Presenting Unexpected Outcomes Paperback:

Zimbabwe Will Never be a Colony Again! Mararike, Munoda, 2019-06-25 This is a thought provoking original book based on a wealth of empirical case studies of how Zimbabwe experienced illegal economic sanctions It is a study of how the humanly constructed obstructions from external remittances finance flows into the country to finance embargos or total financial blockages are deliberately created by so called powerful governments to deal with an errand country The infamous Zimbabwe Democracy Economic Recovery Act of 2001 ZDERA is part of a raft of punitive measures and discourses that the USA UK and Europe used to make the economy in the words of US s Chester Crocker scream It is the same powerful countries who allow their Multinational Corporations to loot while they impose sanctions against African governments and their peoples to make them scream The book is an insightful contribution on Africa s contemporary post colonial liberation politics of development economics It focuses on Zimbabwe as a synthesis of microcosmic study that provides accessible in depth analysis of key aspects of sanctions as a weapon of control wielded by the so called powerful governments of the Global North Zimbabwe was clobbered with post independence economic sanctions after its land reform programme which benefitted its mostly colonially dispossessed African citizens The land reform was intended as a reversal of colonial injustice and a counter restitutive measure against imperialism The book invites the reader to see power differently as compassion and the capacity to right past wrongs by protecting all and sundry from inequality and poverty Sanctions even when called targeted are non discriminatory as they affect ordinary citizens with the same ferocity and savagery as against intended target albeit often missing the target Sanctions are lethal Sanctions are a graveyard for the poor weak and vulnerable This is an idea of power that the Global North failed to grasp when they decided to punish the Mugabe government for daring to contemplate justice and restitution

Near Misses in Pulmonary and Cardiothoracic Critical Care Joseph Varon, Garrett L. Walsh, Robert E. Education as Gift Damian Ruth, 2024-04-22 Education is about human flourishing and explores meaning purpose and values As a holistic and integral practice for developing sustained attention and concentration education is profoundly antithetical to the market and it is not a technological domain The combination of markets and technology in the pursuit of efficiency destroys the potential of education to help societies nurture well being This book dives deeply into the overlapping crises of education today The author draws on decades of experience and many disciplines to celebrate the spirit of education and to frame it as a gift

Allen, Roy M. MacLeod, 2013-03-14 To earn a degree every doctoral candidate should go out to Harvard Square find an audience and explain his or her dissertation Everett Mendelsohn's worldly advice to successive generations of students whether apocryphal or real has for over forty years spoken both to the essence of his scholarship and to the role of the scholar Possibly no one has done more to establish the history of the life sciences as a recognized university discipline in the United States and to inspire a critical concern for the ways in which science and technology operate as central features of Western society This book is both an act of homage and of commemoration to Professor Mendelsohn on his 70th birthday As befits its subject the work it presents is original comparative wide ranging and new Since 1960 Everett Mendelsohn has been identified with Harvard University and with its Department of the History of Science Those that know him as a teacher will also know him as a scholar In 1968 he began and after 30 years has just bequeathed to others the editorship of the Journal of the History of Biology among the earliest and one of the most important publications in its field At the same time he has been a pioneer in the social history and sociology of science He has formed particularly close working relationships with colleagues in Sweden and Germany as witnessed by his editorial presence in the Sociology of Science Yearbook Culture and Negotiation Guy Olivier Faure, Guy Faure, Jeffrey Z. Rubin, 1993-09-28 Culture and Negotiation was the outcome of cooperation between UNESCO and IIASA The cultural factors bearing on international negotiations are a topic of importance not least in the environmental field The book's strength is its combination of a lucid and comprehensive discussion of issues and concepts with a series of case studies concerning specific rivers and the people who live and produce on their banks and tributaries The result throws interesting light on the cultural parameters of human

agreement and discord and offers useful practical pointers for the art of negotiation *Life Sciences* Amy Bain, Janet Richer, Janet Weckman, 2001-05-15 Everything you need to create exciting thematic science units can be found in these handy guides Developed for educators who want to take an integrated approach these teaching kits contain resource lists reading selections and activities that can be easily pulled together for units on virtually any science topic Arranged by subject each book lists key scientific concepts for primary intermediate and upper level learners and links them to specific chapters where resources for teaching those concepts appear Chapters identify and describe comprehensive teaching resources nonfiction and related fiction reading selections then detail hands on science and extension activities that help students learn the scientific method and build learning across the curriculum A final section helps you locate helpful experiment books and appropriate journals Web sites agencies and related organizations Resources in Education ,2001-10 **Storyworlds**

Across Media Marie-Laure Ryan, Jan-Noël Thon, 2014-07-01 The proliferation of media and their ever increasing role in our daily life has produced a strong sense that understanding media everything from oral storytelling literary narrative newspapers and comics to radio film TV and video games is key to understanding the dynamics of culture and society Storyworlds across Media explores how media old and new give birth to various types of storyworlds and provide different ways of experiencing them inviting readers to join an ongoing theoretical conversation focused on the question how can narratology achieve media consciousness The first part of the volume critically assesses the cross and transmedial validity of narratological concepts such as storyworld narrator representation of subjectivity and fictionality The second part deals with issues of multimodality and intermediality across media The third part explores the relation between media convergence and transmedial storyworlds examining emergent forms of storytelling based on multiple media platforms Taken together these essays build the foundation for a media conscious narratology that acknowledges both similarities and differences in the ways media narrate *Music in the Old Bones* Janet Howe Gaines, 1999 Music in the Old Bones is a guide to the eternal Jezebel story The first part of this illustrated study is a detailed analysis that explores the biblical tale from traditional and feminist points of view Gaines then analyzes the ways authors through the centuries have treated Jezebel **BOOK JACKET**
