## **President The Congress And The Constitution Power And Legitimacy In American Politics:**

The President, Congress, and the Constitution Christopher H. Pyle, Richard M. Pious, 1984 Examines constitutional principles and their effects      **The Oxford Handbook of the American Presidency** George C. Edwards, William G. Howell, 2011-08-04 With engaging new contributions from major figures in the field The Oxford Handbook of the American Presidency provides the key point of reference for anyone working in American politics today      **The Supreme Court and the Presidency** Julie Novkov, 2013-03-12 The Supreme Court and the Presidency Struggles for Supremacy This newest edition to The Supreme Court's Power in American Politics series explores and analyzes the dynamic alliances and tensions between the nation's chief executive and the Court over time Through primary source and other documents and insightful narratives this work discusses appointments prerogative governance and the role of time and regimes in the complex scheme of checks and balances Featured topics include Major theories of constitutional interpretation and their application to the exercise of executive power The political dynamics in the relationship between the three branches of federal government The evolution of executive authority and the struggle over the legislative veto Precedents for treaty making and executive agreements with foreign governments Executive and legislative relations and powers in times of war and national emergency particularly after 9 11 The president's authority as commander in chief Historical controversies of executive privilege and censure and impeachment Executive authority to issue pardons Appendix with comparative data about conventional and Court periodization      The Powers of the Presidency , 2013 This is a comprehensive and illustrative work on the historical and contemporary perspective on presidential powers guiding readers through the presidency as a constitutional office with many updated features from the previous edition      **Guide to the Presidency and the Executive Branch** Michael Nelson, 2012-08-13 This comprehensive two volume guide is the definitive source for researchers seeking an understanding of those who have occupied the White House and on the institution of the U S presidency Readers turn Guide to the Presidency and the Executive Branch for its wealth of facts and analytical chapters that explain the structure powers and operations of the office and the president's relationship with Congress and the Supreme Court The fifth edition of this acclaimed reference completes coverage of the George W Bush presidency the 2008 election and the first 3 years of the presidency of Barack Obama This includes coverage of their handling of the economic crisis wars abroad and Obama's healthcare initiatives The work is divided into eight distinct subject areas covering every aspect of the U S presidency and all chapters in each subject area have been revised and updated Origins and Development of the Presidency including constitutional beginnings history of the presidency and vice presidency and presidential ratings Selection and Removal of the President including the electoral process a chronology of presidential elections removal of the president and vice president and succession Powers of the Presidency including the unilateral powers of the presidency and those as chief of state chief administrator legislative leader commander in chief and chief economist The President the Public and the Parties including

presidential appearances the president and political parties the president and the news media the presidency and pop culture public support and opinion and the president and interest groups The Presidency and the Executive Branch including the White House Office the Office of the Vice President supporting organizations the cabinet and executive departments presidential commissions and executive branch housing pay and perquisites Chief Executive and Federal Government including the president and Congress the president and the Supreme Court and the president and the bureaucracy Presidents their Families and Life in the White House and Beyond including the daily life of the president the first lady the first family friends of presidents and life after the presidency Biographies of the Presidents Vice Presidents First Ladies This new volume also features more than 200 textboxes tables and figures Major revisions cover the supporting White House organizations and the president's role as chief economist Additional reference materials include explanatory headnotes as well as hundreds of photographs with detailed captions

**The Silence of Constitutions (Routledge Revivals)** Michael Foley, 2013-01-11 First published in 1989 Michael's Foley's book deals with the abeyances present in both written and unwritten constitutions arguing that these gaps in the explicitness of a constitution and the various ways they are preserved provide the means by which constitutional conflict is continually postponed Abeyances are valuable therefore not in spite of their obscurity but because of it *I Do Solemnly Swear* Matthew A. Pauley, 1999 *I Do Solemnly Swear* is an in depth analysis of the meaning and importance of U S President's oath of office The oath requires the President to preserve protect and defend the Union by any means and then transmit it unimpaired to his successor Pauley examines the potential political and legal ramifications of such an oath and its role as a source of presidential power Beginning with a survey of the history of oaths from the classical world to the modern era Pauley analyzes the President's oath within the context of American political and constitutional development Those with scholarly interests in government politics or law will find this work enlightening

**The American Presidency** Forrest McDonald, 1994 McDonald explores how and why the presidency has evolved into such a complex and powerful institution unlike any other in the world He chronicles the presidency's creation implementation and evolution and explains why it's still working today despite its many perceived afflictions

