hedlund, Ramona Sakiestewa, 2018-10-08 From the mid 17th century to the present day herding sheep carding wool spinning yarn dyeing with native plants and weaving on iconic upright looms have all been steps in the intricate process of Navajo blanket and rug making in the American Southwest Beginning in the late 1800s amateur and professional photographers documented the Din Navajo weavers and their artwork and the images they captured tell the stories of the artists their homes and the materials techniques and designs they used Many postcards illustrate popular interest surrounding weaving as an indigenous art form even as economic social and political realities influenced the craft These historical pictures illuminate perceived traditional weaving practices The authors accompanying narratives deepen the perspective and relate imagery to modern life      **The Diné Hogan** Lillian Makeda, 2024-06-28 Over the course of their history the Navajo Din have constructed many types of architecture but during the 20th century one building emerged to become a powerful and inspiring symbol of tribal culture This book describes the rise of the octagonal stacked log hogan as the most important architectural form among the Din The Navajo Nation is the largest Indian reservation in the United States and encompasses territory from within Arizona New Mexico and Utah where thousands of Native American homes called hogans dot the landscape Almost all of these buildings are octagonal Whether built from

plywood nailed onto a wood frame or with other kinds of timber construction octagonal hogans derive from the stacked log hogan a form which came to prominence around the middle of the last century The stacked log hogan has also influenced public architecture and virtually every Din community on the reservation has a school senior center office building or community center that intentionally evokes it Although the octagon recurs as a theme across the Navajo reservation the inventiveness of vernacular builders and professional architects alike has produced a wide range of octagonally inspired architecture Previous publications about Navajo material culture have emphasized weaving and metalwork overlooking the importance of the tribe's built environment But populated by an array of octagonal public buildings and by the hogan one of the few Indigenous dwellings still in use during the 21st century the Navajo Nation maintains a deep connection with tradition This book describes how the hogan has remained at the center of Din society and become the basis for the most distinctive Native American landscape in the United States The Din Hogan A Modern History will appeal to scholarly and educated readers interested in Native American history and American architecture It is also well suited to a broad selection of college courses in American studies cultural geography Native American art and Native American architecture

**A New Deal for Native Art** Jennifer McLerran, 2022-08-16 As the Great Depression touched every corner of America the New Deal promoted indigenous arts and crafts as a means of bootstrapping Native American peoples But New Deal administrators' romanticization of indigenous artists predisposed them to favor pre industrial forms rather than art that responded to contemporary markets In *A New Deal for Native Art* Jennifer McLerran reveals how positioning the native artist as a pre modern Other served the goals of New Deal programs and how this sometimes worked at cross purposes with promoting native self sufficiency She describes federal policies of the 1930s and early 1940s that sought to generate an upscale market for Native American arts and crafts And by unraveling the complex ways in which commodification was negotiated and the roles that producers consumers and New Deal administrators played in that process she sheds new light on native art's commodity status and the artist's position as colonial subject In this first book to address the ways in which New Deal Indian policy specifically advanced commodification and colonization McLerran reviews its multi pronged effort to improve the market for Indian art through the Indian Arts and Crafts Board arts and crafts cooperatives murals museum exhibits and Civilian Conservation Corps projects Presenting nationwide case studies that demonstrate transcultural dynamics of production and reception she argues for viewing Indian art as a commodity as part of the national economy and as part of national political trends and reform efforts McLerran marks the contributions of key individuals from John Collier and Rene d Harnoncourt to Navajo artist Gerald Nailor whose mural in the Navajo Nation Council House conveyed distinctly different messages to outsiders and tribal members Featuring dozens of illustrations *A New Deal for Native Art* offers a new look at the complexities of folk art revivals as it opens a new window on the Indian New Deal

**Technological Perspectives on Behavioral Change** Michael Brian Schiffer,2022-08-30 Human societies have always been characterized by a dependence on artifacts from prehistoric stone tools to modern electronic devices Technology responds to and affects virtually all human behavior yet the interdependence of behavior and artifacts has never been studied intensively Archaeologist Schiffer now draws on his discipline s familiarity with artifacts and the processes of change they reveal to offer new insight into the study of behavioral change Drawing on case studies that deal with changes in architecture ceramics and electronic technology he emphasizes the central idea that the explanations of change must focus on the nexus of behavior and artifacts in the context of activities [Gendered Spaces](#) Daphne Spain,2000-11-09 In hundreds of businesses secretaries usually women do clerical work in open floor settings while managers usually men work and make decisions behind closed doors According to Daphne Spain this arrangement is but one example of the ways in which physical segregation has reinforced women s inequality In this important new book Spain shows how the physical and symbolic barriers that separate women and men in the office at home and at school block women s access to the socially valued knowledge that enhances status Spain looks at first at how nonindustrial societies have separated or integrated men and women Focusing then on one major advanced industrial society the United States Spain examines changes in spatial

arrangements that have taken place since the mid nineteenth century and considers the ways in which women s status is associated with those changes As divisions within the middle class home have diminished for example women have gained the right to vote and control property At colleges and universities the progressive integration of the sexes has given women students greater access to resources and thus more career options In the workplace however the traditional patterns of segregation still predominate Illustrated with floor plans and apt pictures of homes schools and work sites and replete with historical examples Gendered Spaces exposes the previously invisible spaces in which daily gender segregation has occurred and still occurs
