Fifty Years of Counselling - My Presenting Past Michael Jacobs, 2018-01-16 Michael Jacobs is a pioneer in the development of psychodynamic counselling While his writing is praised for its lucidity in explaining difficult concepts and as well illustrated with case examples from his own work he has rarely said much about his own history as a psychodynamic psychotherapist and counsellor In this personal account concerned mainly with both his professional life as a therapist writer and teacher and with the developments of counselling generally in Britain in which he has played a major part Jacobs presents his own past It is one that surprisingly for so experienced a therapist started with no formal training but which has gone on to be an influence on the training of hundreds of counsellors and therapists Jacobs traces the development of BACP and UKCP and his part in the formation of both organizations the development of training in counselling in Britain much of

which with regard to psychodynamic counselling was pioneered by him and finally his writing and teaching career The book concludes with a critique of the present state of counselling and psychotherapy in Britain today *Metaphysics* Michael J. Loux,2001 *Metaphysics Contemporary Readings* is a comprehensive anthology that draws together leading philosophers writing on the major themes in *Metaphysics* Chapter sections cover Universals Particulars Modality and Possible Worlds Causation Time and Realism and Anti Realism The readings are designed to complement Michael Loux s*Metaphysics A Contemporary Introduction* 2nd Edition *An introduction to English grammar, on universal principles* Hugh DOHERTY (Miscellaneous Writer.),1841 *Point of View and Grammar* Joanne Scheibman,2002-01-01 This book proposes that subjective expression shapes grammatical and lexical patterning in American English conversation Analyses of structural and functional properties of English conversational utterances indicate that the most frequent combinations of subject tense and verb type are those that are used by speakers to personalize their contributions not to present unmediated descriptions of the world These findings are informed by current research and practices in linguistics which argue that the emergence or conventionalization of linguistic structure is related to the frequency with which speakers use expressions in discourse The use of conversational data in grammatical analysis illustrates the local and contingent nature of grammar in use and also raises theoretical questions concerning the coherence of linguistic categories the viability of maintaining a distinction between semantic and pragmatic meaning in analytical practice and the structural and social interplay of speaker point of view and participant interaction in discourse *Gilles Deleuze's Difference and Repetition* James Williams,2013-01-15 A revised expanded and fully up to date critical introduction to Deleuze s most important work of philosophy By critically analysing Deleuze s methods principles and arguments James Williams helps readers to engage with the revolutionary core of Deleuze s philosophy and take up positions for or against its most innovative and controversial ideas *The Grammar of English Grammars, with an Introduction, Historical and Critical ...* Gould Brown,1851 *Understanding Prayer for the Dead* James B. Gould,2016-08-04 Throughout history Christians have prayed for the dead both for continual growth of the faithful and for their advancement from purgatory though not for the deliverance of the unsaved from hell This book defends all three kinds of prayer It challenges Protestants who seldom pray for the dead to begin doing so and Roman Catholics and Eastern Orthodox who pray only for the Christian dead to include the unsaved as well James Gould addresses the biblical credentials of prayer for the dead and provides a historical overview of such prayers from ancient Christianity to the current practice of the three main branches of the church He also discusses the logical assumptions prayer for the dead requires that prayer is effective that the dead are conscious and that the afterlife involves change and lays out a theological framework for such prayers Prayer for the departed raises the most basic of theological questions matters that go to the center of God s purpose in creating spiritual beings and redeeming sinful humankind The argument while revisionary in some respects is orthodox ecumenical and integrative engaging a range of academic disciplines so as to be biblically accurate historically
