### **Ethical Decision Making Shaul Shalvi, 2011**

**Who Knows What's Right Anymore?** Earle F. Zeigler, 2002 This book asks the provocative question who knows what's right anymore In answering this question it serves as a guide to personal ethical decision making North Americans have gotten themselves into a crazy situation because of the broadly based multi ethnic culture that is developing rapidly This

means that any former idea about there being one GOOD and one BAD doesn't apply anymore. A new standard is needed to distinguish between RIGHT action and WRONG action as we strive and prosper in the 21st century. Ethical Beginnings Waymond Rodgers, 2009. Waymond Rodgers PhD CPA has worked over fifteen years studying how to combine ethical considerations with a decision making model of perception information and judgment that will foster better decision making processes resulting in an overall improvement of daily life. He has presented seminars on ethics at numerous international conferences and also provided ethics presentations to corporations, societies, universities and other organizations such as Opus Dei. The need for ethics in society is such an important factor because many commonly held ethical values are incorporated into laws. Yet due to the judgmental nature of certain values, many ethical values of a society cannot be incorporated into law. Ethical process thinking involves discerning right from wrong and acting in alignment with such judgments, enabling us to complement several ethical approaches of preferences, rules and principles with unique decision making pathways leading to an ethical decision. Ethical decisions can be difficult to make due to a misunderstanding of the decision making process, incomplete information, changing environments, time pressures and a lack of expertise. Ethical Beginnings: Preferences, Rules and Principles influencing decision making explains the major barriers to ethical decision making, why structuring a problem is necessary and when to use information for decision making purposes. *Through the Moral Maze* Robert Kane, 2017-07-12. On the issue of our pluralistic age, whether we can continue to believe in absolute value, Robert Kane has written the most helpful discussion I know. It is clear, cogent and above all convincing. Huston Smith, author of *The World's Religions*. **Making Ethical Choices, Resolving Ethical Dilemmas** Gini Graham Scott, 1998-04. A book offering advice on assessing the ethical approach to moral dilemmas of oneself and others. It includes an ethical choices map to categorise ethical approaches according to values orientation and attitude and it is written by the author of *RESOLVING CONFLICT* and *THE TRUTH ABOUT LYING*.
