
Internet Policy

1. Purpose.

The purpose of this policy is to ensure the proper use of _____'s (hereinafter referred to as Company) internet system and make its employees and users aware of what the Company deems as acceptable and unacceptable use of its internet system. This policy also provides for sanctions in the event of a breach or violation of the policy terms hereunder.

2. Applicability.

This Policy applies to all users of company technology, including employees, contractors, vendors, partners, associates, and any other parties accessing or using the Company's System through on-site or remote terminals.

3. Disclaimer of liability for use of Internet.

The Company is not responsible for material viewed or downloaded by users from the Internet. The Internet is a worldwide network of computers that contains millions of pages of information. Users are cautioned that many of these pages include offensive, sexually explicit, and inappropriate material. In general, it is difficult to avoid at least some contact with this material while using the Internet. Even innocuous search requests may lead to sites with highly offensive content. In addition, having an e-mail address on the Internet may lead to receipt of unsolicited e-mail containing offensive content. Users accessing the Internet do so at their own risk.

4. Duty not to waste computer resources.

Employees must not deliberately perform acts that waste computer resources or unfairly monopolize resources to the exclusion of others. These acts include, but are not limited to, sending mass mailings or chain letters, spending excessive amounts of time on the Internet, playing games, engaging in online chat groups, printing multiple copies of documents, or otherwise creating unnecessary network traffic. Because audio, video and picture files require significant storage space, files of this or any other sort may not be downloaded unless they are business-related.

5. No expectation of privacy.

The computers and computer accounts given to employees are the exclusive property of the Company. No individual should have any expectation of privacy in any communication over this System. The System is to be used solely for company-related business, and is not to be used for personal business or pleasure.

Nealschuman Internet Policy Handbook For Libraries

Mark Smith

Nealschuman Internet Policy Handbook For Libraries:

Neal-Schuman Internet Policy Handbook for Libraries Mark Smith,1999 Intended to guide library administrators through the many complex decisions inherent in managing public Internet access Takes you through each possible element of an Internet policy Explores the potential positive and negative impacts for each option *Neal-Schuman Internet Policy Handbook for Libraries* ,1999 **The Internet Public Library Handbook** Joseph Janes,1999 A guide for librarians designed to help them plan build and maintain a collection of Internet based resources design services to meet the users needs answer reference questions via e mail and find funding and support for network based information services **Small Libraries** Sally Gardner Reed,2002-06-12 This fully revised and updated edition provides current information on automation and technology and on advocacy to help small public libraries strive to make available the same basic services as larger libraries This book is written for the directors of these honest to goodness small libraries providing both a philosophical as well as a common sense basis for decision making Appendices provide sample documents for a library s Statement of Purpose worksheets for job descriptions and personnel policies a volunteer application form ALA documents Library Bill of Rights and Code of Ethics a list of discount book dealers and a sample meeting room policy *Teaching the Internet to Library Staff and Users* William D. Hollands,1999 A practical guide for librarians wishing to establish or refine ongoing Internet training for staff members or patrons *The Bowker Annual Library and Book Trade Almanac 2000* R R Bowker Publishing,Bowker,2000-05 As an on the job answer book a statistical information resource a planning and research guide and a directory and calendar The Bowker Annual Library and Book Trade Almanac 2000 delivers the hard to find industry news and information you need all year long This acclaimed must have resource provides Expert reviews of the key trends events and developments that will influence your work in 2000 and the years to come Plain English explanations of new legislation and changes in funding programs and how it will affect libraries Definitive statistics on book prices numbers of books published library expenditures average salaries and other budget crunching assistance A full calendar of events key organizations names and numbers of important individuals including e mail addresses and fax numbers and much more This fully updated reference tool makes it easy to stay on top of the developments that affect libraries booksellers and publishers alike and to find fast answers to the countless on the job questions you encounter You ll use it to Keep informed on the latest trends in networking the Internet and other advances Locate information on industry events and organizations Find lists of best books literary prizes winners and bestsellers Prepare budgets and justify requests Review recent legislation and regulations affecting your industry Learn about emerging trends needs problems and opportunities And that s just the beginning With The Bowker Annual 2000 on hand you won t spend hours or even days tracking down needed library or book trade data because the information you need is right at your fingertips **Public Internet Access in Libraries and Information Services** Rodney Paul Sturges,Paul Sturges,2002 Combining both theory and practice this guide is based on

