**Prescriptive Psychotherapies Pergamon General Psychology Series Volume 55:**

**Prescriptive Psychotherapies** Arnold P. Goldstein, Norman Stein, 1976      **Cross-Cultural Counseling and Psychotherapy** Anthony J. Marsella, Paul B. Pedersen, 2013-10-22 Cross Cultural Counseling and Psychotherapy is a historical conceptual and applied resource for cross cultural counseling and psychotherapy This text is divided into four parts wherein the first part sets the foundations of the field by discussing its history issues status overview and ethnicity and interactional rules The second part evaluates the expectancy effects and process and outcome variables in cross cultural counseling and psychotherapy as well as drug and other therapies across cultures The subsequent part emphasizes the ethnocultural considerations featuring counseling African Americans Hispanic Americans Japanese Americans American Indians and Alaskan natives This book concludes by presenting the future perspectives of the field This book will be very invaluable to counselors psychotherapists psychologists and psychology students      **Behavioral Approaches to Community Psychology** Michael T. Nietzel, Richard A. Winett, Marian L. MacDonald, 2013-10-22 Behavioral Approaches to Community Psychology reviews and evaluates the extension of social learning procedures to various demanding community problems This book presents the applications of the behavioral paradigm for various social problems including alcoholism adult offenders aging unemployment drug addiction juvenile delinquency environmental protection psychiatric residence and problems of the schools Organized into 12 chapters this book begins with an overview of the development and patterning of human behavior This text then examines various research conducted in schools concerning behavioral approaches to educational problems Other chapters consider the increasing concern and debate for the problems of crime and delinquency This book discusses as well the concern of the society about opiate drug addiction and abuse The final chapter deals with the strengthened relation between behaviorists and community psychologists This book is a valuable resource for social psychologists and graduate students Applied researchers and practitioners in community health settings will also find this book useful      **Interpersonal Communication** Kurt Danziger, 2013-10-22 Interpersonal Communication emphasizes the significance of reciprocal influence processes in face to face interactions This book examines the various aspects of human interaction Organized into 10 chapters this book begins with an overview of the techniques that salesmen use to obtain compliance from customers This text then examines certain situations of deliberate interpersonal manipulation which reveals that internalized components of personal identity and self esteem are more vulnerable to face to face communication Other chapters consider the distinction between two basically different functions of human communications namely the functions of representation and of presentation This book discusses as well the forms of social address that provides interesting examples of how the presentational function of communication expresses itself by means of a linguistic medium The final chapter deals with the fundamental assumptions on which one's investigation depends This book is a valuable resource for psychologists and social psychologists Readers interested in the study of sociolinguistics will also find this book useful      **The Human**

**Subject in the Psychological Laboratory** I. Silverman, 2013-10-22 Written for anyone who does or plans to do behavioral research this book is based on the thesis that the psychological laboratory is a special place for people brought there as subjects Accordingly subjects act in ways that bear little relationship to their behaviours in the life situations to which psychologists seek to generalize their findings An analysis is given of the motives feelings and intentions common to people who assume the role of psychological subjects The ways in which their responses confound data and lead to spurious conclusions are described

**Buku Ajar: Psikologi Umum** Fredik Melkias Boiliu, M.Pd, 2025-09-12 Buku Ajar Psikologi Umum menyajikan dasar dasar ilmu psikologi secara komprehensif dan mudah dipahami Topik yang dibahas meliputi sejarah kognisi emosi motivasi kepribadian perkembangan pembelajaran persepsi hingga kesehatan mental Dilengkapi contoh studi kasus dan aplikasi nyata buku ini membantu mahasiswa tidak hanya memahami teori tetapi juga mengasah keterampilan berpikir psikologis yang relevan untuk kehidupan pribadi sosial dan profesional

