## **Presence Of The Past:**

**The Presence of the Past** Roy Rosenzweig, David Paul Thelen, 1998 Rosenzweig and Thelen analyze results from a unique and comprehensive survey in which they polled 1 500 Americans about their connection to the past and its continuing influence on their present as well as their hopes for the future *The Presence of the Past* Valerie Krips, 2002-09-11 The presence of the Past studies the interaction of heritage and fiction written for children over a 40 year period in Britain exploring a range of works for children from *The Tale of Peter Rabbit* to *I Spy* **The Presence of the Past** Rupert Sheldrake, 2011-07-01 Rupert Sheldrake's theory of morphic resonance challenges the fundamental assumptions of modern science A world famous biologist Sheldrake proposes that all self organizing systems from crystals to human societies inherit a collective memory that influences their form and behaviour Rather than being ruled by fixed laws nature is essentially habitual All human beings draw upon a collective human memory and in turn contribute to it Even individual memory depends on morphic resonance rather than on physical memory traces stored within the brain Morphic resonance works through morphic fields which organize the bodies of plants and animals coordinate the activities of brains and underlie mental activity Minds are extended beyond brains both in space and time This fully revised and updated edition of *The Presence of the Past* summarizes the evidence for Dr Sheldrake's controversial theory reviews new research and explores its implications for biology chemistry physics psychology and sociology In place of the mechanistic worldview that has dominated biology since the nineteenth century this book offers a revolutionary alternative and opens up a new understanding of life minds and evolution **The Powerful Presence of the Past** Jacqueline Knörr, Wilson Trajano Filho, 2010-10-15 This book conceptualizes integration and conflict as interrelated dimensions of social interaction social relationships and alliances identifications and identity constructions within society at large In order to reach an in depth understanding of integrative and violent forms of interaction in the region of the Upper Guinea Coast authors take into account the impact and repercussions of specific historical experiences as well as the continuities and changes of social patterns affected by the interaction of local and globalized values institutions and models of social organization Rather than providing an other analysis of wars and violence as such contributors aim at a better understanding of the social mechanisms that affect both the processes of integration and conflict at the local national and regional levels **The Presence of the Past** Daniel Bishop, 2021 *The Presence of the Past* offers a new perspective on Hollywood's New Wave as engaged with the vitality of sensory experience and the affective imagination As author Daniel Bishop shows the soundtracks of several key films of the New Hollywood Cinema of the late 1960s and 70s cultivated an array of sensibilities regarding the American past This importance of the past exceeded the New Hollywood's acknowledged use of genre revisionism as a vehicle for timely ideological commentary There was also a vital tendency in this era to locate the past as an object of imagined phenomenal presence Although this concept of the past never solidified into a self conscious discourse it was nevertheless woven into film

culture readable between the lines of criticism cultural reception New Wave aesthetics and in the aesthetic and industrial transformations of sound design and film music Bonnie and Clyde 1967 Butch Cassidy and the Sundance Kid 1969 McCabe and Mrs Miller 1971 The Last Picture Show 1971 American Graffiti 1973 Chinatown 1974 and Badlands 1973 are not only key texts of an exciting era in American popular cinema They are also mediations upon the presence of the past an image central to the polarities of visceral energy and ambiguous ephemerality of utopian dreams and melancholy resignation that characterized this cinema These sensibilities of pastness engage in diverse ways with myth nostalgia paranoia and existential alienation They are however also united by a concern both with the experiential actuality of the past and with the distances that inevitably separate us from this actuality

**The Presence of the Past** Roy Rosenzweig, David Thelen, 1998-11-05  
Some people make photo albums collect antiques or visit historic battlefields Others keep diaries plan annual family gatherings or stitch together patchwork quilts in a tradition learned from grandparents Each of us has ways of communing with the past and our reasons for doing so are as varied as our memories In a sweeping survey Roy Rosenzweig and David Thelen asked 1 500 Americans about their connection to the past and how it influences their daily lives and hopes for the future The result is a surprisingly candid series of conversations and reflections on how the past infuses the present with meaning Rosenzweig and Thelen found that people assemble their experiences into narratives that allow them to make sense of their personal histories set priorities project what might happen next and try to shape the future By using these narratives to mark change and create continuity people chart the courses of their lives A young woman from Ohio speaks of giving birth to her first child which caused her to reflect upon her parents and the ways that their example would help her to become a good mother An African American man from Georgia tells how he and his wife were drawn to each other by their shared experiences and lessons learned from growing up in the South in the 1950s Others reveal how they personalize historical events as in the case of a Massachusetts woman who traces much of her guarded attitude toward life to witnessing the assassination of John F Kennedy on television when she was a child While the past is omnipresent to Americans history as it is usually defined in textbooks leaves many people cold Rosenzweig and Thelen found that history as taught in school does not inspire a strong connection to the past And they reveal how race and ethnicity affects how Americans perceive the past while most white Americans tend to think of it as something personal African Americans and American Indians are more likely to think in terms of broadly shared experiences like slavery the Civil Rights Movement and the violation of Indian treaties Rosenzweig and Thelen's conclusions about the ways people use their personal family and national stories have profound implications for anyone involved in researching or presenting history as well as for all those who struggle to engage with the past in a meaningful way

**In the Presence of the Past** R.T. Bienvenu, M. Feingold, 2013-03-11 The broad canvas covered by the articles in the present volume celebrates the diversity and richness of the writings of Frank Manuel during a scholarly career that spans over five decades The subjects of the articles ranging from science to utopia from theology to

political thought mirror many of the themes Manuel has written about with erudition flair and uncommon perception It is only fitting that in paying tribute to such a defiant intellect each author brings to his treatment a distinct perspective and texture the result of his own original forays into the history of ideas Yet underlying all the essays is the conviction that the study of the intersection of individuals and ideas still yields a rich harvest Presented to Frank on the occasion of his eightieth birthday In the Presence of the Past honors a teacher a friend and above all a scholar R T Bienvenu and M Feingold eds In the presence of the past vii MARTIN PERETZ Frank Manuel An Appreciation It was finally because of Frank Edward Manuel that I decided however belatedly to forgo a proper academic career Since I had not left so much as a leafscar on the tree of the scholarly culture this is not a fact which anyone else would have reason to notice It is also not I am happy to add something for which Manuel will be especially remembered

*Piranesi's Candelabra and the Presence of the Past* Caroline van Eck, 2023-01-17 Near the end of his life Giovanni Battista Piranesi 1720-78 created three colossal candelabra mainly from fragments of sculpture excavated near the Villa Hadriana in Tivoli two of which are now in the Ashmolean Museum and one in the Louvre Although they were among the most sought after and prestigious of his works and fetched enormous prices during Piranesi's life they suffered a steep decline in appreciation from the 1820s onwards and even today they are among the least studied of his works Piranesi's Candelabra and the Presence of the Past uncovers the intense investment by artists patrons collectors and the public around the start of the nineteenth century in objects that made Graeco Roman Antiquity present again Caroline van Eck's study examines how objects make their makers or viewers feel that they are again in the presence of Antiquity that not only Antiquity has revived but that classical statues become alive under their gaze what it takes to make such objects and what it costs to own them and about the ramifications of such intense if not excessive attachments to artefacts This book considers the three candelabra in depth providing the biography of these objects from the excavation of the Roman fragments to their entry into private and public collection Van Eck considers the context that Piranesi gave them by including them in his *Vasi Candelabri e Cippi* 1778 to rethink the processes that led to the development of neoclassicism from the perspective of the objects and objectscaes that came into being in Rome at the end of the eighteenth century
