American History through Its Greatest Speeches Jolyon P. Girard, Darryl Mace, Courtney Michelle Smith, 2016-12-05 What did America's greatest orators say regarding significant issues and concerns throughout United States history? This three-volume set examines hundreds of the most historically significant speeches from colonial times to the modern era, allowing readers to consider exactly what the speakers said and to better understand the motivations behind each speech as well as the effect on the audiences that heard them. This essential reference work presents the most important and historically significant speeches delivered since colonial times, providing in essence a documentary history of the United States through these public utterances. Readers can witness American history unfold firsthand through these stirring and at times controversial speeches from Patrick Henry's fiery words calling for an American revolution through the words of the 19th-century abolitionists and Lincoln's immortal Gettysburg Address and up through the 20th century with President Wilson's famous Fourteen Points, FDR reminding Americans that the only thing they had to fear was fear itself, and George W. Bush responding to the attacks of September 11. For students, teachers, librarians, and general readers, this indispensable work provides essential reference resources on the speeches of great significance in American history. Each speech is prefaced by

a contextual headnote that provides essential background information and specific details about the speech This three volume set also includes a timeline a historical review of each era biographical sketches of each speaker and anecdotal sidebars containing additional information about the speech or speakers **Essays Towards a Bibliography of Woodrow Wilson** Princeton University. Buenviaje,2017-11-28 World War I was a global cataclysm that toppled centuries old dynasties and launched the American century Yet at the outset few Americans saw any reason to get involved in yet another conflict among the crowned heads of Europe Despite its declared neutrality the U S government gradually became more sympathetic with the Allies until President Woodrow Wilson asked Congress to declare war on Germany to make the world safe for democracy Key to this shift in policy and public opinion was the belief that the English speaking peoples were inherently superior and fit for world leadership Just before the war British and American elites set aside former disputes and recognized their potential for dominating the international stage By casting Germans as barbarians and spreading stories of atrocities the Wilson administration persuaded the public including millions of German Americans that siding with the Allies was a just cause **The Stockton Free Public Library Bulletin** Stockton (Calif.).