Human Behavior and Public Policy Marshall H. Segall, 2013-10-22 Human Behavior and Public Policy A Political Psychology examines knowledge about human behavior and its application to public policy analysis It shows that the findings of psychological research provide information on how to better understand social problems and formulate and implement policies for the solution of such problems Organized into nine chapters the book first discusses how psychology can be used to shape society into a better home and then presents three models for political psychology The next chapters deal with intellectual capacities educability and prejudice and discrimination in different groups of people The book also explores violence and intergroup conflict resolutions and concludes with a proposal for a research design that serves as an example of political psychological planning Academic psychologists who teach interdisciplinary social sciences and courses concerned with public affairs will find this book invaluable

*Physical Disability and Human Behavior* James W. McDaniel, 2013-10-22 Physical Disability and Human Behavior Second Edition presents the theoretical foundations of disability and behavior This book is divided into seven chapters that address the developmental consequences of brain injuries This book covers the bases of attitudes toward the disabled emotional reactions to illness and disability adolescent development and personality depression and denial situational stresses of illness applicable perceptual theories family attitudes and relationships and studies in rheumatoid arthritis Other chapters consider the analysis of Parson s Social Role Theory and the attitudes of employers towards the disabled These topics are followed by discussions of the principles of somatopsychology and the social isolation and restricted mobility A chapter is devoted to the influence of emotional arousal in rehabilitation The concluding chapter focuses on the relation of physical changes to emotional behavior The book can provide useful information to psychologists therapists students and researchers

Applying the Assessment Center Method Joseph L. Moses, William C. Byham, 2013-10-22 Applying the Assessment Center Method presents the findings knowledge strategies and applications concerning the assessment center method This book describes the mechanics and operations of individual assessment centers Organized

into three parts encompassing 15 chapters this book begins with an overview of the assessment center method as a means of formally identifying potential This text then examines the various components which make an assessment center what it is including a series of characteristics to be measured a means of measurement and trained staff to administer and interpret the behaviors Other chapters consider the empirical base of validation This book discusses as well administrative cost of assessment centers The final chapter deals with the trends in assessment at the predictor and criterion end of the selection equation This book is a valuable resource for psychologists and managers Researchers involved in implementing assessment operations in their respective organization will also find this book extremely useful      **Pitfalls in Human Research**

Theodore Xenophon Barber,2013-10-22 Pitfalls in Human Research examines 10 ten pivotal points in human research where investigators and experimenters can go astray Two questions are addressed At what pivotal points in the complex research process can the experimental study go astray and give rise to misleading results and conclusions What steps can researchers take to avoid these pitfalls To answer these questions those aspects of experimental studies that are under the control of the investigator as well as those aspects that are under the control of the experimenter are examined This book begins by making a distinction between the investigator and the experimenter arguing that their roles are functionally quite different The discussion then turns to the 10 pitfalls in human research divided into investigator effects and experimenter effects investigator paradigm effect investigator experimental design effect investigator loose procedure effect investigator data analysis effect investigator fudging effect experimenter personal attributes effect experimenter failure to follow the procedure effect experimenter misrecording effect experimenter fudging effect and experimenter unintentional expectancy effect This monograph will be a useful resource for both investigators and experimenters as well as those who utilize research results in their teaching or practice      *Covert Conditioning* Dennis Upper,Joseph R. Cautela,2013-09-03 Covert

Conditioning deals with covert conditioning procedures the rationale underlying their use and their potential application either singly or in combination to a variety of clinical problems Each procedure s most representative use in clinical practice is described and results of experimental analogue studies as well as reports of promising breakthroughs in the application of covert conditioning techniques to new clinical problems are discussed A broad range of target behaviors clinical settings and client populations is also examined This book is comprised of 36 chapters and opens with an overview of the theoretical background of covert conditioning and evidence to support its basic underlying assumptions Each of the next six chapters introduces one of the major covert conditioning techniques covert sensitization covert reinforcement covert negative reinforcement covert extinction covert modeling and covert response cost and presents experimental analogue evidence if available of its efficacy The use of each procedure in treating a number of clinical target behaviors is also discussed The final section describes the clinical application of combinations of covert conditioning techniques to a variety of problems This monograph will be a useful resource for psychologists and behavioral therapists      **Artificial Paranoia** Kenneth Mark

