*Navajo Lifeways* Maureen Trudelle Schwarz,2001 I think what is always really amazing to me is that Navajo are never amazed by anything that happens Because it is like in a lot of our stories they are already there Sunny Dooley Navajo Storyteller During the final decade of the twentieth century Navajo people had to confront a number of challenges from unexplained illness the effects of uranium mining and problem drinking to threats to their land rights and spirituality Yet no matter how alarming these issues Navajo people made sense of them by drawing guidance from what they regarded as their charter for life their origin stories Through extensive interviews Maureen Trudelle Schwarz allows Navajo to speak for themselves on the ways they find to respond to crises and chronic issues In capturing what Navajo say and think about themselves Schwarz presents this southwestern people s perceptions values and sense of place in the world "*I Choose Life*" Maureen Trudelle Schwarz,2014-10-20 How Navajos navigate the complex world of medicine Surgery blood transfusions CPR and organ transplantation are common biomedical procedures for treating trauma and disease But for Navajo Indians these treatments can conflict with their traditional understanding of health and well being This book investigates how Navajos navigate their medically and religiously pluralistic world while coping with illness Focusing on Navajo attitudes toward invasive procedures Maureen Trudelle Schwarz reveals the ideological conflicts experienced by Navajo patients and the reasons behind the choices they make to promote their own health and healing Schwarz has conducted extensive interviews with patients traditional herbalists and ceremonial practitioners and members of Native American Church and Christian denominations to reveal the variety of perspectives toward biomedicine that prevail on the reservation and to show how each group within the tribe copes with health related issues She describes how Navajos interpret numerous health issues in terms of local understanding drawing on both their own and biomedical or Christian traditions She also provides insight into how Navajos use ceremonial practice and prayer to deal with the consequences of amputation or transplantation *The Navajo Political Experience* David E. Wilkins,2003-02-24 The Navajo Nation is the largest of over 560 federally recognized indigenous entities in the United States today Navajo history and politics thus serve as a model for understanding American Indian issues across the board ranging from the tribal federal relationship to contemporary land disputes taxation policies and Indian gaming challenges This revised edition of a recent text includes new census data along with a new introduction and an updated timeline of Dine political history The text s thoroughgoing analysis of Navajo political institutions and processes is amplified by a consideration of the distinctive Navajo culture Presented in the context of indigenous societies everywhere the book offers a way to explore the culture of politics and the politics of culture confronted by all native peoples *Interdisciplinary Collaboration for Water Diplomacy* Shafiqul Islam,Kevin M. Smith,2019-11-22 This book introduces the concept of Water Diplomacy as a principled and pragmatic approach to problem driven interdisciplinary collaboration which has been developed as a response to pressing contemporary water challenges

arising from the coupling of natural and human systems The findings of the book are the result of a decade long interdisciplinary experiment in conceiving developing and implementing an interdisciplinary graduate program on Water Diplomacy at Tufts University USA This has led to the development of the Water Diplomacy Framework a shared framework for understanding diagnosing and communicating about complex water issues across disciplinary boundaries This framework clarifies important distinctions between water systems simple complicated or complex and the attributes that these distinctions imply for how these problems can be addressed In this book the focus is on complex water issues and how they require a problem driven rather than a theory driven approach to interdisciplinary collaboration Moreover it is argued that conception of interdisciplinarity needs to go beyond collaboration among experts because complex water problems demand inclusive stakeholder engagement such as in fact value deliberation joint fact finding collective decision making and adaptive management Water professionals working in such environments need to operate with both principles and pragmatism in order to achieve actionable sustainable and equitable outcomes This book explores these ideas in more detail and demonstrates their efficacy through a diverse range of case studies Reflections on the program are also included from conceptualization through implementation and evaluation This book offers critical lessons and case studies for researchers and practitioners working on complex water issues as well as important lessons for those looking to initiate implement or evaluate interdisciplinary programs to address other complex problems in any setting

Religion, Death, and Dying Lucy Bregman,2009-11-25 A wide ranging anthology for general readers covering many religious ethical and spiritual aspects of death dying and bereavement in American society What do various

spiritual and ethical belief systems have to say about modern medicine's approach to the end of life. Do all major religions characterize the afterlife in similar ways? How do funeral rites and rituals vary across different faiths? Now there is one resource that gathers leading scholars to address these questions and more about the many religious, ethical, and spiritual aspects of death, dying, and bereavement in America. *Religion, Death, and Dying* compares and contrasts the ways different faiths and ethical schools contemplate the end of life. The work is organized into three thematic volumes: first, an examination of the contemporary medicalized death from the perspective of different religious traditions and the professions involved; second, an exploration of complex, often controversial issues including the death of children, AIDS, capital punishment, and war; and finally, a survey of the funeral and bereavement rituals that have evolved under various religions.