Constitutional Dysfunction on Trial Jasmine Farrier, 2019-12-15 In an original assessment of all three branches Jasmine Farrier reveals a new way in which the American federal system is broken Turning away from the partisan narratives of everyday politics *Constitutional Dysfunction on Trial* diagnoses the deeper and bipartisan nature of imbalance of power that undermines public deliberation and accountability especially on war powers By focusing on the lawsuits brought by Congressional members that challenge presidential unilateralism Farrier provides a new diagnostic lens on the permanent institutional problems that have undermined the separation of powers system in the last five decades across a diverse array of partisan and policy landscapes As each chapter demonstrates member lawsuits are an outlet for frustrated members of both parties who cannot get their House and Senate colleagues to confront overweening presidential action through normal

legislative processes But these lawsuits often backfire leaving Congress as an institution even more disadvantaged Jasmine Farrier argues these suits are more symptoms of constitutional dysfunction than the cure Constitutional Dysfunction on Trial shows federal judges will not and cannot restore the separation of powers system alone Fifty years of congressional atrophy cannot be reversed in court **Gerald Ford and the Separation of Powers** Alex E. Hindman, 2017-02-03 The

constitutional presidency is the crown jewel of the separation of powers in the American system Designed in 1787 the office was structured to weather a wide variety of political circumstances accommodate broad ranges of personalities in its incumbents and educate officeholders to become better presidents Nowhere are these three effects clearer than during the brief unelected tenure of President Gerald Ford because he occupied the presidency amid tremendous strains on the country and the separation of powers After the dual traumas of Watergate and Vietnam the public was profoundly skeptical of government in general and the presidency in particular As a result the post Watergate Congress claimed the mantle of public support and proposed reforms that could have crippled the presidency s constitutional powers Weakened by the Nixon pardon Ford stood alone in this environment without many of the informal political strengths associated with the modern presidency As a result he had to rely in large measure on the formal powers of his constitutional office Based on archival research this book shows that Ford s presidency placed the Constitution at the center of his time in office The constitutional presidency allowed him to preserve his own political life his presidential office and the separation of powers amid a turbulent chapter in American history **Laws, Men and Machines (Routledge Revivals)** Michael Foley, 2014-02-04 First published

in 1990 Laws Men and Machines is an original interpretation of the lasting influence that Newtonian mechanics has had on the design and operation of the American political system The author argues that it is this mechanistic tradition that now instinctively shapes the way we conceive of analyse and evaluate American politics and that the Newtonian conception of the world still finds expression in the checks and balances of the American system New Directions in American Politics

Raymond J. La Raja, 2013-02-15 New Directions in American Politics introduces students not just to how the American political system works but also to how political science works La Raja brings together top scholars to write original essays across the standard curriculum of American government and politics capturing emerging research in the discipline in a way that is accessible for undergraduates Each chapter combines substantive knowledge with the kind of skill building and analytical inquiry that is being touted in higher education everywhere Contributors to New Directions highlight why the questions they seek to answer are critical for understanding American politics and situate them in the broader context of controversies in research The teaching of American politics follows a well worn path Textbooks for introductory courses hew to a traditional set of chapters that describe the Founding American institutions the ways citizens participate in politics and sometimes public policy The material rarely engages students in the kind of questions that animate scholarship on politics One hurdle for instructors is finding material that reflects quality scholarship and thus teaches students about why not just

what and yet is accessible for undergraduates Articles in scholarly journals are typically unsuited for undergraduate courses particularly introductory courses What is needed is a book that conveys exciting trends in scholarship across vital topics in American politics and illustrates analytical thinking New Directions in American Politics is that book and will be an ideal companion to standard textbooks that focus mostly on nuts and bolts of politics The book features Contributions from a top notch cast of active scholars and a highly regarded editor A focus on analytical thinking that addresses questions of causality Full coverage of the American politics curriculum Short interviews with each contributor on a companion website to help the research come alive and prompt critical thinking questions for students Work that draws on the highest quality research in political science but is written specifically for first year undergraduate students There is simply no book like this available to the growing number of faculty who want their introductory American politics course to be a reflection of the political science discipline and not just the nuts and bolt facts of the American political system

**The American Presidency** Sidney M. Milkis, Michael Nelson, 2019-01-24 The American Presidency examines the constitutional foundation of the executive office and the social economic political and international forces that have reshaped it Authors Sidney M Milkis and Michael Nelson broadly examine the influence of each president focusing on how these leaders have sought to navigate the complex and ever changing terrain of the executive office and revealing the major developments that launched the modern presidency at the dawn of the twentieth century By connecting presidential conduct to the defining eras of American history and the larger context of politics and government in the United States this award winning book offers vital perspective and insight on the limitations and possibilities of presidential power The Eighth Edition examines recent events and developments including the latter part of the Obama presidency the 2016 election the first twenty months of the Trump presidency and updated coverage of issues involving race and the presidency

**The Presidency of the United States** Richard M. Pious, 2001 The Presidency of the United States is an illustrated A to Z guide to the U S Presidency including biographical sketches of each President and Vice President along with articles on presidential powers presidential history theories about the presidency presidential elections advisors and agencies and information about the daily workings of the White House The second edition is completely revised up to March 2001 with new Biographies of George W Bush and Dick Cheney and completely updated biographies of Bill Clinton and Al Gore There are also new general articles on African Americans Hispanic Americans and Women in the Executive branch and existing articles have been fine tuned to include memorable events of the 7 years since publication of the first edition of this book Illustrations include portraits cartoons and Presidential memorabilia Articles are cross referenced with suggestions for further reading listed at the end of each article as well as at the end of the book Websites are now provided in the updated appendix of Presidential Libraries and Museums