Colby,2013-10-22 *Artificial Paranoia A Computer Simulation of Paranoid Processes* is a seven chapter book that begins by explaining the concept characteristics and theories of paranoia Subsequent chapters focus on the explanations models and symbol processing theory of the paranoid mode Another chapter explores language recognition processes for understanding dialogues in teletyped psychiatric interviews The last three chapters explore the central processes of the model validation and evaluation

*Approaches to Specific Problems* Joel Fischer,Harvey L. Gochros,2013-10-22 *Handbook of Behavior Therapy with Sexual Problems Volume II Approaches to Specific Problems* compiles case studies illustrating the use of techniques as they are applied to specific sexual problems This publication is divided into two parts Part I discusses approaches to the problems often encountered by men and women in heterosexual intercourse For men the two major areas included are problems with achieving or maintaining erections during sexual activities and problems associated with ejaculation The problem areas covered for women are problems in orgasmic functioning and problems of painful or difficult intercourse Part 2 elaborates sexual problems associated with undesired sexual object choices The homosexual fetishistic cross dressing exhibitionistic pedophilic sadomasochistic voyeuristic and miscellaneous behaviors are also covered This publication is a good reference for behaviorally oriented clinicians and practitioners who are attempting to alleviate the suffering associated with their clients sexual problems

*Ecological Assessment of Child Problem Behavior: A Clinical Package for Home, School, and Institutional Settings* Robert G. Wahler,Alvin E. House,Edward E. Stambaugh,2013-10-22 *Ecological Assessment of Child Problem Behavior A Clinical Package for Home School and Institutional Settings* discusses sampling methods to assess the problem child s behavioral interactions in the environment of the real world The book focuses on the following facets of ecological assessment 1 format of interview for the stage during the observational sampling procedures 2 use of an observational procedure by adult members of the child s natural community and 3 the employment of a standardized category coding system In general the book deals with devising a standardized category codes that will be used in direct observations of a clinical nature The book shows that investigators of various theoretical merits attempt to construct category systems to systematize coding behavior such as those of Heyns and Lippit 1954 of Baker and Wright 1955 or of McGrew 1972 The authors enumerate the category codes to describe different aspects of children s social environments and their common behaviors that result from these settings Behavioral scientists psychiatrists child psychologists students and professors in the sciences of human behavior particularly concerning children are encouraged to read this book

*General Procedures* Joel Fischer,Harvey L. Gochros,2013-10-22 *General Procedures* deals with behavior change procedures for diverse target behaviors It aims to provide behavioral therapists with effective system of procedures for implementation with their clients who suffer from sexual problems Its emphasis is on intervention rather the etiology of sexual problems and it describes all major techniques for dealing with sexual problems developed by behaviorists This book is organized into two volumes Volume I focuses on specific behavioral techniques developed or adapted for use with sexual

problems It also describes these techniques and indications for their use Volume II covers the range of sexual problems to which behavior therapy procedures have been applied Each volume is organized into two parts the first part dealing with techniques and problems involved in heterosexual couple relationships and the second part dealing with techniques and problems involved in undesired sexual object choices This book will be of interest to persons dealing with studies on behavior therapy and those interested in understanding procedures and techniques for the treatment of sexual problems     Program Evaluation in Social Research Jonathan A. Morell,2016-06-06 Program Evaluation in Social Research presents a plan for developing evaluation into a form of applied social research that is methodologically sound relevant to the problems of society and built on a technological as opposed to a scientific model Evaluation as applied relevant social research and as social technology is described along with its validity and usefulness This book is comprised of eight chapters and opens with a discussion on the consequences of program evaluation for the conduct of social research and for society at large and how evaluation can be made into a method of generating practical and powerful suggestions for planning successful social programs The concept of outcome evaluation is also organized into meaningful categories which can be used for the intelligent planning of appropriate evaluation activities The following chapters consider the types of evaluation that are carried out the relative merits of each type and how to optimize the validity and utility of each type Evaluation as a technological rather than a scientific pursuit is also discussed The remaining chapters focus on the frictions that arise during the implementation of program evaluation program evaluation as a profession and how evaluation can be developed into a relevant and powerful method of guiding the course of social innovations This monograph will appeal to sociologists social scientists and social researchers     Towards the Elimination of Racism Phyllis A. Katz,2013-10-22 Towards the Elimination of Racism reviews the information gained from previous studies that tackle racist attitudes and examines the possible direction of future research that tackle racism The main emphasis of the selection is on finding ways to change negative racial attitudes The book first details the trends of research in racial prejudice and then proceeds to discussing the theories of prejudice acquisition and reduction Next the title reviews several studies that deal with attitude and behavior change In the last part the text tackles the role of various institutions in addressing the problem of racism The book will be of great use to researchers and practitioners of behavioral science and its related disciplines such as sociology anthropology and philosophy     **Growing Up to Be Violent** Monroe M. Lefkowitz,Leonard D. Eron,Leopold O. Walder,2013-10-22 Growing Up to be Violent A Longitudinal Study of the Development of Aggression deals with the study of psychosocial development concerning aggressive behavior in third grade schoolchildren and their upbringing The design of the study is longitudinal a follow up research has been made when the children reached the twelfth grade The book explains that certain child rearing practices and some environmental factors can be predictors of aggressive behavior during young adulthood The text also reviews the various theories of aggression including the theory of innate aggressiveness and the social learning of aggression

