Research Service,L. Elaine Halchin,2016-09-29 The crux of a presidential transition is the transfer of executive power from the incumbent to the President elect Yet the transition process encompasses a host of activities beginning with pre election planning and continuing through inauguration day The process ensures that the federal government provides resources to presidential candidates transition teams and eventually the President elect s team and includes close coordination between the outgoing and incoming Administrations The Presidential Transition Act PTA of 1963 as amended established formal mechanisms to facilitate presidential transitions and authorizes the Administrator of General Services to provide facilities and services to eligible presidential candidates and the President elect A presidential transition facilitates the establishment of a new Administration and prepares it to govern Additionally as noted by the Senate Committee on Homeland Security and Governmental Affairs in a report on S 1172 114th Congress Presidential Transitions Improvements Act of 2015 planning for a presidential transition helps to ensure the nation s security The smooth and orderly transfer of power generally is a notable

feature of presidential transitions and a testament to the legitimacy and durability of the electoral and democratic processes. Yet at the same time a variety of events, decisions and activities contribute to what some may characterize as the unfolding drama of a presidential transition. Interparty transitions in particular might be contentious. Using the various powers available a sitting President might use the transition period to attempt to secure his legacy or effect policy changes. Some observers have suggested that if the incumbent has lost the election he might try to enact policies in the waning months of his presidency that would tie his successor's hands. On the other hand a President elect once in office and eager to establish his policy agenda and populate his Administration with his appointees will be involved in a host of decisions and activities some of which might modify or overturn the previous Administration's actions or decisions.