**US Foreign Policy in Action** Jeffrey S. Lantis, 2012-10-25 This innovative teaching text on United States foreign policy interprets the foreign policy decision making process through the lens of political debate and exchange It introduces historical developments and theories

of U S foreign policy and engages students in the politics of the foreign policy process through innovative learning exercises Features critical analysis of contemporary trends in U S foreign policy including debates in the Obama administration foreign policy and the 2012 presidential election and reaction to the Arab Spring Written by an award winning teacher scholar in international relations with extensive experience in both policy making and pedagogy Views foreign policy decision making through the lens of political debate Offers fresh perspectives on historical developments as well as surveying prominent foreign policy theories Includes new and innovative participatory learning exercises exploring a range of themes including executive legislature conflict Contains extensive teaching and learning applications including discussion questions document templates worksheets suggested readings and links to web resources throughout

**War and the Rogue Presidency** Ivan Eland, 2018-12-01 In *War and the Rogue Presidency* Ivan Eland shows that almost immediately after the nation's founding starting with the first presidency of George Washington the executive's role in defense and foreign policy began expanding past what the framers of the Constitution had envisioned The Constitution enshrined Congress as the dominant branch of government giving Congress not the President most of the powers in defense and foreign policy This comprehensive book shows how the presidential aggrandizement of greater powers has only been possible because of congressional abdication However this expansion of the executive's role was still relatively contained until the Cold War when undeclared permanent war became ongoing policy and then the post 9 11 war on terror dramatically expanded the President's role Such expansion has had deleterious effects on U S foreign policy abroad as well as a major erosion of the republic's security at home and the liberties of American citizens *War and the Rogue Presidency* is an in depth examination of the history of the congressional executive tug of war over U S security policy and why reclaiming constitutional standards is essential to restore both an effective national defense and civil and economic liberties To get Congress to do that Dr Eland presents ways in which internal congressional incentives could be changed to provide motivation for legislative pushback As a result the book suggests important actions Congress could take for such a pushback along with other reforms that would effectively rein in the rogue presidency

**American Government and Politics** Fenton S. Martin, Robert Goehlert, 1997 A unique new bibliography that helps teachers and students particularly at the high school level find information about government topics The selected books reflect a variety of scholastic levels but avoid works that are beyond the level of most high school students or works that rely heavily on statistical methods The entries are organized in a classified arrangement by topics that appear in most high school government textbooks Each entry lists the title author year of publication page count and publisher and also provides a brief description of the book

**The Presidency in the Twenty-First Century** Charles W. Dunn, 2011-08-26 These essays by political scientists provide an effective snapshot of where the presidency appears to be heading in the 21st century thoughtful insights Choice Magazine The US president is under constant scrutiny from both colleagues and the American people Questions about the proper role of the president have been especially prevalent in

recent decades This book explores the growth of presidential power investigating its social political and economic impact on America s present and future Editor Charles W Dunn and a team of the nation s leading political scientists examine a variety of topics from the link between campaigning and governing to trends in presidential communication with the public The book discusses the role of the presidency in a government designed to require cooperation with Congress and how this relationship is further complicated by the expectations of the public Several contributors take a closer look at the Obama administration in light of President George W Bush s emphasis on the unitary executive a governing style that continues to be highly controversial Dunn and his contributors provide a thorough analysis of a rapidly changing political role provoking important questions about the future of America s political system

**The New Imperial Presidency** Andrew Rudalevige, 2008-12-15 Has the imperial presidency returned Well written and while indispensable for college courses should appeal beyond academic audiences to anyone interested in how well we govern ourselves I cannot help regarding it as a grand sequel for my own The Imperial Presidency Arthur Schlesinger Jr Has the imperial presidency returned This question has been on the minds of many contemporary political observers as recent American administrations have aimed to consolidate power In The New Imperial Presidency Andrew Rudalevige suggests that the congressional framework meant to advise and constrain presidential conduct since Watergate has slowly eroded Rudalevige describes the evolution of executive power in our separated system of governance He discusses the abuse of power that prompted what he calls the resurgence regime against the imperial presidency and inquires as to how and why over the three decades that followed Watergate presidents have regained their standing Chief executives have always sought to interpret constitutional powers broadly The ambitious president can choose from an array of strategies for pushing against congressional authority finding scant resistance he will attempt to expand executive control Rudalevige s important and timely work reminds us that the freedoms secured by our system of checks and balances do not proceed automatically but depend on the exertions of public servants and the citizens they serve His story confirms the importance of the living Constitution a tradition of historical experiences overlaying the text of the Constitution itself

**Toward a North American Legal System** J. McHugh, 2012-10-31 Toward a North American Legal System is a collection of scholarship that looks at a timely issue in public policy Two decades after NAFTA the team assembled by James T McHugh works through both philosophical and practical questions related to a possibly more integrated legal system on the North American continent