The book discusses the roots of aggression the four classes of environmental variables instigators punishment identification sociocultural variables as well as sex differences and perinatal complications in aggression The book addresses the effects of television in the development of aggressive behavior that television can incite aggression and present certain ways of practicing aggressiveness The book points that young adults who were intelligent popular and polite as young children have positive social position as young adults This book can prove insightful for psychiatrists psychologists behavioral scientists child educators students or professors in psychology and for parents of young children

### **Humanism and Behaviorism**

Abraham Wandersman, Paul J. Poppen, David F. Ricks, 2016-06-06 Humanism and Behaviorism Dialogue and Growth explores issues in humanistic and behavioristic approaches to personality change It seeks to demonstrate the value of a dialogue between humanism and behaviorism clarify controversies between the two approaches evaluate the strengths and weaknesses of each approach and show the potential of syntheses between parts of each approach to develop new and useful integrations This book is comprised of 20 chapters and begins with an overview of the state of humanism and behaviorism and the controversies that have divided them along with the possible frameworks for combining the two The next section focuses on the person techniques of therapy and therapist control Behavior therapy as a humanitarian enterprise is considered Subsequent chapters assess the effectiveness of humanistic and behavioristic approaches to personality change and the compatibilities between them The theory of affective behaviorism and its application to effectively teach children with behavior problems to develop self control is described Self and personality are also discussed from humanistic and behavioristic viewpoints Finally some possible directions for the future of humanism and behaviorism are suggested This monograph should be useful to undergraduate and graduate students in clinical and personality psychology to those who intend to do research in and or practice psychotherapy and to academicians and professionals in psychology philosophy psychiatry social work and counseling

*Experimental Methods for Social Policy Research* George W. Fairweather, Louis G. Tornatzky, 2013-10-22 Experimental Methods for Social Policy Research explains how experimental methods can be used in social policy research to help solve contemporary human problems and to preserve and improve the world's physical and social climates This book argues that scientists can make a major contribution to the solution of social problems by aiding the society in incorporating scientific methods into the social decision making process Two principal methods required for solving social problems are highlighted methods for evaluating social models aimed at solving particular problems and methods for disseminating those models that are beneficial to the state the region and the nation This book is comprised of 14 chapters and begins with the argument that contemporary social policy decision making is inadequate for the late 20th and 21st centuries It then defines the basic ingredients for an adequate social policy decision making apparatus and explains how it can be accomplished The next chapter outlines the basic parameters of social models and dissemination processes from a conceptual point of view The remaining chapters describe general experimental procedures from the inception of the

ideas to the implementation of social models found to be beneficial The final chapter is reserved for a discussion of a proposed center for experimental social innovation that would provide research and training This monograph will be a valuable resource for social scientists and researchers as well as social policymakers public officials and citizens who are committed to the improvement of living conditions for all members of society
