Prepositions And Complement Clauses A Syntactic And Semantic Study Of Verbs:

Prepositions and Complement Clauses Martti Juhani Rudanko, 1996-01-01 This book provides a pioneering and data oriented investigation of the syntax and semantics of important prepositional complementation patterns dependent on the prepositions in to at on with and of in current English The investigation is based on a sample of matrix verbs that governs the pattern of sentential complementation The data includes the Brown and LOB corpora English dictionaries and grammars and the intuitions of native speakers Rudanko sets up taxonomies of matrix verbs and argues that they often can be based on relatively few core classes He questions whether verbs selecting a pattern also select other patterns of sentential complementation Noting the quantity and quality of such alternation he observes how differences in form are linked to differences in meaning The study of relevant matrix verbs supplemented with discussion of alternation and other syntactic and semantic properties of the patterns points to the semantic functions that are associated typically with each pattern of complementation

Corpora and Complementation Martti Juhani Rudanko, 2000 Investigates the system of English predicate complementation over the last three centuries Chapters shed light on central parts of the system involving matrix nouns adjectives and verbs that select complement clauses Synchronic and diachronic corpora of the language serve as essential sources of data Three chapters examine variation between two types of complements introduced by the word to Other chapters deal with the into ing pattern adjectives from two semantic domains and sentential complements of negative verbs of avoiding failing and refraining Author information is not given Annotation copyrighted by Book News Inc Portland OR

Reclaiming Control as a Semantic and Pragmatic Phenomenon Patrick Duffley, 2014-10-15 This monograph is part of a growing research agenda in which semantics and pragmatics not only complement the grammar but replace it The analysis is based on the assumption that human language is not primarily about form but about form meaning pairings This runs counter to the autonomous syntax postulate underlying Landau 2013 s Control in Generative Grammar that form must be hived off from meaning and studied separately Duffley shows control to depend on meaning in combination with inferences based on the nature of the events expressed by the matrix and complement the matrix subject the semantic relation between matrix and complement and a number of other factors The conclusions call for a reconsideration of Ariel 2010 s distinction in Defining Pragmatics between semantics and pragmatics on the basis of cancelability many control readings are not cancelable although they are pragmatically inferred It is proposed that the line be drawn rather between what is linguistically expressed and what is not linguistically expressed but still communicated Infinitives and Gerunds in Recent English Juhani Rudanko, 2016-10-31 This book explores the grammar of to infinitives and gerundial ing clauses which is a central area at the interface of syntax and semantics against the background of what has been called the Great Complement Shift Over the course of six chapters the author explores the semantic properties of constructions where the general spread of gerundial ing clauses occurs at the expense of to infinitives The author draws on large electronic corpora

ensuring that new perspectives are opened on the basis of authentic corpus evidence He identifies trends of variation and change in the use of the two constructions and proposes The Choice Principle an innovative perspective on the semantics of to infinitives and gerundial ing complements This book will be of interest to researchers and students working on English grammar or the recent history of English grammar

Non-finite Complementation Thomas Egan, 2015-06-29 This book presents a comprehensive guide to the way speakers of British English use infinitive and ing clauses as verbal complements It contains details of the non finite complementation patterns of over 300 matrix verbs with a particular emphasis on verbs that occur with more than one type of non finite complement Drawing upon data from the British National Corpus the author shows that some of the views which are to be found in the existing literature on these sorts of clauses are in conflict with the evidence of actual usage He also shows that there is actually much more regularity in this area than has often been taken to be the case Moreover this regularity is shown to be motivated by cognitive functional factors An appendix contains details of the relative frequency of all of the constructions dealt with in the study together with an example of each of them The book is of interest to language teachers as well as linguists both theoretical and applied

Syntax Robert D. Van Valin (Jr.), Randy J. LaPolla, 1997-12-11 An introduction to syntactic theory and analysis

