People Scott M. Gelber, 2011-09-28 The University and the People chronicles the influence of Populism a powerful agrarian movement on public higher education in the late nineteenth century Revisiting this pivotal era in the history of the American state university Scott Gelber demonstrates that Populists expressed a surprising degree of enthusiasm for institutions of higher learning More fundamentally he argues that the mission of the state university as we understand it today evolved from a fractious but productive relationship between public demands and academic authority Populists attacked a variety of elites professionals executives scholars and seemed to confirm academia's fear of anti intellectual public oversight The movement's vision of the state university highlighted deep tensions in American attitudes toward meritocracy and expertise Yet Populists also promoted state supported higher education with the aims of educating the sons and sometimes daughters of ordinary citizens blurring status distinctions and promoting civic engagement Accessibility utilitarianism and public service were the bywords of Populist journalists legislators trustees and sympathetic professors These academic populists encouraged state universities to reckon with egalitarian perspectives on admissions financial aid curricula and research And despite their critiques of college ivory towers Populists supported the humanities and social sciences tolerated a degree of ideological dissent and lobbied for record breaking appropriations for state institutions **Yale Alumni Weekly**, 1914 **Addresses and Proceedings** New England Association of Colleges and Secondary Schools, 1892