the principle that freedom of expression and freedom of access to information are fundamental to librarianship whilst taking into account the ethical and legal ambiguity of Internet provision **Resources in Education** ,2001-04 *Creating Cyber Libraries* Kathleen W. Craver,2002-05-30 As prices of traditional library materials increase and space to house them shrinks savvy school library media specialists are creating cyber libraries or school libraries on the Internet These libraries offer students and their parents 24 hour access and are invaluable for providing up to date information in a way traditional materials cannot This guide outlines the steps library media specialists can take to create a cyber library provide content and policies for use and maintain it for maximum efficiency Craver justifies the need for cyber libraries in the 21st century and how they can help librarians to meet the standards in Information Power 1998 She explains the different types of cyber libraries available along with their advantages and disadvantages She discusses how to construct them using portals or by acquiring fee based cyber libraries and what policies should be in place to protect both the school and its students Also included are instructions for establishing remote access to subscription databases creating cyber reading rooms and providing instructional services to student users Once a cyber library is created it must be maintained and evaluated to keep it useful and current and this book provides guidelines to do so Finally there is a chapter on promoting the cyber library so the school community is aware of its features and participates in its growth process No school library should be without this volume Computers in Libraries ,2002 The Small Public Library Survival Guide Herbert B. Landau,2008-06-30 Herbert Landau a seasoned marketer applied his three decades of corporate marketing experience to save a small library faced with funding cuts His customer centric approaches brought in resources volunteers and in kind donations and earned the library local and national awards Cover **Standard Catalog for High School Libraries** H.W. Wilson Company,2002 Each vol is divided into 2 parts 1st 7th ed Dictionary catalog and Classified catalog 8th 9th ed have 3rd part Directory of publishers

Directory of Library Automation Software, Systems, and Services Information Today Inc,2004 Published biennially since 1983 the Directory of Library Automation Software Systems and Services is recognized as the primary reference source for software packages used in automating libraries This entirely new expanded edition provides detailed descriptions of hundreds of currently available microcomputer minicomputer and mainframe software packages and services This new edition contains more comparative information on library applications software than is available from any other source

Internet Costs and Cost Models for Public Libraries Charles R. McClure,John Carlo Bertot,John C. Beachboard,United States. National Commission on Libraries and Information Science,1995 This report is the result of the statutory mandate by the National Commission on Libraries and Information Science NCLIS to promote activities to extend the nation s library and information handling capability as essential links in the emerging global information infrastructure In a study to inventory the challenges related to libraries roles in the National Information Infrastructure NII it was discovered that libraries had difficulty identifying and describing specific Internet costs The cost elements models and worksheets presented here are

intended to serve as useful guides for public libraries and communities in planning Internet connections and services Five representative connectivity models and seven broad cost categories are identified for use by public libraries planning Internet connectivity and services The value of this study rests more with the development of cost models worksheets and cost categories than with the costs represented in this report However the representative costs illustrate the significant variations that are possible in planning the networking permutations and configuration available to the public library community For example an initial one time cost of 1 475 and a recurring annual cost of 12 635 a public library can establish a minimal level of single workstation text based Internet connection A more sophisticated representative multimedia connectivity model is described involving multiple workstations at multiple locations for a one time cost of 266 375 and a recurring annual cost of 154 220 indicating the wide variation in cost and connectivity possibilities The findings are intended to provide a basis for extending the benefits of advanced information services to the nation through its 9 050 public libraries Models are illustrated through 14 figures Two appendices provide research methodology and glossary of Internet terms Contains 14 references Author MAS Encyclopedia of Disability Gary L Albrecht,2006 Presents current knowledge of and experience with disability across a wide variety of places conditions and cultures to both the general reader and the specialist **Libraries, Museums, and Archives** Tomas A. Lipinski,2001-12-22 How can libraries museums and archives update their policies to balance legal requirements with the needs of their users Although such issues have always permeated the information environment traditional responses are no longer enough This in depth treatment provides concrete background and guidelines for every library museum or archive no matter what the size or mission Issues related to the components of the collection gifts and donations real property and tax implications rights to privacy users rights of access copyright and information control and responsibility for safety in public spaces are covered in depth A complete chapter is devoted to a discussion of the proper structure and elements of library museum or archives policy content a superb blueprint for effective policy drafting at all levels of the institutional lifecycle Finally a resource list of ethical and legal materials in print and on the Web points the way to a wealth of highly specific and useful information Timely and essential **Academic Research on the Internet** William Miller,Helen Laurence,2001-03-19 Find what you re looking for with the best Internet resources for academic research in the humanities sciences and social sciences Which academic resource deserves more of your budget printed books and journals or softly glowing terminals The answer differs depending on the subject area the availability and reliability of Internet information in that field and the comparative value of Internet research and traditional print media Academic Research on the Internet Options for Scholars and Libraries gives you the information you need to make those choices This comprehensive book examines the usability of the Internet as a scholarly research and reference tool Each chapter provides a snapshot of Internet information access and usability in a specific subject area comparing it to traditional print media In addition each chapter includes a selected webliography of key

