Liberating Learning Terry M. Moe, John E. Chubb, 2009-07-15 Praise for Liberating Learning Moe and Chubb have delivered a truly stunning book rich with the prospect of how technology is already revolutionizing learning in communities from Midland Pennsylvania to Gurgaon India At the same time this is a sobering telling of the realpolitik of education a battle in which the status quo is well defended But most of all this book is a call to action a call to unleash the power of technological innovation to create an education system worthy of our aspirations and our childrens dreams Ted Mitchell CEO of the New Schools Venture Fund As long as we continue to educate students without regard for the way the real world works we will continue to limit their choices In Liberating Learning Terry Moe and John Chubb push us to ask the questions we should be asking to have the hard conversations about how far technology can go to advance student achievement in this country Michelle Rhee Chancellor of Education for the Washington D C schools A brilliant analysis of how technology is destined to transform America s schools

for the better not simply by generating new ways of learning but also and surprisingly by unleashing forces that weaken its political opponents and open up the political process to educational change A provocative entirely novel vision of the future of American education Rick Hanushek the Paul and Jean Hanna Senior Fellow at the Hoover Institution Stanford University Terry Moe and John Chubb two long time astute observers of educational reform see technology as the way to reverse decades of failed efforts Technology will facilitate significantly more individualized student learning and perhaps most importantly technology will make it harder and harder for the entrenched adult interests to block the reforms that are right for our kids This is a provocative informative and ultimately optimistic read something we badly need in public education Joel Klein Chancellor of the New York City schools *Inequity in Education* Debra Meyers,Burke Miller,2009-01-01 Inequity in Education represents the latest scholarship investigating issues of race class ethnicity religion gender and national identity formation that influenced education in America throughout its history Targeting sophisticated undergraduates along with graduate students and specialists this exciting new collection will capitalize on the growing interest in the historical foundations of the problems facing our schools today This collection of cutting edge essays and primary source documents represents a variety of theoretical and methodological perspectives that will appeal to both social and cultural historians as well as those who teach education courses including introductory surveys and foundations courses *NEA Handbook. 1st.-Ed.; 1945/46-. ,1945* *Proceedings of the ... Representative Assembly* National Education Association of the United States. R. Gurung, Nancy L. Chick, Aeron Haynie, 2023-07-03 From the Foreword These authors have clearly shown the value in looking for the signature pedagogies of their disciplines Nothing uncovers hidden assumptions about desired knowledge skills and dispositions better than a careful examination of our most cherished practices The authors inspire specialists in other disciplines to do the same Furthermore they invite other colleagues to explore whether relatively new interdisciplinary fields such as Women s Studies and Global Studies have or should have a signature pedagogy consistent with their understanding of what it means to apprentice in these areas Anthony A Ciccone Senior Scholar and Director Carnegie Academy for the Scholarship of Teaching and Learning How do individual disciplines foster deep learning and get students to think like disciplinary experts With contributions from the sciences humanities and the arts this book critically explores how to best foster student learning within and across the disciplines This book represents a major advance in the Scholarship of Teaching and Learning SoTL by moving beyond individual case studies best practices and the work of individual scholars to focus on the unique content and characteristic pedagogies of major disciplines Each chapter begins by summarizing the SoTL literature on the pedagogies of a specific discipline and by examining and analyzing its traditional practices paying particular attention to how faculty

evaluate success Each concludes by the articulating for its discipline the elements of a signature pedagogy that will improve teaching and learning and by offering an agenda for future research Each chapter explores what the pedagogical literature of the discipline suggests are the optimal ways to teach material in that field and to verify the resulting learning Each author is concerned about how to engage students in the ways of knowing the habits of mind and the values used by experts in his or her field Readers will not only benefit from the chapters most relevant to their disciplines As faculty members consider how their courses fit into the broader curriculum and relate to the other disciplines and design learning activities and goals not only within the discipline but also within the broader objectives of liberal education they will appreciate the cross disciplinary understandings this book affords