*Crossing Between Worlds* Jeanne M. Simonelli, 2008-03-07 The Navajo people of Canyon de Chelly must negotiate a delicate balance between the old and the new as they struggle to maintain their traditional ways of life in the midst of archaeologists, U.S. Park Service employees, and the increasing numbers of tourists who come to visit this hauntingly beautiful part of northeastern Arizona. Anthropologist writer Jeanne Simonelli, who worked at Canyon de Chelly as a seasonal park ranger, interweaves stories of her personal experiences and friendships with canyon residents with discussions of native history and culture in the region. Focusing on the members of one extended Navajo family, Simonelli describes the small moments of their daily lives: shearing goats, baking bread, attending a solemn all-night health ceremony, washing clothes at the local laundromat, playing traditional games, and contemporary sports. Talking about the history of the Diné Navajo people and pondering the changes they have witnessed in the canyon and the difficulties they confront, *Crossing Between Worlds* is sumptuously illustrated with insightful black and white photographs that document the everyday activities of Navajo families in one of the most spectacular corners of the American Southwest.

**Diné dóó Gáamalii** Farina King, 2023-10-27 Navajo Latter-day Saints are Diné Gáamalii. As Farina King writes in this deeply personal collective biography, "We are Diné who decided to walk a Latter-day Saint pathway, although not always consistently or without reappraising that decision." *Diné dóó Gáamalii* is a history of twentieth-century Navajos, including author Farina King and her family, who have converted and joined the Church of Jesus Christ of Latter-day Saints (LDS), becoming Diné Gáamalii, both Diné and LDS. Drawing on Diné stories from the LDS Native American Oral History Project, King illuminates the mutual entanglement of Indigenous identity and religious affiliation, showing how their Diné identity made them outsiders to the LDS Church and conversely how belonging to the LDS community made them outsiders to their Native community. The story that King tells shows the complex ways that Diné people engaged with church institutions in the context of settler colonial power structures. The lived experiences of Diné in church programs sometimes diverged from the intentions and expectations of those who designed them. In this empathetic and richly researched study, King explores the impacts of Navajo Latter-day Saints who seek to bridge different traditions, peoples, and communities. She sheds light on the challenges and joys they face in following both the Diné teachings of *Sí áh Naagh Bik éh Hózhó*—live to old age in beauty and the

teachings of the church      **Healing and Mental Health for Native Americans** Ethan Nebelkopf, Mary Phillips, 2004-08-27  
Substance abuse mental illness and violence are a self perpetuating vicious cycle in many Native American communities In this book the authors highlight the importance of eliminating health disparities and increasing the access of Native Americans to critical substance abuse and mental health services Dedicated educators researchers and clinicians in the Native community demonstrate how practitioners can work within both the walls of western medicine and the circles of traditional healers and promote healing through changes in the way we treat our sick spiritually traditionally ceremonially and scientifically whether in rural areas on reservations or in cities They emphasize the importance of non profit community based health organizations as nodes for community interaction and sources of mental health services for Native Americans in multi tribal multi ethnic and multi racial urban areas This excellent collection will be invaluable for medical and mental health professionals and the Native health community      *Religion and American Cultures* Gary Laderman, Luis León, 2014-12-17 This four volume work provides a detailed multicultural survey of established as well as new American religions and investigates the fascinating interactions between religion and ethnicity gender politics regionalism ethics and popular culture This revised and expanded edition of *Religion and American Cultures Tradition Diversity and Popular Expression* presents more than 140 essays that address contemporary spiritual practice and culture with a historical perspective The entries cover virtually every religion in modern day America as well as the role of religion in various aspects of U S culture Readers will discover that Americans aren't largely Protestant Catholic or Jewish anymore and that the number of popular religious identities is far greater than many would imagine And although most Americans believe in a higher power the fastest growing identity in the United States is the none those Americans who elect none when asked about their religious identity thereby demonstrating how many individuals see their spirituality as something not easily defined or categorized The first volume explores America's multicultural communities and their religious practices covering the range of different religions among Anglo Americans and Euro Americans as well as spirituality among Latino African American Native American and Asian American communities The second volume focuses on cultural aspects of religions addressing topics such as film Generation X public sacred spaces sexuality and new religious expressions The new third volume expands the range of topics covered with in depth essays on additional topics such as interfaith families religion in prisons belief in the paranormal and religion after September 11 2001 The fourth volume is devoted to complementary primary source documents