resources a time saving tool for librarians on the reference desk Experts in specific subject areas provide up to the minute assessments of the usefulness of the Internet for research in their fields including Arts and Architecture Biology Engineering Chemistry Physics and Mathematics Music Philosophy English and American Literature History Political Science Business Education Anthropology and Sociology Health Sciences Public Administration Law Environmental Sciences Reference Academic Research on the Internet is designed to provide the facts you need about the reliability timeliness and availability of Internet information With this information you can decide on the relative value of print subscriptions assess the degree to which the Internet alone can satisfy users information needs and make intelligent choices about budget allocation

Libraries, Access, and Intellectual Freedom Barbara M. Jones,1999-10 Libraries Access and Intellectual Freedom is a comprehensive guide to the key intellectual freedom hot buttons and the legal issues involved This unique book offers a practical approach to developing promoting and implementing intellectual freedom policies that work **Cataloging and Classification for Library Technicians, Second Edition** Ruth C Carter,Mary L Kao,2020-07-24 Structure your workload with this comprehensive guide to the role and responsibilities of library technicians More than basic instructions on how to do library classification this classic work is a how to handbook covering all aspects of a library technician s job Cataloging and Classification for Library Technicians Second Edition gives step by step instructions for all aspects of cataloging and classification of library materials book and non book emphasizing copy cataloging but also discussing original cataloging Because much has changed in the library field since the first edition of this valuable resource was published in 1995 each chapter has been revised and updated and an entire new chapter has been added to discuss computer cataloging in the MARC format and cataloging of Internet materials Cataloging and Classification for Library Technicians Second Edition interprets and explains cataloging rules and how they should be applied Kao describes library organization and personnel patterns to illustrate the relationship between library technicians and other library staff Library technicians will find many helpful features in Cataloging and Classification for Library Technicians Second Edition including definitions of relevant terminology review questions to focus learning a list of suggested readings routines and responsibilities of library technicians issues and trends in library cataloging and classification detailed tables and figures to enable easier learning many convenient Web addresses for up to date information Cataloging and Classification for Library Technicians Second Edition is an ideal text to use in programs for library technical assistants and a handy reference for practicing library technicians

Dealing with Selection and Censorship Wisconsin. Department of Public Instruction,1999 This handbook focuses on intellectual freedom as it relates to school library media centers and public libraries The purpose of this handbook is to help public libraries and school districts develop and adopt necessary policies and procedures that will build a solid foundation for intellectual freedom as part of the community and school climate and provide sources of assistance when an expression of concern or a complaint occurs Although it contains suggestions for classroom teachers faced with challenges the handbook

does not have a major focus on resources selected specifically for classroom instruction It is divided into four sections School District Policies and Procedures Selection and Reconsideration School District Policies and Procedures Internet Access Public Library Policies and Procedures Selection and Reconsideration and Public Library Policies and Procedures Internet Access Both of the Selection and Reconsideration sections contain information on the philosophical base statutory base resource selection policy reconsideration policy staff development communication and public information and reconsideration in practice The Internet Access sections include information on Internet filters Internet policy staff development and communication and public information Appendices include a selected bibliography Wisconsin statutes and administrative rules Intellectual Freedom Statement challenges to materials in school libraries and sources of assistance AEF

FAQs About Nealschuman Internet Policy Handbook For Libraries Books

What is a Nealschuman Internet Policy Handbook For Libraries PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Nealschuman Internet Policy Handbook For Libraries PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Nealschuman Internet Policy Handbook For Libraries PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Nealschuman Internet Policy Handbook For Libraries PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Nealschuman Internet Policy Handbook For Libraries PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
