Making Decentralization Work in Latin America and the Caribbean ,2002 *World Studies: Latin America* Heidi Hayes Jacobs,Michal L. Levasser, **Delimiting Modernities** Sven Trakulhun,Ralph Weber,2015-02-12 This collection seeks to contribute to the many long standing discussions on modernity but also and more specifically to the more recent debates over trends to pluralize modernity These debates are current in many different academic disciplines such as sociology anthropology literature and postcolonial studies Hitherto most engagements with modernity in the plural have remained conspicuously confined to one or other intra disciplinary notion of modernities such as that of Shmuel Eisenstadt s multiple modernities which has triggered a host of conference papers and publications largely within sociology all the while it seems that the literatures for instance of multiple modernities and alternative modernities are each distinguished by the fact that one ignores the other It is the principal aim of this edited volume to subject these disciplinary discussions to a more encompassing view assembling contributions from different scholars who not only work in different disciplines and regional settings but who also engage with their research topics in a variety of approaches and at different levels of analysis The volume thus transcends the sometimes narrow boundaries of the debates over modernities within the established academic disciplines and seeks to turn the unavoidable friction brought about by this interdisciplinary setting into most original and insightful scholarship **They Eat Our Sweat** Daniel E. Agbibo,2022 They Eat Our Sweat examines the corruption complex in Africa in the context of transportation Focusing on Lagos Nigeria Agbibo shows that corruption is driven by the imperatives of urban economic competition **Shadow Networks** Francisco Louçã,Michael Ash,2018-10-03 The 2007 08 financial crisis surprised many economists and the public But how did the crisis come about why was it so deep and why has

the clean up been so slow and painful Many accounts of the crisis focus on renegade activity in marginal financial sectors Shadow Networks challenges this pervading view and sets out to demonstrate that far from a dissident branch the shadow finance that initiated the crisis is tightly networked with and highly profitable for bank based finance The collapse was not an accident but baked into the system of finance from the start Shadow Networks traces the complex web of power that caused crisis and gives vivid descriptions of the actors in the quarter century leading up to 2007 to explain how the now decade long crisis took shape Shadow Networks Financial Disorder and the System that Caused Crisis is a probing examination of the roles of the powerful elite It traces the networks and institutions that support a finance focused market centered model of economy and society from their ascendancy to their surprising resilience in the face of manifest failures