Educated Fiji English Lena Zipp, 2014-02-15 This volume contains a comprehensive corpus based study of prepositional constructions in written Fiji English It explores the endo and exonormative dynamics of norm giving and norm developing varieties and contributes to our understanding of structural nativization and variety formation in a multi ethnic setting The book provides an account of the sociolinguistic development of English in Fiji against the backdrop of the country s colonial and post independence history with special focus on the Indo Fijian part of the population Drawing on the written sections of the Indian Great Britain New Zealand and preliminary Fiji components of the International Corpus of English quantitative and qualitative analyses of prepositional phenomena are conducted on the word level frequency semantic effects and stylistic variation phrase level productivity in verb particle combinations and pattern level prepositions and ing clauses The book will be relevant to scholars interested in lexico grammar variety and corpus linguistics and sociolinguistics in general

Complements and Constructions Martti Juhani Rudanko, 2002 This brief study applies the notion of a construction to preposition complementation patterns in English and argues that Goldberg s formulation offers a helpful conceptual tool for analyzing prepositional patterns Particular attention is given to alternative object control structures and the changes transitive verbs and intransitive verbs have undergone over time Rudanko s credentials are not noted Annotation copyrighted by Book News Inc Portland OR

Change and Continuity in the English Language Martti Juhani Rudanko, 1998 While earlier treatments of English verb syntax from a diachronic perspective exist this book breaks entirely fresh ground with its focus on the detailed study of English predicate complementation over the past three centuries It draws data from an unprecedented combination of authoritative sources including computer corpora and H Poutsma s unpublished dictionary and offers novel systematizations

of predicates and discussions of alternation By giving ample evidence of both change and continuity in the language over the past three hundred years the book opens up a new research field in the study of the English language *Case Studies in Linguistic Pragmatics* Martti Juhani Rudanko, 2001 The six case studies presented here fall into three distinct groups They examine the application of speech act theory to Shakespearean drama consider 18th century Congressional debates from the perspective of fallacy theory in informal logic and focus more narrowly on applications of linguistic pragmatics Specific topics include types and functions of unpleasant verbal behavior in Shakespeare's *Coriolanus* and *Timon of Athens* promises and their contexts in *Coriolanus* efforts to block the Bill of Rights in 1789 collocational coloring and electronic corpora and contexts of phonologically null objects in object control structures in English and in Finnish c Book News Inc Using Corpora to Explore Linguistic Variation Randi Reppen, Susan M. Fitzmaurice, Douglas Biber, 2002-11-29 Using Corpora to Explore Linguistic Variation illustrates the ways in which linguistic variation can be explored through corpus based investigation Two major kinds of research questions are considered variation in the use of a particular linguistic feature and variation across dialects or registers Part 1 Exploring variation in the use of linguistic features focuses on the study of specific words expressions or grammatical constructions to study variation in the use of a particular linguistic feature Part 2 Exploring dialect and register variation describes salient characteristics of dialects or registers and the patterns of variation across varieties Part 3 Exploring Historical Variation applies these same two major perspectives to historical variation One recurring theme is the extent to which linguistic variation depends on register differences reflecting the importance of register as a key methodological and thematic concern in current corpus linguistic research **Patterns and Meanings of Intensifiers in Chinese Learner Corpora** Chunyan Wang, 2016-12-01 Intensification plays a major role in spoken and written interaction enabling the writer or speaker to express different levels of commitment This book explores the patterns and meanings of intensifiers in Chinese learner English by ways of comparison with native English The study is conducted within the theoretical framework of Firthian contextual theory of meaning Sinclairian model of Extended Units of Meaning EUM and Hunston's pattern grammar The method of contrastive inter language analysis CIA is adopted and the intensifier collocations in learner English and native English are explored by means of quantitative and qualitative analyses of corpora data This book is the first attempt to investigate the patterning and meaning features of intensifiers systematically with the corpora data in Chinese learner English Readers will obtain a relatively complete picture of how Chinese learners use intensifiers to realize their attitudinal meanings The English Gerund-participle Patrick J.
